QUESTION / COMMENT	STATE RESPONSE
<p>1 Does the RFP's definition of expansion of existing capacity include an empty unit within an existing licensed facility that does not yet have a defined market, (private insurance vs. public sector funding), nor a defined youth population to be served?</p>	<p>Any PBC direct contractor should be aware that their current bed capacity may not be "reapportioned" as a part of their response to this RFP. It must be an expansion of its current bed capacity.</p> <p>Example: If a respondent currently has contracted Level 3 RTC capacity of 24, they may not count 16 of those 24 beds as "new" capacity for the Level 3 Continuum Special Needs Enhanced – Juvenile Justice contract.</p>
<p>2 Can a provider be awarded this contract with 8 clients per cottage and a total 6 cottages?</p>	<p>Yes, for the Level 2 Continuum Group Care contract. Those responding may bid in increments of eight (8) beds per group home (up to 64 total beds).</p>
<p>3 For a single floor dwelling, is a sprinkler system required even when the local codes/fire marshal does not require a sprinkler system?</p>	<p>No, the sprinkler system will not be required if the State or local fire marshal's office has determined that the building does not need to be sprinkled. If this is the case, include a statement in the proposal to that effect from the official.</p>
<p>4 Can you have a Level 2 and Level 3 facility on the same campus if the two groups are not intermixed?</p>	<p>Those two levels of care may be served together on the same campus. They may attend school together, take meals in the same cafeteria setting and participate in recreational activities. However, the two populations may not be intermixed with regard to therapeutic services, living quarters or facilities.</p>
<p>5 When does a site need to be fully functional and ready to take clients?</p>	<p>The contract's effective date is 07/01/15. However, the Department recognizes that, due to the prospective nature of this endeavor, a responder may not have the physical plant ready to accept youth on that specific date.</p> <p>It would be the Department's expectation that youth would be accepted by the facility (or facilities) no later than 09/01/15.</p>
<p>6 Can there be multiple units in one facility?</p>	<p>Yes.</p>
<p>7 What will the process be for choosing a provider/providers?</p>	<p>All proposals submitted to the State will be evaluated as detailed in Section 5. Evaluation & Contract Award of the RFP.</p>
<p>8 Would the committee or committee designee be willing to do a site visit prior to closing out the RFP in order to ensure the facility meets standards?</p>	<p>Yes.</p>
<p>9 How can applicants know, prior to awarding the RFP, if the facility meets the expectations and is acceptable to the committee?</p>	<p>The process for awarding a contract is detailed in Section 5.3 Contract Award Process.</p>
<p>10 Are the PBC expectations the same as they currently are for Middle Tennessee? Will</p>	<p>The current PBC performance expectations will remain unchanged for both the Middle and East</p>

QUESTION / COMMENT	STATE RESPONSE
there be new PBC expectations?	<p>Grand Regions. This applies to both the Level 2 Continuum Group Care contract as well as the Level 3 Continuum Special Needs Enhanced – Juvenile Justice contract.</p> <p>Note: Given the fact that these are two (2) completely new contracts, there will obviously be no In-Care population when the contract period begins on 07/01/15. PBC performance expectations will therefore apply to Admissions populations only.</p>
11 Can Level 2 Continuum Group Care Beds be operated out of a single family dwelling/residence?	The group care setting may be integrated within the community.
12 Can Level 2 Continuum Group Care beds be located in the same facility/but distinct area of a Level 3 Congregate Care setting? If not, can they be situated on the same physical site/separate building?	Those two levels of care may be served together on the same campus. They may attend school together, take meals in the same cafeteria setting and participate in recreational activities. However, the two populations may not be intermixed with regard to therapeutic services, living quarters or facilities.
13 After beds have been awarded, is there a timeline/expected date for those beds/services to be fully operational?	<p>The contract's effective date is 07/01/15. However, the Department recognizes that, due to the prospective nature of this endeavor, a responder may not have the physical plant ready to accept youth on that specific date.</p> <p>It would be the Department's expectation that youth would be accepted by the facility (or facilities) no later than 09/01/15.</p>
14 If the provider is currently operating a Level 3 Congregate Care facility licensed by DCS (and does not have a contract/license with DMHSAS), can the provider only respond to the Level 3 Continuum Special Needs Enhanced (JJ) proposal as a subcontractor?	No, the Respondent cannot submit a proposal as a sub-contractor. Sub-contracting could only occur after the contract has been awarded or if the Respondent determines that a sub-contract is necessary and lists the sub-contractor or sub-contractors in their proposal to the RFP.
15 The cost proposal per RFP Attachment 6.3 states that the "maximum rate" is \$300 per child per day for the Level 3 Continuum Special Need Enhanced Juvenile Justice. Above that, it state the per diem rates are pre-established by the Department of Children's Services and are not negotiable. Our question is related to the terminology – "maximum rate". Is this the rate that will be in the contract or is there a possibility that the rate will be reduced?	The rate to be paid for each level of service is identified in Attachment 6.3, Cost Proposal & Scoring Guide and Section C.3.b. Payment Methodology of the Pro Forma Contract.
16 Through this contract, would it be possible to serve Adjudicated youth (DJJ) along with social services youth (DCS) on the same	Yes, for the <u>Level 2 Continuum Group Care contract</u> .

