## General Information

The Tennessee Governor's Schools offer Tennessee high school students intensive learning experiences on postsecondary campuses. Each school system is encouraged to share the Governor's School information and applications with strong students who meet the criteria listed below. Nominations for the Tennessee Governor's Schools must be made by high school educators who can speak to the student's potential for success in the program. Each Governor's School convenes an application review committee to select the students invited to attend each school.

### **Submitting the Application:**

Completed applications should be mailed by the nominating educator to the respective Governor's School(s). Applications submitted directly by students will not be accepted. The student may keep a copy of the application, excluding the confidential *Teacher Reference* forms and the confidential *Counselor/Administrator Verification* form; the nominating educator should keep one complete copy of the submitted application package.

### Application Submission Instructions

Ensure applications are complete, arranged in the correct order, and contain all required signatures and documents as outlined below.

1. Nominating educators must submit applications with a postmark no later than the deadline(s) listed on page two of each application.
2. Each Governor's School has specific essay and writing sample questions. All questions must be answered and submitted with the application packet.
3. Class rank, class size, numerical test scores, etc., must be verified by the school counselor or school administrator, if available. Please note that while PSAT, SAT, and ACT scores are not mandatory, school administrators are strongly encouraged to include this information if available.
4. Students are to list two teachers (see school-specific list) to complete the confidential *Teacher's Reference* forms. If the teacher is not the faculty member nominating the student, he/she should return the completed reference forms directly to the nominating educator. There is a space available at the bottom of the teacher reference form to put the name of the school personnel to whom the form is to be returned.
5. An official transcript must be included in the application packet.

Additional guidance on completing the required forms can be found on page 3 of the application packet, "Application Checklist."

## **Governor's School for Integration of Biological & Statistical Sciences**

East Tennessee State University

May 27 - June 29, 2018

The School in Integration of Biological & Statistical Sciences is a five-week program that will broaden a student's appreciation and knowledge by exposing him or her to a wide range of topics in the biological and statistical sciences, and to scientists who are active researchers in these areas. Model building and data analysis will play a critical role in the school curriculum. Career exploration and choice are woven throughout the program, as are cognate activities such as Science, Technology, Engineering and Mathematics (STEM)-focused field trips. Students will additionally be introduced to practical scientific methodology and data analysis via student directed research projects. Thus, the Governor's School in Integration of Biological & Statistical Sciences at ETSU will provide a series of courses, laboratories, projects, field trips, seminars, lectures and other activities centered on statistics and biology.

**Courses:** Students will take Math 1530, Probability and Statistics, and will earn three (3) college semester credit hours. Students will also take Biology 1110/1111, Biology for Majors I, and will earn four (4) semester credit hours. The activities at the school will cover the approved syllabi for these courses, while extending the scholars' intellect in directions not possible during a regular school year. The ubiquity of mathematical modeling, data analysis and the need for high-level computation will become more evident in the morning sessions, when the statistics class will be based on data and simulations that arise from a scientific, often biological, context. In the afternoon, biological concepts, will be presented covering topics traditionally taught in a college biology class for science majors, with data analysis being woven throughout the course. Biology labs will be taught with relevance to the topics covered in class, including collecting and analyzing datasets.

**Prerequisites:** Applicants should have a grade of 3.0 or higher in all high school mathematics classes taken, and they should have had Algebra II. Applicants should have had two semesters of high school science with a grade of 3.0 or higher in each course. Students who have taken (or plan to take) AP Statistics or AP Biology will find that other Governor's Schools are more suitable for them.

**Application deadline: December 1, 2017**
