Re: 2013-14 Safe Schools Report

Date: February 24, 2015

The Schools Against Violence in Education (SAVE) Act of 2007 (T.C.A. §49-6-801-810) provides that the commissioner of education report annually to the governor and General Assembly concerning “the prevalence of violent and disruptive incidents in the public schools, and the effectiveness of school programs undertaken to reduce violence and assure the safety and security of students and school personnel.”

The attached report provides a summary of serious incidents occurring within Tennessee schools as well as an overview of statewide efforts currently underway to ensure the safety of our students and staff.

Questions regarding the report may be directed to Pat Conner, Executive Director, Office of Safe & Supportive Schools, at (615) 253-0018 or via email at pat.conner@tn.gov.

Introduction

The Schools Against Violence in Education (SAVE) Act established specific school safety planning and reporting requirements for Tennessee schools and the department of education. The act specifically directs the Commissioner of Education to provide an annual report to the governor and the General Assembly regarding the ability of schools to provide a safe and supportive learning environment.

The following report identifies the number of serious incidents that occurred in Tennessee schools during the 2013-14 school year as well as a summary of the resources and strategies currently being used in schools and districts across the state.

Serious Incidents in Tennessee Schools

Serious incidents related to student discipline in Tennessee schools are tracked via the department's student management information system. For the purposes of this report, the department has developed a measure entitled the School Safety Index which encompasses those incidents deemed to be most directly related to the safety and welfare of students including the following:

- Possession of a handgun
- Possession of a rifle or shotgun
- Possession of an explosive or incendiary device
- Possession of a weapon other than a firearm
- Assault of a teacher or staff member
- Assault of a student
- Sexual assault
- Aggravated assault of a teacher or staff member
- Aggravated assault of a student
- Attempted homicide

Below you will find an abbreviated Index for the State of Tennessee for the past four years (Figure 1).

Figure 1: School Safety Index Totals (2009-2014)

**Bullying and harassment are considered serious issues but for this report they are not included in the School Safety Index. Please see section on bullying below for further information.

The total numbers of the above incidents that have been reported for the school year are divided by the school's average daily membership to arrive at a School Safety Index Score. The full School Safety Index Report, disaggregated by school and district, is attached as Appendix A.

Bullying

In 2012, the Tennessee General Assembly adopted legislation (Public Chapter 992) to require the department of education to "report on the number of bullying cases brought to the attention of school officials during the preceding year and the manner in which they were resolved or the reason they are still pending."

Pursuant to this provision, the Bullying and Harassment Compliance Report was released December 2014. Based on the information available, each local education agency (LEA) in Tennessee satisfied the requirements of the state bullying and harassment laws (T.C.A. §49-

6-1014 through §49-6-1019) and submitted bullying compliance information on its compliance report form. The bullying compliance information for each LEA can be found at http://www.tn.gov/education/legal/doc/Bullying_Compliance_rpt_2014_appendix.pdf.

To support school staff and administrators on bullying, harassment and applicable state and federal laws, a series of **Bullying Policy to Practice** trainings were conducted in September 2013 and April 2014. In addition, the department continues to support the availability of certified Olweus Bullying Prevention Trainers. There are currently 88 certified trainers available to support Tennessee schools. A listing of trainers can be found at http://www.tn.gov/education/health_safety/docs/OlweusTrainersRevised10-25-13.pdf.

Conflict Resolution and Character Education

T.C.A. §49-2-118 and 49-6-1007 provides that the Commissioner report annually regarding the implementation of conflict resolution and character education programs in Tennessee schools. Based on the Schools Against Violence in Education Act (SAVE Act) self-assessment, conflict resolution programs were used in 130 school districts and character education programs were used in 129 school districts.

Safe Schools Act of 1998

Tennessee communities share a long history of working together to prevent school violence. The two most significant policy developments came with the Safe Schools Act of 1998 and the Schools Against Violence in Education (SAVE) Act of 2007.

The **Safe Schools Act of 1998** established a matching grant program for Tennessee schools. Safe Schools funds are available to all Tennessee school districts and may be used for a variety of safety and violence prevention activities including school resource officers, security and surveillance equipment and violence prevention programs. The amount of funding available through this program has remained level at approximately \$4.8 million since 2001. A summary of the grants to individual districts and the purposes for which they are used is attached as Appendix B.

