Attention of : The Atta-boy Team

* In thanks to Trooper Stanley Carden

The engine in my car died so I was driving my dad's truck until my vehicle was fixed. Unknown by me, the gas gauge doesn't work on the truck.

January 3, 2008 at 7:10 Am, I ran out of gas on HWY 27/mile marker 8. In the hour and a half or so, sitting in 17° weather and dark of the morning, I was passed by one policeman and later a rescue truck. A policeman did stop on my passenger side some time later and asked if I had called anyone. He then called TDOT and left me. I was very cold and my feet were beginning to hurt.

After 8:00 Am

I'm guessing it was about 8:20 AM when Trooper Stanley Carden pulled behind me. He assessed the situation and realizing how cold I was, made room in his car for me to sit and get warm.

TDOT was very busy that morning and I am thankful to Trooper Carden for his kindness. David Tomlinson, with TDOT was also very courteous and funny. They helped me through a difficult situation. and both said they were just doing their job.... Well, they did their job with flair!

Please pat these guys on the back.

Sincerely,
Connie