QUESTION / COMMENT	STATE RESPONSE
campus? Including the school building?	
17 Our programming is based upon Cognitive Behavioral programming. Based on point 4 under Admission Criteria, do you believe that a youth with a 55-65 IQ can participate in such a program?	Youth with a primary MR diagnosis may be accepted for admission on a case-by-case basis. Youth with an IQ lower than 55 or who have adaptive functioning indicating moderate to severe mental retardation may not be appropriate unless the agency is licensed for this service type
18 According to Mental Health regulations, youth that are 19 years old cannot be housed with adolescents. This RFP state the age range as 13-19. What is the resolution for that?	Attachment B, Section E. Service Components & Overview , Item 17. of the <i>Pro Forma Contract</i> states the following: “Waivers – The program shall secure waivers from DMHSAS for youth entering or currently in the program that are 17.5 years of age”.
19 3.1.1.2. Can all maps, graphs, and charts be used as appendix and not count toward 115 page limit. Once you put proof of 5 year history of business, independent financial audit and credit report, a number of pages are taken up. Credit report and financial audit along take up nearly 30 pages.	Yes, the appendix is not counted toward the limit.
20 If you primarily do business with the Department of Children Services and mainly have only DCS kids, can you use them as a reference.	DCS cannot be counted as a reference, as they are the entity for whom services are being procured; however, you may use another state Departments with whom you conduct business.

1. INTRODUCTION

The State of Tennessee, Department of Children's Services (DCS), hereinafter referred to as "the State," has issued this Request for Proposals (RFP) to define minimum contract requirements; solicit responses; detail response requirements; and, outline the State's process for evaluating responses and selecting a contractor to provide the needed goods or services.

Through this RFP, the State seeks to procure necessary goods or services at the most favorable, competitive prices and to give ALL qualified businesses, including those that are owned by minorities, women, Tennessee service-disabled veterans, and small business enterprises, an opportunity to do business with the state as contractors, subcontractors or suppliers.

1.1. Statement of Procurement Purpose

This RFP will procure more than one contract

The Department of Children's Services (DCS) is mandated by statute to provide residential care and treatment to juvenile justice youth placed in its custody. In addition, all juvenile justice programs or programs related to the prevention, treatment or care of delinquent juveniles, including any service models or delivery systems in any form or by any name **must** be **evidence-based** pursuant to **Tenn. Code Ann. § 37-5-121**.

"Evidence-based" means a program or practice that is governed by a program manual or protocol that specifies the nature, quality, and amount of service that constitutes the program; and scientific research using methods that meet high scientific standards for evaluating the effects of such programs must have demonstrated with two (2) or more separate client samples that the program improves client outcomes central to the purpose of the program.

The Department is obligated to maintain a robust and diverse network of statewide providers, referred to as "DCS Provider Network" that delivers out-of-home care and treatment within the community to youth adjudicated delinquent. This network must have the capability to adequately and appropriately deliver a broad array of services that meet the clinical and behavioral needs of delinquent youth in state custody. The Department has determined that the current network lacks some critical service components necessary to ensure the effective treatment and care of custodial youth adjudicated by the courts as delinquent.

Potential Respondents may submit proposals for one or both services types.

For the purposes of this RFP, the current network has been determined to be deficient, specifically as it pertains to residential care and treatment for youth adjudicated delinquent. The network is in need of the following services:

1. Level 2 Continuum Group Care - (Level 2 Continuum GC); and,
2. Level 3 Continuum Special Needs Enhanced - Juvenile Justice (Level 3 Continuum SN Enhanced- JJ).

Respondents may bid on both levels of service (Level 2 Continuum Group Care and Level 3 Continuum Special Needs Enhanced-JJ) for the entire capacity amount or a portion of the capacity as indicated below.

Current PBC network residential providers responding to this RFP – please note that the bed capacity being sought through this RFP must be an expansion of the current bed capacity.

In order to qualify as a network provider, Respondents must demonstrate their ability, experience and qualifications in delivering the clinical services and treatment listed above to youth adjudicated delinquent and placed into the custody of the State. Respondents must have the infrastructure, training and clinical services necessary to facilitate permanency expeditiously for each youth served.

The purpose for this RFP is to establish the process for reviewing, evaluating and pre-qualifying Respondents that will become a member of the DCS network of providers delivering direct care and treatment to custodial juvenile justice youth. This process will ensure competition and equitability in the procurement of residential care and treatment services for this specific population of youth.