In addition to funding for districts, the Safe Schools Act provides a small amount of funding, approximately \$245,000, to the department to support training activities under the auspices of the Tennessee School Safety Center. A summary of the training provided is attached as Appendix C.

Schools Against Violence in Education (SAVE) Act of 2007

T.C.A. §49-6-(801-814) or the SAVE Act (Schools Against Violence in Education) establishes specific and consistent requirements for local education agencies in providing a safe school environment. The SAVE Act requires school systems in Tennessee to adopt and annually review district and building-level school safety plans. Districts are required to complete the

self-assessment, reconvene their district emergency operations planning team, review and update their existing district-wide Emergency Operations Plans (EOPs), and submit an electronic copy in ePlan, Tennessee's online planning and grants management system. ePlan is designed to promote collaboration among stakeholders allowing for easier program monitoring and provides the state the capability to retrieve districts updated (EOPs) and the response roster from every district and school. The complete compliance process can be reviewed online at http://www.tn.gov/education/health_safety/SAVE_act.shtml. An abbreviated version of the self-assessment document is provided as Appendix D.

A series of regional technical assistance workshops were conducted in June 2014 to provide support to districts on uploading SAVE Act compliance documents in ePlan as well as instructions for submitting the Safe Schools budget in ePlan. Updated district (EOPs) are currently being reviewed in collaboration with the Tennessee Department of Safety's Office of Homeland Security and the Tennessee Emergency Management Agency.

To expand the capacity of the Tennessee School Safety Center to assist LEAs in the development and implementation of high-quality school EOPs, a director was hired in December 2014. The director provides training and technical assistance to LEAs on developing and implementing school EOPs, including the use of memoranda of understanding with community partners, and provide training and technical assistance to LEAs on the implementation of National Incident Management System (NIMS).

Federal Safe and Supportive Schools Demonstration Grant

Tennessee is one of 11 states to be awarded a Safe and Supportive Schools Demonstration Grant (S3) from the U.S. Department of Education. The overall mission of the Safe and Supportive Schools (S3) Project is to ensure safe and supportive learning environments for all students.

The S3 grant, currently in its fourth and final year of implementation, provides \$3.4 million annually for the development of a measurement system to assess conditions for learning – or school climate – in 27 pilot districts. School climate refers to the quality and character of school life. Research has demonstrated that positive school climate is associated with stronger academic performance, higher graduation rates, decreased incidences of violence and increased teacher retention.

Districts receive a limited amount of funding to implement best practices targeted at improving school climate in three broad areas: (1) engagement; (2) safety; and, (3) environment. A more in-depth description of the project, including the measurement constructs and participating districts is attached as Appendix E.

School Security/Law Enforcement Partnerships

As evidenced by activity across the state, Tennessee schools and communities are reviewing current policies and practices and searching for viable options to enhance the security of schools. The most popular and widely practiced model is the School Resource Officer (SRO). The first SRO program began in Rutherford County over 20 years ago. A partnership between schools and law enforcement, the SRO is a duly trained and sworn officer of a law enforcement agency whose specific duty assignment is a school. Tennessee SRO's are required to receive 40 hours of basic school resource officer training within the first year of their assignment and a minimum of 16 hours per year afterward. A Memorandum of Understanding (MOU) between the district and the law enforcement agency is required. Typically, the MOU specifies the role and responsibility of the SRO, how the officer will be selected or assigned to a school, how the position will be funded, and how supervision and training will occur.

Specific SRO responsibilities vary from jurisdiction to jurisdiction; however, most follow a community policing model that emphasizes the importance of the officer developing positive relationships with students and staff. These officers typically become an important part of the school community.

Districts report annually to the department regarding their SRO programs and the following information is based on the October 2014 report. Of the 947 full-time equivalent SRO positions that were identified in the most recent report, officers were assigned to elementary, middle and high schools as evidenced by Figure 2:

Figure 2:

Funding for SROs primarily comes from local government and is identified in Figure 3:

Figure 3:

Compared to the 2012-2013 school year there has been a 10 percent increase in the number of SROs assigned to schools, especially at the elementary level. However, at an estimated cost range of \$40,000 to \$80,000 per officer, many districts and jurisdictions who added officers are finding it difficult to maintain the level of funding necessary to continue the additional SROs.

