Important answers to some common questions

What do the terms “Disabled” and “Disability” mean? How are they defined?

For Short Term Disability

“Disabled” or “Disability” means that, due to sickness, or as a direct result of accidental injury, you cannot perform the duties of your Own Job at the State of Tennessee and cannot earn more than 80% of your Pre-Disability Salary.

You will need to receive Appropriate Care and Treatment from a doctor and comply with this treatment.

For Long Term Disability

“Disabled” or “Disability” means that, due to sickness, or as a direct result of accidental injury, you cannot perform the duties of your Own Occupation for any employer in your Local Economy during the Elimination Period and the next 24 months or 36 months (depending on the LTD plan you choose) or cannot earn 80% or more of your Pre-Disability Salary.

At the end of the Own Occupation period, you will be considered “Disabled” if you cannot perform the duties of Any Occupation for which you are reasonably qualified; taking into account your training, education and experience; for any employer in your local economy, or cannot earn 60% or more of Your Pre-Disability Salary.

You will need to receive Appropriate Care and Treatment from a doctor and comply with this treatment.

What is my Pre-Disability Salary, and when is it determined?

Your gross, base annual salary is defined as your Pre-Disability Salary. The gross base annual salary you make on September 1 of each calendar year determines the benefit you are eligible for beginning October 1 of each calendar year.

For new hires, annual salary will be based on your date-of-hire salary, and coverage will be effective after you complete one full calendar month of employment.

Every year there will be a benefit and premium level adjustment on September 1. If your salary has changed from the prior year, your benefit and premium will change accordingly. This adjustment will become effective on October 1.

When do Short Term Disability benefits begin and how long do they continue?

Benefits begin after the end of the elimination period and once all accrued paid leave is exhausted. The elimination period begins on the day you become disabled and is the length of time you must wait while being disabled before you are eligible to receive a benefit. Your elimination periods for Short Term Disability are as follows and will depend on which plan is chosen:

- Option A: 14 calendar days;
- Option B: 30 calendar days;

The maximum benefit period is 26 weeks. Please note – because every disability is different, not every disability may last for the maximum period.

Important answers to some common questions

When do Long Term Disability benefits begin and how long do they continue?

Benefits begin after the end of the elimination period and once all accrued paid leave is exhausted. The elimination period begins on the day you become disabled and is the length of time you must wait while being disabled before you are eligible to receive a benefit. Your elimination periods for Long Term Disability are as follows and will depend on which option is chosen:

- Option 1: 90 calendar days;
- Option 2: 180 calendar days;
- Option 3: 90 calendar days;
- Option 4: 180 calendar days

Your plan's maximum benefit period is dependent on your age on your date of disability. Disabled prior to age 65, then to Social Security Normal Retirement Age (SSNRA); Age 65, 24 months; Age 66, 21 months; Age 67, 18 months, Age 68, 15 months; age 69+, 12 months.

Please note – because every disability is different, not every disability may last for the maximum period.

I have “Leave” time accrued. Does this affect my Short Term and Long Term Disability benefit?

Yes. You must use all of your accrued leave. This includes all sick, annual, and any compensatory leave before your disability payments begin. You will not be paid from two different sources for your disability. Your disability payment will begin after your pay from any accrued leave ends.

Every Employee's situation is different. Consider how much accrued sick and annual leave you have when deciding whether to purchase Short Term and/or Long Term Disability Insurance.

Will using days from the “Sick Leave Bank” impact my STD and LTD benefit payments?

Yes. If you withdraw days from a sick leave bank, there will not be a disability benefit paid for the number of days withdrawn since you will be receiving full pay from the sick leave bank. You will not receive pay from two different sources for your disability. Your disability payment will begin after your pay from the sick leave bank ends.

How does Short Term and Long Term Disability work with FMLA?

If you are on FMLA due to your own disability, you may be eligible to receive disability benefits if you meet the definition of disability per the plan. If you are on FMLA for any other reason, such as care of a family member, for example, you are not eligible to receive disability benefits. While on FMLA leave, you will be billed for disability coverage just as you are for other benefits, such as Dental or Life.

Can I receive benefits if I return to work part-time?

Yes, as long as you are disabled and meet the terms of your Disability plan, you may qualify for adjusted Disability benefits.

Are there any Limitations for Pre-Existing Conditions?

For Short Term Disability: No.

For Long Term Disability: Yes. If you become disabled within the first 12 months of your coverage becoming effective, the plan will not cover a sickness or accidental injury for which you received treatment, consultation or care, or took medications or were prescribed medications in the 3 months prior to your participation in the plan.