All services for residential care and treatment are procured utilizing Performance-Based Contracts (PBC). The Department of Children’s Services utilizes a system focused on outcomes for youth and their families within the context of their communities. The PBC methodology helps the Department achieve its goal of improved permanency outcomes for delinquent youth in its care.

The PBC concept employs a payment structure that reinforces efforts on the part of provider agencies to implement those services that specifically improve pre-determined outcomes. Outcomes to be analyzed and used in fiscal calculations toward performance measurement include: improved timeliness and likelihood of permanency (reunification, adoption or guardianship), reduced paid care days and reduced re-entries into care.

Outcomes are measured relative to uniform standards as well as pre-established baseline performance. More detail on these PBC outcome measurements is contained in the Pro Forma contracts.

A Technical Response should be economically prepared, with emphasis on completeness and clarity, and should NOT exceed one hundred fifteen (115) pages in length (maps, graphs, charts, as noted and included as an appendix will not count against this page limit). - the Respondent fails to organize and properly reference the Technical Response as required by this RFP and the RFP Attachment 6.2., Technical Response & Evaluation Guide; or
 - the Technical Response document does not appropriately respond to, address, or meet all of the requirements and response items detailed in the RFP Attachment 6.2., Technical Response & Evaluation Guide.

“RFP 35910-03145 TECHNICAL RESPONSE COPY”

The digital copies should not include copies of sealed customer references, however any other discrepancy between the paper Technical Response document and any digital copies may result in the State rejecting the proposal as non-responsive.

- 3.2.3. A Respondent must separate, seal, package, and label the documents and copies for delivery as follows:

3.3. Response & Respondent Prohibitions

- 3.3.1. A response must not include alternate contract terms and conditions. If a response contains such terms and conditions, the State, at its sole discretion, may determine the response to be a non-responsive counteroffer and reject it.
- 3.3.2. A response must not restrict the rights of the State or otherwise qualify either the offer to deliver goods or provide services as required by this RFP. If a response restricts the rights of the State or otherwise qualifies either the offer to deliver goods or provide services as required by this RFP or the Cost Proposal, the State, at its sole discretion, may determine the response to be a non-responsive counteroffer and reject it.
- 3.3.3. A response must not propose alternative goods or services (*i.e.*, offer services different from those requested and required by this RFP) unless expressly requested in this RFP. The State may consider a response of alternative goods or services to be non-responsive and reject it.
- 3.3.4. A Cost Proposal must be prepared and arrived at independently and must not involve any collusion between Respondents. The State will reject any Cost Proposal that involves collusion, consultation, communication, or agreement between Respondents. Regardless of the time of detection, the State will consider any such actions to be grounds for response rejection or contract termination.

- 3.3.5. A Respondent must not submit more than one Technical Response in response to this RFP, except as expressly requested by the State in this RFP. If a Respondent submits more than one Technical Response, the State will deem all of the responses non-responsive and reject them.
- 3.3.6. A Respondent must not submit more than one Technical Response and one Cost Proposal in response to this RFP, except as expressly requested by the State in this RFP. If a Respondent submits more than one Technical Response or more than one Cost Proposal, the State will deem all of the responses non-responsive and reject them.
- 3.3.7. The State shall not consider a response from an individual who is, or within the past six (6) months has been, a State employee. For purposes of this RFP:
- 3.3.7.1. An individual shall be deemed a State employee until such time as all compensation for salary, termination pay, and annual leave has been paid;
 - 3.3.7.2. A contract with or a response from a company, corporation, or any other contracting entity in which a controlling interest is held by any State employee shall be considered to be a contract with or proposal from the employee; and
 - 3.3.7.3. A contract with or a response from a company, corporation, or any other contracting entity that employs an individual who is, or within the past six (6) months has been, a State employee shall not be considered a contract with or a proposal from the employee and shall not constitute a prohibited conflict of interest.

3.4. **Response Errors & Revisions**

A Respondent is responsible for any and all response errors or omissions. A Respondent will not be allowed to alter or revise response documents after the Response Deadline time and date detailed in the RFP Section 2, Schedule of Events unless such is formally requested, in writing, by the State.

3.5. **Response Withdrawal**

A Respondent may withdraw a submitted response at any time before the Response Deadline time and date detailed in the RFP Section 2, Schedule of Events by submitting a written request signed by an authorized Respondent representative. After withdrawing a response, a Respondent may submit another response at any time before the Response Deadline. After the Response Deadline, a Respondent may only withdraw all or a portion of a response where the enforcement of the response would impose an unconscionable hardship on the Respondent.

3.6. **Additional Services**

If a response offers goods or services in addition to those required by and described in this RFP, the State, at its sole discretion, may add such services to the contract awarded as a result of this RFP. Notwithstanding the foregoing, a Respondent must not propose any additional cost amounts or rates for additional goods or services regardless of any additional services offered in a response, and must not record any other rates, amounts, or information.

3.7. **Response Preparation Costs**

The State will not pay any costs associated with the preparation, submittal, or presentation of any response.