For those districts that have not been able to find the funds, or in some cases qualified officers, to allow coverage of all schools, alternative partnerships with county and city law enforcement agencies have been expanded. These partnerships secure an ongoing **law enforcement presence** without the specific assignment of a full-time officer to every school. Examples of this practice include modifications of patrol assignments to include more frequent school visits - sometimes including the use of schools as satellite offices - and the use of reserve or retired officers to provide a basic security presence without implementation of the full SRO model. While not as comprehensive as the traditional SRO model, this option provides school districts with additional support for instances where funding or needs might preclude a full-time SRO.

A second option for some schools and districts has been the use of **licensed security guards** as provided in title 62, chapter 35. Some potential benefits of this model are reduced cost and reduced hiring time. However, some weaknesses of the model are that security guards receive far fewer hours of training than police officers. Additionally, security guards do not have arrest powers beyond that of any citizen of Tennessee and have different investigative authority than police officers.

Pursuant to the **School Security Act of 2013**, a third option would allow a person employed by districts as a faculty or staff member to carry a firearm on school grounds if the person is: (1) authorized to carry a firearm; (2) has written authorization of the director of schools; (3) is a law enforcement officer or has certain former law enforcement officer service and is in compliance with all standards and training commission regulations; and, (4) has completed 40 hours of basic SRO training. Because use of this option is confidential, we are unable to report the extent of usage.

Tennessee School Safety Specialist Program

Acknowledging limited resources and the myriad of issues schools are facing with regard to safety, the Office of Safe & Supportive Schools unveiled the *Tennessee School Safety Specialist Program (TSSSP)* in June 2014. The *TSSSP* provides the SAVE (Schools Against Violence in Education) Act contact for districts ongoing training and information on national and state best practices, as well as exemplary resources for school safety, security, intervention/prevention, and emergency preparedness planning.

The intent of *TSSSP* is to ensure that every school district has at least one highly trained person in basic school safety planning and the development of high-quality EOPs. Directors of schools were invited to nominate the SAVE Act contact from their district to participate in *TSSSP*. Participants completed a five-day basic training program to attain the *TSSSP* recognition. A second cohort of training was conducted in September 2014 bringing the total number of highly qualified district safety personnel to 75 representing each of their districts. A third cohort will be trained in June 2015.

In April 2015 the Tennessee School Safety Center will unveil the Best Practice School Safety Mentor program. The goal of the program is provide assistance to school districts on the development of high-quality EOPs. Drawing from the cadre of highly trained Tennessee School Safety Specialists, Best Practice School Safety Mentors will be selected to provide support, technical assistance and resources to school districts. There will be a mentor selected for each of the Tennessee eight core regions. Mentors will be paired in their region with a mentor selected from Emergency Management. The pairing of a mentor from education and emergency management will ensure that districts receive the support necessary to expand and enhance their current initiatives around school safety. This program is unique to Tennessee and has the potential of being recognized as a national best practice for school safety.

SAFE SCHOOLS ANNUAL REPORT

APPENDICES

SAFE SCHOOLS ANNUAL REPORT

APPENDIX A: SCHOOL SAFETY INDEX

Description: The SAVE Act states that “the commissioner shall report to the governor and the General Assembly concerning the prevalence of violent and disruptive incidents in the public schools.” To fulfill this legislative mandate, the department has developed the *School Safety Index*. For each school, the reported sum of school safety incidents is divided by the school’s average daily membership (ADM) to arrive at a ratio of incidents to ADM. A higher index score indicates a relatively higher level of reported incidents. Schools that did not report any of the incidents identified below will not appear in the report.

Possession of a handgun
Possession of a rifle or shotgun
Possession of an explosive or incendiary device
Possession of a weapon other than a firearm
Assault of a teacher or staff member
Assault of a student
Sexual assault
Aggravated assault of a teacher or staff member
Aggravated assault of a student
Attempted homicide

SAFE SCHOOLS ANNUAL REPORT

APPENDIX B: SAFE SCHOOLS GRANTS

Description: The Safe Schools Act of 1998 (*T.C.A. §49-6-4302*) provides funding for school safety and violence prevention activities. Each district is eligible to receive funding based on the district's relative share of BEP funding. A 25 percent local match is required. Many school districts use their Safe Schools grant funds to provide a SRO. Other uses of these funds typically include security enhancements such as improved building access control or monitoring and violence prevention strategies such as counselors and alternative education improvements. This is a listing of the grant awards for this school year and how these funds will be utilized.

