

# Tennessee Emerald Ash Borer Quarantine

## Emerald Ash Borer Quarantined Areas

In Tennessee, EAB quarantines exist for **Claiborne, Blount, Grainger, Knox, Loudon and Sevier Counties**. The following are regulated articles:

- (a) Emerald Ash Borer; firewood of all hardwood (non-coniferous) species; nursery stock, green lumber, and other material living, dead, cut, or fallen, including logs, stumps, roots, branches, mulch and composted and uncomposted chips of the genus *Fraxinus*.
- (b) Any other article, product, or means of conveyance not listed in paragraph (a) of this section may be designated as a regulated article if the Commissioner determines that it presents a risk of spreading Emerald Ash Borer and notifies the person in possession of the article, product, or means of conveyance that it is subject to these regulations.