4. GENERAL CONTRACTING INFORMATION & REQUIREMENTS

4.1. RFP Amendment

The State at its sole discretion may amend this RFP, in writing, at any time prior to contract award. However, prior to any such amendment, the State will consider whether it would negatively impact the ability of potential Respondents to meet the response deadline and revise the RFP Schedule of Events if deemed appropriate. If an RFP amendment is issued, the State will convey it to potential Respondents who submitted a Notice of Intent to Respond (refer to RFP Section 1.7.). A response must address the final RFP (including its attachments) as amended.

4.2. RFP Cancellation

The State reserves the right, at its sole discretion, to cancel the RFP or to cancel and reissue this RFP in accordance with applicable laws and regulations.

The contract shall be substantially the same as the RFP Attachment 6.6., *Pro Forma* Contract. TECHNICAL RESPONSE & EVALUATION GUIDE

SECTION C: TECHNICAL QUALIFICATIONS, EXPERIENCE & APPROACH. The Respondent must address all items (below) and provide, in sequence, the information and documentation as required (referenced with the associated item references). The Respondent must also detail the response page number for each item in the appropriate space below.

A Proposal Evaluation Team, made up of three or more State employees, will independently evaluate and score the response to each item. Each evaluator will use the following whole number, raw point scale for scoring each item:

0 = little value 1 = poor 2 = fair 3 = satisfactory 4 = good 5 = excellent

The Solicitation Coordinator will multiply the Item Score by the associated Evaluation Factor (indicating the relative emphasis of the item in the overall evaluation). The resulting product will be the item’s Raw Weighted Score for purposes of calculating the section score as indicated.

Performance-Based Contracting (PBC) outcomes will be evaluated at the close of a three (3) year performance window for each admissions co-hort. The exception is the 2014-15 In-Care population. Treatment of the 2014-15 In-Care population is described above in item A.4.

Baseline performance under which PBC providers will be evaluated will be separated into the three (3) Grand Regions of the state: East, Middle and West. This will allow for a more accurate evaluation of service provision within these three distinct geographic areas. It will also serve to align the PBC performance evaluation window with the contract term.

The schedule for PBC Grand Regional performance evaluation will take place at the time intervals outlined in Section A.4.

PBC baselines for this Grand Regional configuration were constructed utilizing the following geographic boundaries:

East Grand Region – East Region, Knox Region, Northeast Region, Smoky Mountain Region, Tennessee Valley Region.

Middle Grand Region – Mid-Cumberland Region, Davidson Region, Upper Cumberland Region, South Central Region.

West Grand Region – Shelby Region, Southwest Region, Northwest Region.

Compensation for re-investment dollars will be paid to the Contractor at the close of any given performance window. Contractor remittance of DCS expended funds back to the State will be netted against payments.

All PBC performance outcomes (Exits, Care Days and Re-entries) will continue to be monitored throughout the term of the contract. Performance expectations will continue to be based on historical performance relative to pre-established Grand Regional PBC baselines.

Commonly Used Performance-Based Contracting Definitions:

In-Care Population - The In-Care population consists of all children and youth being served by the Contractor as of the first day (July 1st) of the initial fiscal year of operation under a performance-based contract. This is a fixed population and at such time as the final In-Care child or youth exits care, outcomes for this population are then concluded. Children who were receiving services in their home at the start of the initial fiscal year of operation under a performance-based contract are not included in the In-Care counts, nor in the performance targets.

Fourth Year In-Care and Admit Population – Those youth *remaining* in a provider's care from their original in-care population as well as their first year admissions population and any subsequent admission population entering its fourth fiscal year, will not be eligible for the banking of care days in prospective years beginning in the fourth year of a provider's participation under a performance-based contract.

Beginning in the fourth contract year, new baselines for this group will be set utilizing the expected performance for existing populations. Although these youth are not eligible for the banking of care days, providers **will** be able to generate re-investment funds as well as incur financial penalties relative to performance just as with any other population.

Baselines - Baselines express performance expectations relative to population (In-Care and Admissions), strata (age, adjudication, intellectual functioning) and geography (East, Middle and West Grand Regions). Baselines are created using historical data taken from the system of record and reflect the traditional or normal pattern of out-of-home care utilization. All PBC providers are evaluated using these uniform, "network-wide" baseline expectations.

Baseline Admissions - The expected number of children admitted to the Contractor during the fiscal year, based on the historical number of annual admissions.

Baseline Care Days –The average number of expected bed days a Contractor would be anticipated to use for any one given youth within a three fiscal year window according to assigned Strata and Grand Regional affiliation. This three year window begins during the child's initial year of admission. This window ends at the close of the third fiscal year from the child's original admissions year.

Baseline Exits to Permanency – The number and percent of children, from the corresponding in care and admission populations, a Contractor would be expected to exit from out-of-home care, within a three fiscal year window according to assigned Strata and Grand Regional affiliation, to permanency (as defined in this section).