School System	How Funding Was Used	STATE	MATCH	TOTAL
Alamo City School System	Provide facility improvements that will enhance campus security	\$4,100	\$400	\$4,500
Alcoa City Schools	Purchase (update)/install monitoring equipment for school campuses	\$8,400	\$3,100	\$11,500
Anderson County Schools	Provide school resource officers	\$35,100	\$10,900	\$46,000

G362 Multi-Hazard Emergency Planning for Schools

This course provided the knowledge, skills, and tools needed to develop or refine an all-hazards school Emergency Operations Plan (EOP) and to identify how to train and exercise the school EOP. Throughout the course, school representatives reviewed their existing EOP, or identified how to develop one, determined areas for improvement, and made changes or up-dates to the EOP. They also identified the benefits of training and exercising the school's EOP, and who needs to be involved in training and exercising the EOP.

1.0: EMERGENCY MANAGEMENT

A district and school level emergency response plan (ERP) has been developed in conjunction with local emergency response agencies. The ERP is fluid and encompasses a multi-hazard approach to planning.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.1	A district and school level emergency response plan (ERP) has been developed in coordination with local emergency response agencies and other appropriate stakeholders including the following: police and fire departments, emergency management agency, EMS, local medical facilities, administrators, staff, parents and students, school nurse(s), school resource officer(s), mental health agencies, school transportation personnel and other appropriate community representatives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.2	All district and school ERPs include the following elements: first responder team, postvention team, parent notification plan, plan for relocating and releasing students, designated primary and alternate evacuation routes, planning for school-sponsored events, field trips, bus emergencies and on-site and off-site command posts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.3	District and school ERPs follow FEMA's (Federal Emergency Management Agency) emergency management cycling including the following stages in planning: mitigation and prevention, preparedness, response, and recovery.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.4	District and school ERPs integrate a multi-hazard approach to planning and annually assesses the following hazards: classrooms, community, structural and non-structural. When present, the SRO (School Resource Officer) conducts /or assists schools in these assessments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.5	The ERP has identified district and school safety teams with roles and responsibilities aimed at preventing, responding to and recovering from emergencies. Members include but not limited to the following individuals: director of schools, administrators, staff, parents, school bus personnel and local emergency response agencies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.6	The ERP designates district and school-level safety coordinators. The names of these individuals have been communicated to local emergency response agencies, administrators, staff and students, and other appropriate individuals.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.7	An Incident Command System (ICS) for the district and school integrates a chain of command (outlined in an organizational chart) with a single incident commander and alternates to carry out the ERP. ICS utilizes FEMA's five functional areas including: command, operations, planning, logistics and finance/administration.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.8	Each individual falling under the Incident Command System (ICS) has assigned and designated responsibilities during an emergency and received training accordingly.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.9	Mutual aid agreements exist with local response agencies that outline the type of assistance, and identify a chain of command for activating the agreement, define a common language for communicating before, during and after an emergency, and include response agencies when conducting functional exercises.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.10	The district and schools have readily available and provided a current copy of the ERP, floor plans/blueprints, schematics, and maps of the school interior and grounds to local emergency response agencies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.11	The district and school ERP has designated a first responder team of individuals trained in CPR, bloodborne pathogens, first aid, general emergency management and the use of an AED (automated external defibrillator). The first responder team is readily available to manage and care for students, administrators, staff, and visitors in the absence of or while awaiting local emergency response agencies.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.12	The district ERP has integrated a recovery strategy into the plan that coordinates a postvention team available to each school. The team is accessible to provide counseling and other support for students, staff, and parents following an emergency or other traumatic event.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.13	The district and school ERPs included an emergency transportation plan for moving students to an off-site location including at least two alternative sites (one of which is outside the local community).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.14	The district ERP has addressed any potential emergencies that might take place while transporting students and staff (a separate emergency plan for school buses is developed and revised annually or as needed).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.15	An internal and external communication plan is developed to ensure contact is established in a way that facilitates rapid and secure distribution of critical emergency information. Furthermore, plain language is developed and used for commands that alert administrators, staff, students and local emergency response agencies to the appropriate emergency response(s).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.16	The district ERP has outlined a media response/communication plan. At minimum the plan includes the following: a designated public information officer (PIO), the establishment of one unified message, plan for communicating information to parents and the community, identified and separate staging areas for the media, and guidelines on how to respond to media questioning during an emergency.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.17	District, school, classroom, and bus emergency kits are on hand and include (when appropriate): specific emergency response plans (flip charts, crisis cards, etc.), staff and student emergency contact and medical information, bus route information, student release information, first aid kits and other appropriate items.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.18	District and school ERPs address and plan for the distinct needs of special populations during an emergency such as disabled and/or non-English-speaking students and staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.19	The district and school ERPs have included plans for the documentation of administrative actions during an emergency. Such records might include the following: telephone logs, detailed description of events and actions taken, records of injuries and follow-up actions, accounting for administrators, staff and students.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.20	The district and school ERPs have included plans for the notification of parents and parent pick up documentation, e.g. School Messenger, School Cast, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.21	In coordination with local emergency response agencies, the district and school has developed, disseminated and implemented emergency drills/procedures for the following: evacuation, reverse evacuation, lockdown, shelter-in-place, and drop, cover and hold. Administrators, staff, and students have been trained in these procedures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
1.22	The school district is engaged with local emergency planning committee in continuity of operations planning (COOP). Such planning might include: identifying mission-critical operations, developing alternative staffing plans for teachers and staff, developing plans for continuity of education, services for special needs population, and food services for students receiving free or reduced price lunches.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.23	All components of the district and school ERP are reviewed and revised annually based on deficiencies identified through drills, exercises, and actual implementation. Any new potential hazards, safety issues, and/or threats (based on yearly assessments) are accounted for in the ERP. Revisions to the ERP are made in coordination with all appropriate stakeholders and delivered to local emergency response agencies ensuring that a current plan resides with these agencies at all times.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
1.24	Consistent with <i>Tenn. Code Ann. § 49-6-801</i> the district has made available a summary of the system-wide ERP for public comment at least (30) days prior to its adoption.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Indicator	Target Date for Completion	Strategies for Implementation	Stakeholders to Assist with Implementation