Baseline Re-Entries – The number and percent of children discharged to permanency who may be expected to return to care, given historical performance. For purposes of estimating the reentry to care, return to out-of-home care means any child who returns to out of home care from a permanent exit, whether the foster home is supervised by DCS, or a Contractor. For purposes of calculating the re-entry rate, the base includes children discharged to permanency from either the in care or admission population within the fiscal year, who returns to care with one year of their discharge to permanency. Re-entries (as defined above) will continue to be tracked against the historical performance in the next fiscal year.

Baseline Re-Entries Range – A plus or minus range built around the baseline re-entry rate that captures variation in the re-entry rate observed at the agency level. The range is intended to reflect the fact that factors beyond the control of an agency (e.g., sibling groups) may influence the re-entry rate.

Refreshing Baselines – Baselines for performance are periodically “refreshed”. This refreshing consists of dropping the oldest year of the initial baseline performance years data from the calculation and adding the most recent full fiscal year of performance. The window for the baselines will remain an aggregate of three (3) full fiscal years but will be refreshed in this way every subsequent three (3) years hereafter in order to more accurately reflect the expectations attached to certain fixed populations.

Initial baselines for performance are calculated utilizing a provider’s last three (3) full fiscal year’s worth of data regarding the outcomes of permanent exits, care days used and re-entry into care. This refreshing of baselines is only ever applicable to prospective populations and does not affect the treatment of prior existing in-care or admissions populations.

Targeted Care Days –The total number of out-of-home care days a Contractor is expected to provide given improvements in outcomes for children (i.e., safety and permanency). The difference between the target care days and the baseline care days, expressed as a percentage, is the performance improvement for purposes of calculating the reimbursement.

Targeted Exits to Permanency – The number and percent of children for whom a Contractor can be projected to achieve a permanent exit, given improvement in performance.

Targeted Re-Entries - The number and percentage of returns to out of home care after a successful exit to permanency within one fiscal year.

Re-Entry to Custody – Any child that has a permanent exit from care and returns to custody within one (1) year.

Exits to Permanency – All exits that are intended to provide the child with a stable, permanent family: reunification, guardianship and adoption.

Primary Treatment Center (PTC) & Enhanced Services – The approach for handling the fiscal calculation for these youth (at any provider offering PTC services or enhanced services) will be as follows:

Primary Treatment Centers: In their first (admission) year, the baselines and actuals are calculated using the current PTC rate. For those youth remaining with that provider into the next fiscal year (and for the original in-care population) the calculation will be made as follows:

The calculation for actuals will use the rate associated with the contract type on which the youth was placed following their stay in the PTC; and,

The baselines will be calculated using a method that applies a weighted distribution to the projected baseline population that reflects where PTC youth in the admission population were actually placed following the PTC stay.

Example: An admission cohort includes 25 Level II Continuum spells, 25 Level III Continuum spells and 50 PTC spells.

Upon completion of their PTC stay, 10 youth were placed in the provider's Level III Continuum and the remaining 40 went to their Level II Continuum. In this scenario the baselines will be calculated assuming 35% Level III Continuum and 65% Level II Continuum (this is done within strata).

Enhanced Services: Certain enhanced services have been designed with a time-limited stay in order to more effectively apply those services and to allow for more rapid movement of youth through the system.

Those youth leaving service from an enhanced contract and transferring to another provider will be dropped altogether from that provider's PBC outcomes. They will not, from a PBC standpoint, appear as ever having been served by the enhanced services provider. Youth leaving service from an enhanced contract and being placed on another of the enhanced provider's contracts **will** be a part of that provider's PBC outcomes.

In their first (admission) year, the baselines and actuals are calculated using the current enhanced contract rate. For those remaining with that provider into the next fiscal year (and for the original in-care population) the calculation will be made utilizing the rate associated with the contract type on which the youth was placed following their stay in the enhanced program.

The Contractor's invoice shall be subject to reduction for amounts included in any invoice or payment that is determined by the State, on the basis of audits conducted in accordance with the terms of this Contract, to not constitute proper compensation for goods delivered or services provided.

- D.4. Subject to Funds Availability. The Contract is subject to the appropriation and availability of State or federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Contract upon written notice to the Contractor. The State's exercise of its right to terminate this Contract shall not constitute a breach of Contract by the State. Upon receipt of the written notice, the Contractor shall cease all work associated with the Contract. If the State terminates this Contract due to lack of funds availability, the Contractor shall be entitled to compensation for all conforming goods requested and accepted by the State and for all satisfactory and authorized services completed as of the termination date. Should the State exercise its right to terminate this Contract due to unavailability of funds, the Contractor shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages of any description or amount.
- D.5. Termination for Convenience. The State may terminate this Contract for convenience without cause and for any reason. The State shall give the Contractor at least thirty (30) days written notice before the termination date. The Contractor shall be entitled to compensation for all conforming goods delivered and accepted by the State or for satisfactory, authorized services completed as of the termination date. In no event shall the State be liable to the Contractor for compensation for any goods neither requested nor accepted by the State or for any services neither requested by the State nor satisfactorily performed by the Contractor. In no event shall the State's exercise of its right to terminate this Contract for convenience relieve the Contractor of any liability to the State for any damages or claims arising under this Contract.
- D.6. Termination for Cause. If the Contractor fails to properly perform its obligations under this Contract in a timely or proper manner, or if the Contractor materially violates any terms of this Contract ("Breach Condition"), the State shall have the right to immediately terminate the Contract and withhold payments in excess of compensation for completed services or provided goods. Notwithstanding the above, the Contractor shall not be relieved of liability to the State for damages sustained by virtue of any Breach Condition and the State may seek other remedies allowed at law or in equity for breach of this Contract.
- D.7. Assignment and Subcontracting. The Contractor shall not assign this Contract or enter into a subcontract for any of the goods or services provided under this Contract without the prior written approval of the State. Notwithstanding any use of the approved subcontractors, the Contractor

shall be the prime contractor and responsible for compliance with all terms and conditions of this Contract. The State reserves the right to request additional information or impose additional terms and conditions before approving an assignment of this Contract in whole or in part or the use of subcontractors in fulfilling the Contractor's obligations under this Contract.

- D.8. Conflicts of Interest. The Contractor warrants that no part of the Contractor's compensation shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Contractor in connection with any work contemplated or performed under this Contract.

The Contractor acknowledges, understands, and agrees that this Contract shall be null and void if the Contractor is, or within the past six (6) months has been, an employee of the State of Tennessee or if the Contractor is an entity in which a controlling interest is held by an individual who is, or within the past six (6) months has been, an employee of the State of Tennessee.

- D.9. Nondiscrimination. The Contractor hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract or in the employment practices of the Contractor on the grounds of handicap or disability, age, race, creed, color, religion, sex, national origin, or any other classification protected by federal or state law. The Contractor shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

- D.10. Prohibition of Illegal Immigrants. The requirements of Tenn. Code Ann. § 12-3-309 addressing the use of illegal immigrants in the performance of any contract to supply goods or services to the state of Tennessee, shall be a material provision of this Contract, a breach of which shall be grounds for monetary and other penalties, up to and including termination of this Contract.

- a. The Contractor agrees that the Contractor shall not knowingly utilize the services of an illegal immigrant in the performance of this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant in the performance of this Contract. The Contractor shall reaffirm this attestation, in writing, by submitting to the State a completed and signed copy of the document at Attachment C, semi-annually during the Term. If the Contractor is a party to more than one contract with the State, the Contractor may submit one attestation that applies to all contracts with the State. All Contractor attestations shall be maintained by the Contractor and made available to State officials upon request.
- b. Prior to the use of any subcontractor in the performance of this Contract, and semi-annually thereafter, during the Term, the Contractor shall obtain and retain a current, written attestation that the subcontractor shall not knowingly utilize the services of an illegal immigrant to perform work under this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant to perform work under this Contract. Attestations obtained from subcontractors shall be maintained by the Contractor and made available to State officials upon request.
- c. The Contractor shall maintain records for all personnel used in the performance of this Contract. Contractor's records shall be subject to review and random inspection at any reasonable time upon reasonable notice by the State.
- d. The Contractor understands and agrees that failure to comply with this section will be subject to the sanctions of Tenn. Code Ann. § 12-3-309 for acts or omissions occurring after its effective date.
- e. For purposes of this Contract, "illegal immigrant" shall be defined as any person who is not: (i) a United States citizen; (ii) a Lawful Permanent Resident; (iii) a person whose physical presence in the United States is authorized; (iv) allowed by the federal Department of Homeland Security and who, under federal immigration laws or

regulations, is authorized to be employed in the U.S.; or (v) is otherwise authorized to provide services under the Contract.