2.0: PREVENTION AND INTERVENTION

Some emergencies can be prevented and/or mitigated. School safety planning includes taking appropriate steps to prevent problems from developing in the first place. Districts should attempt to defuse a crisis before it occurs by creating supportive learning environments that strive to reduce potential risks to the greatest extent possible. This includes training administrators and staff to identify students who exhibit early warning signs for the potential use of violence.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
2.1	Administrators, staff and transportation personnel are trained to identify the early-warning signs associated with students who pose a potential threat to others or themselves including training in threat assessment and crisis intervention.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.2	The school district has established linkages to local mental health agencies, including a mobile crisis team/postvention team that will support schools during the recovery phase of a crisis.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.3	Administrators, staff, and transportation personnel are provided in-service training to teach positive social skills, healthy lifestyles, and violence prevention and fuse these topics into the curriculum	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.4	Students have access to licensed school counselors who are implementing the <i>Tennessee Comprehensive School Counseling Model</i> and are empowered to make recommendations to outside social service agencies that can assist the student with his or her particular needs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.5	Parents, students and the community are partners with the district and school and take an active role in the collective responsibility for the safety of the schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2.6	Alternatives to suspension and expulsion have been built into the disciplinary policy and are appropriately and consistently used. Alternative education programs utilize best practices in the field as outlined in <i>Tennessee's Model for Alternative Education</i> .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3.0: POLICIES AND PROCEDURES

Carefully developed policies and procedures can help to reduce emergencies and compliment your existing emergency response plan (ERP). Effective policies and procedures outlining specific actions regarding day-to-day operations can help prevent, or reduce the chances of an emergency and/or crisis.