- D.11. Records. The Contractor shall maintain documentation for all charges under this Contract. The books, records, and documents of the Contractor, for work performed or money received under this Contract, shall be maintained for a period of five (5) full years from the date of the final payment and shall be subject to audit at any reasonable time and upon reasonable notice by the State, the Comptroller of the Treasury, or their duly appointed representatives. The financial statements shall be prepared in accordance with generally accepted accounting principles.
- D.12. Monitoring. The Contractor's activities conducted and records maintained pursuant to this Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.
- D.13. Progress Reports. The Contractor shall submit brief, periodic, progress reports to the State as requested.
- D.14. Strict Performance. Failure by any Party to this Contract to require, in any one or more cases, the strict performance of any of the terms, covenants, conditions, or provisions of this Contract shall not be construed as a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the Parties.
- D.15. Independent Contractor. The Parties shall not act as employees, partners, joint venturers, or associates of one another. The Parties are independent contracting entities. Nothing in this Contract shall be construed to create an employer/employee relationship or to allow either Party to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one Party are not employees or agents of the other Party.
- D.16. Patient Protection and Affordable Care Act. The Contractor agrees that it will be responsible for compliance with the Patient Protection and Affordable Care Act ("PPACA") with respect to itself and its employees, including any obligation to report health insurance coverage, provide health insurance coverage, or pay any financial assessment, tax, or penalty for not providing health insurance. The Contractor shall indemnify the State and hold it harmless for any costs to the State arising from Contractor's failure to fulfill its PPACA responsibilities for itself or its employees.
- D.17. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Contract. In no event will the State be liable to the Contractor or any other party for any lost revenues, lost profits, loss of business, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Contract or otherwise. The State's total liability under this Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability. This limitation of liability is cumulative and not per incident.
- D.18. Limitation of Contractor's Liability. In accordance with Tenn. Code Ann. § 12-3-701, the Contractor's liability for all claims arising under this Contract shall be limited to an amount equal to two (2) times the Maximum Liability amount detailed in Section C.1. and as may be amended, PROVIDED THAT in no event shall this Section limit the liability of the Contractor for intentional torts, criminal acts, fraudulent conduct, or omissions that result in personal injuries or death.
- D.19. Hold Harmless. The Contractor agrees to indemnify and hold harmless the State of Tennessee as well as its officers, agents, and employees from and against any and all claims, liabilities, losses, and causes of action which may arise, accrue, or result to any person, firm, corporation, or other entity which may be injured or damaged as a result of acts, omissions, or negligence on the part of the Contractor, its employees, or any person acting for or on its or their behalf relating

to this Contract. The Contractor further agrees it shall be liable for the reasonable cost of attorneys for the State to enforce the terms of this Contract.

In the event of any suit or claim, the Parties shall give each other immediate notice and provide all necessary assistance to respond. The failure of the State to give notice shall only relieve the Contractor of its obligations under this Section to the extent that the Contractor can demonstrate actual prejudice arising from the failure to give notice. This Section shall not grant the Contractor, through its attorneys, the right to represent the State in any legal matter, as the right to represent the State is governed by Tenn. Code Ann. § 8-6-106.

- D.20. HIPAA Compliance. The State and Contractor shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”), Health Information Technology for Economic and Clinical Health (“HITECH”) Act and any other relevant laws and regulations regarding privacy (collectively the “Privacy Rules”). The obligations set forth in this Section shall survive the termination of this Contract.
- a. Contractor warrants to the State that it is familiar with the requirements of the Privacy Rules, and will comply with all applicable requirements in the course of this Contract.
 - b. Contractor warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of the Contract so that both parties will be in compliance with the Privacy Rules.
 - c. The State and the Contractor will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and Contractor in compliance with the Privacy Rules. This provision shall not apply if information received or delivered by the parties under this Contract is NOT “protected health information” as defined by the Privacy Rules, or if the Privacy Rules permit the parties to receive or deliver the information without entering into a business associate agreement or signing another document.
 - d. The Contractor will indemnify the State and hold it harmless for any violation by the Contractor or its subcontractors of the Privacy Rules. This includes the costs of responding to a breach of protected health information, the costs of responding to a government enforcement action related to the breach, and any fines, penalties, or damages paid by the State because of the violation.
- D.21. Tennessee Consolidated Retirement System. Subject to statutory exceptions contained in Tenn. Code Ann. §§ 8-36-801, *et seq.*, the law governing the Tennessee Consolidated Retirement System (“TCRS”), provides that if a retired member of TCRS, or of any superseded system administered by TCRS, or of any local retirement fund established under Tenn. Code Ann. §§ 8-35-101, *et seq.*, accepts State employment, the member's retirement allowance is suspended during the period of the employment. Accordingly and notwithstanding any provision of this Contract to the contrary, the Contractor agrees that if it is later determined that the true nature of the working relationship between the Contractor and the State under this Contract is that of “employee/employer” and not that of an independent contractor, the Contractor, if a retired member of TCRS, may be required to repay to TCRS the amount of retirement benefits the Contractor received from TCRS during the Term.
- D.22. Tennessee Department of Revenue Registration. The Contractor shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Contract.
- D.23. Debarment and Suspension. The Contractor certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

- a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;
- b. have not within a three (3) year period preceding this Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;
- c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and
- d. have not within a three (3) year period preceding this Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Contractor shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified.