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
3.1	The district and all schools have a written code of conduct based on stakeholder input that is revised annually, ensures safe and disciplined classrooms, avoids technical jargon, and is clearly communicated to staff, students and parents. (i.e. commonly found in the student handbook)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.2	Consistent with <i>Tenn. Code Ann. § 49-6-1016</i> , the school district has implemented a policy prohibiting and responding to an incident of harassment, intimidation, and bullying. This policy should be included in the code of conduct. The school district shall provide training to teachers and counselors regarding the policy and appropriate procedures relative to implementation of the policy.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.3	The district has a formal procedure to receive, investigate, and respond to threats, an actual incident of violence, or other misconduct by students or staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.4	The State Board of Education's <i>Unsafe School Choice Policy</i> is implemented and regularly communicated to administrators, teachers, staff and students.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.5	A memorandum of understanding exists when a school resource officer is assigned to a particular school building. The MOU designates the SRO's role within the school environment and their responsibilities during an emergency. Furthermore, a MOU exists between the district and a local mental health agency.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.6	The district has formal procedures in place that limit access to each educational facility to authorized students, administrators and staff. Procedures include a clearly marked and centralized point for screening all visitors. Each facility also has procedures for securing the school after hours and/or when unoccupied.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Indicators of Success	Met	Not Met/ Action Plan Required	In Progress/ Action Plan Required	Not Applicable/ Explanation Required
3.7	Consistent with <i>Tenn. Code Ann. §. 49-5-413</i> the school district has conducted criminal history/background checks of all teachers and other employees working in close proximity to school children or children in a child care program. Pursuant to the legislation cited above, history/background checks are conducted on all vendors having direct contact or access to the grounds of a school or child care center when children are present.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.8	The district has a policy that prohibits weapons on or in any educational facility. This policy has been communicated to administrators, staff, transportation personnel, students, parents and the community. Signs are posted in each facility that indicates the existence of this policy.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.9	A certified fire marshal inspector has conducted an annual fire safety assessment of all educational facilities to ensure compliance with the guidelines set forth. Deficiencies are immediately addressed and remedied based on the inspector's findings.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.10	The district has developed and implemented procedures for verifying that required and planned emergency drills (e.g. fire, severe weather, intruder) have been conducted at each school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.11	The district has adopted procedures for responding to reports of a firearm on campus. Procedures include the immediate notification of local law enforcement as required by <i>Tenn. Code Ann. § 49-6-4209</i> .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3.12	When the school district negotiates contracts with outside agencies, the district specifies appropriate measures to ensure the safety and general well being of students benefiting from those services (i.e. requiring an emergency response plan, training, drills, etc.).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

4.0: EVIDENCE INVENTORY

The Evidence Inventory provides a snapshot view of strategies and procedures that the district has in place to ensure a safe and supportive learning environment. Not all of the strategies and procedures listed below are appropriate or necessary for all schools. It is important, however, to periodically assess each of the broad areas identified. “Broadly Used” indicates that most schools in the district use this practice; “Limited Use” indicates some but less than half of schools in the district use this practice. “Initial/Trial Use” indicates new use of the practice in the district.

School Security: School security is broadly defined as protection from danger or loss. Sometimes referred to as “target-hardening,” security strategies generally focus on access control and supervision.	Broadly Used	Limited Use	Initial/Trial Use	Not Used

APPENDIX E:

SAFE AND SUPPORTIVE SCHOOLS GRANT

Tennessee Safe and Supportive Schools

Measuring School Climate and Conditions for Learning in Tennessee Public Schools

2013–14

What is school climate?

School climate refers to aspects of the school environment that make students feel academically challenged, physically and emotionally safe, and valued and connected to their school settings. Positive school climate depends on the contributions of all members of the school community, including students, teachers, parents, and school leaders, to create a safe and supportive environment where every child can succeed. School climate involves ensuring students' physical, social and emotional safety; promoting social acceptance and opportunities for participation for students and families; creating a teaching and learning environment with high learning expectations and support for learning achievement for all students; and using fair and restorative disciplinary practices that are consistently implemented by all staff for all students. School climate improvement efforts involve comprehensive change in community norms, personal interactions, and institutional procedures, rather than reliance on any single intervention or dimension of behavior or performance. Research and practice have consistently demonstrated an association between positive school climate and improved student learning and school performance.

What is the Safe and Supportive Schools (S3) Initiative?

The U.S. Department of Education, Office of Safe and Healthy Students, awarded Tennessee over \$13 million over the course of 5 years in a Safe and Supportive School (S3) grant to establish school climate measurement and supports for school climate interventions within high need districts and schools.

Within Tennessee, the mission and goals of the Safe and Supportive schools (S³) grant are to create and sustain safe and supportive learning environments that promote academic success for all students by:

- Developing a measurement system to collect and report data assessing student, parent, and teacher perceptions of school engagement, school safety and school environments at the school building level.
- Providing data to the education community that can be used to identify relationships between conditions for learning and academic outcomes, and to support the effective and efficient allocation of resources.
- Establishing a Center for School Climate to provide teachers and school leaders with quality professional development opportunities, and to engage students, parents and the broader community in a process of continual school improvement.

Key Accomplishments

- ✓ Constructed reliable and validated survey measurement tools that are custom-designed with stakeholder input from students and educators in Tennessee.
- ✓ Established a sustainable, web-based data collection and reporting infrastructure to measure student, teacher, and parent perceptions of school climate to direct school improvement efforts.
- ✓ Increased school capacity to design and implement needs-driven, evidence-based school climate intervention practices across 27 school systems statewide.
- ✓ Provided professional development and technical support opportunities to S3 schools to help educators interpret and utilize school climate data to support local planning and decision-making.
- ✓ Demonstrated measureable improvements in school climate conditions in 91.2 percent of S3 high schools, as measured by changes in the Tennessee Safe and Supportive Schools Index.

School Climate Measurement in

Tennessee

The Tennessee S3 initiative defines a framework for understanding school climate that is based on the U.S. Department of Education school climate model and that measures three broad dimensions of school engagement, school safety, and the school environment. The three dimensions and their respective components identify key aspects of the school environment that research has linked to student learning, and that can be systematically measured to assess school needs, establish benchmarks for performance and accountability, and monitor school improvement over time.

School Engagement. For students to feel supported and motivated to achieve, they must feel valued and supported in their relationships with other students, teachers, and school leaders, feel a sense of connection to school, and be meaningfully engaged in the school community.

School Safety. For students to focus on learning, they must feel safe and secure while at school and free from threats or physical violence, bullying or harassment, or exposure to substance abuse and its negative consequences.

School Environment. For students to feel engaged and motivated to learn, they should be in environments that value academic rigor and high expectations for student achievement, established clear rules and procedures, and provide physical surroundings that are attractive and well-maintained.

The Tennessee School Climate measurement system collects and reports annual data from students, teachers, and parents that capture aspects of each of these three dimensions. Specific data collection components include:

Student Survey. The 88-item student survey was piloted and later administered statewide in 2011–12 to students in 108 high schools. For the second year of its administration in 2012–13, the sample expanded to 143 high schools and middle schools statewide and was completed by 87,730 students. The third year of survey administration in 2013-14 had a sample of 204 high schools and middle school state wide and was completed by 89,748 students.

Anonymous Alcohol and Drug Use Survey. The core student survey includes a 5-item anonymous survey module that asks youth to self-report any 30-day use of alcohol, tobacco, and other drugs. Surveys were completed by 84,914 students across 143 schools in 2012-13. In 2013-14, surveys were completed by 97,566 students across 204 schools.

Parent Surveys. The 44-item parent survey assessing parent perceptions of school climate was first administered in 2012-13 in both electronic and paper-and-pencil survey formats. Surveys were completed by 7,023 parents, representing 117 participating schools. For 2013-14, parent surveys were completed by 9,998 parents across 185 schools

Teacher Survey. The 98-item pilot version of the teacher survey was administered for the first time in 2013–14. The pilot instrument is aligned with the student survey and measures 16 components of school engagement, school safety, and school environment. Teacher surveys were completed by 4,111 teachers across 128 schools.

2013–14 Student Survey Sample

The 2013–14 school year was the third year that the student survey was administered across Tennessee schools. The survey sample included 89,748 students from 27 school districts and 204 middle schools and high schools statewide. The number of participating schools grew by 29 percent in 2013-14, up from 143 high schools in 2012-13. The S3 districts that administered surveys in 2013-14 represent about 19 percent of Tennessee school systems. Surveyed students comprise about 68 percent of their enrolled student populations, with response rates at the school building level ranging from 23 to 97 percent of average daily membership (ADM).

About one-third of participating schools were large (900-1,499 students) or very large schools (>1,500), another one-third were medium-size schools (600-899 students), and the remaining one-third were small (300-599) or very small (<300). High school students in grades 9-12 comprised about 66 percent of the respondent sample, and middle school students in grades 5-8 comprised the remaining 33 percent.

60 percent of students in the respondent sample were White, 27 percent were African-American, 6 percent were Hispanic, and 7 percent were other races. The list of participating S3 school districts is shown below.

School Intervention Strategies to Address School Climate

S3 districts in Tennessee implement a broad range of school climate intervention practices that often compliment, or are integrated into, existing school-based programs and services. More than half of S3 districts (56%) have implemented evidence-based, whole-school approaches to school climate improvement that include the Positive Behavioral Intervention and Support (PBIS), Social Emotional Learning (SEL), and Olweus Bullying Prevention frameworks. Other common strategies include evidence-based alcohol and drug or bullying prevention education, professional development, youth engagement strategies, and awareness-raising activities. The graphic displays the percentage of S3 schools that are implementing school climate strategies either with S3 funding support or with resource from other state or local programs and initiatives.