- D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the Party except to the extent that the non-performing Party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing Party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either Party from its obligations under this Contract. Except as set forth in this Section, any failure or delay by a Party in the performance of its obligations under this Contract arising from a Force Majeure Event is not a default under this Contract or grounds for termination. The non-performing Party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the Party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Contractor's representatives, suppliers, subcontractors, customers or business apart from this Contract is not a Force Majeure Event under this Contract. Contractor will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Contractor's performance longer than forty-eight (48) hours, the State may, upon notice to Contractor: (a) cease payment of the fees until Contractor resumes performance of the affected obligations; or (b) immediately terminate this Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Contractor will not increase its charges under this Contract or charge the State any fees other than those provided for in this Contract as the result of a Force Majeure Event.
- D.25. State and Federal Compliance. The Contractor shall comply with all applicable state and federal laws and regulations in the performance of this Contract.
- D.26. Governing Law. This Contract shall be governed by and construed in accordance with the laws of the State of Tennessee. The Tennessee Claims Commission or the state or federal courts in Tennessee shall be the venue for all claims, disputes, or disagreements arising under this Contract. The Contractor acknowledges and agrees that any rights, claims, or remedies against the State of Tennessee or its employees arising under this Contract shall be subject to and limited to those rights and remedies available under Tenn. Code Ann. §§ 9-8-101 - 407.
- D.27. Entire Agreement. This Contract is complete and contains the entire understanding between the Parties relating to its subject matter, including all the terms and conditions of the Parties'

agreement. This Contract supersedes any and all prior understandings, representations, negotiations, and agreements between the Parties, whether written or oral.

- D.28. Severability. If any terms and conditions of this Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions of this Contract shall not be affected and shall remain in full force and effect. The terms and conditions of this Contract are severable.
- D.29. Headings. Section headings of this Contract are for reference purposes only and shall not be construed as part of this Contract.
- D.30. Incorporation of Additional Documents. Each of the following documents is included as a part of this Contract by reference. In the event of a discrepancy or ambiguity regarding the Contractor's duties, responsibilities, and performance under this Contract, these items shall govern in order of precedence below:
- a. any amendment to this Contract, with the latter in time controlling over any earlier amendments;
 - b. this Contract with any attachments or exhibits (excluding the items listed at subsections c. through f., below);
 - c. any clarifications of or addenda to the Contractor's proposal seeking this Contract;
 - d. the State solicitation, as may be amended, requesting responses in competition for this Contract;
 - e. any technical specifications provided to proposers during the procurement process to award this Contract; and,
 - f. the Contractor's response seeking this Contract.

E. SPECIAL TERMS AND CONDITIONS:

- E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Contract, the special terms and conditions shall be subordinate to the Contract's other terms and conditions.
- E.2. Insurance. The Contractor shall carry adequate liability and other appropriate forms of insurance.
- a. The Contractor shall maintain, at minimum, the following insurance coverage:
 - (1) Workers' Compensation/ Employers' Liability (including all states coverage) with a limit not less than the relevant statutory amount or one million dollars (\$1,000,000) per occurrence for employers' liability whichever is greater.
 - (2) Comprehensive Commercial General Liability (including personal injury & property damage, premises/operations, independent contractor, contractual liability and completed operations/products) with a bodily injury/property damage combined single limit not less than one million dollars (\$1,000,000) per occurrence and two million dollars (\$2,000,000) aggregate.
 - (3) Automobile Coverage (including owned, leased, hired, and non-owned vehicles) with a bodily injury/property damage combined single limit not less than one million dollars (\$1,000,000) per occurrence.
 - (4) Errors and Omission Coverage with a limit of not less than one million dollars (\$1,000,000) per claim and two million dollars (\$2,000,000) aggregate.
 - c. The Contractor shall provide a valid Certificate of Insurance naming the State as an additional insured and detailing Coverage Description; Insurance Company & Policy Number; Exceptions and Exclusions; Policy Effective Date; Policy Expiration Date; Limit(s) of Liability; and Name and Address of Insured. Contractor shall obtain from Contractor's insurance carrier(s) and will deliver to the State waivers of the subrogation

rights under the respective policies. Failure to provide required evidence of insurance coverage shall be a material breach of this Contract.

- E.3. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with applicable state and federal law. All material and information, regardless of form, medium or method of communication, provided to the Contractor by the State or acquired by the Contractor on behalf of the State that is regarded as confidential under state or federal law shall be regarded as "Confidential Information." Nothing in this Section shall permit Contractor to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Contractor due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required or permitted under state or federal law. Contractor shall take all necessary steps to safeguard the confidentiality of such material or information in conformance with applicable state and federal law.

The obligations set forth in this Section shall survive the termination of this Contract.

- E.4. Incorporation of Additional Documents. Each of the following documents is included as a part of this Contract by reference. In the event of a discrepancy or ambiguity regarding the Contractor's duties, responsibilities, and performance under this Contract, these items shall govern in order of precedence below.
- a. This Contract document with any attachments or exhibits (excluding the items listed at subsections b. through d., below);
 - b. The Brian A. Modified Settlement Agreement;
 - c. The Department of Children's Services Policy;
 - d. The document entitled "DCS Provider Policy Manual" including any changes or additions that may subsequently be made, herein attached by reference.

- E.5. Environmental Tobacco Smoke. Pursuant to the provisions of the federal "Pro-Children Act of 1994" and the Tennessee "Children's Act for Clean Indoor Air of 1995," the Contractor shall prohibit smoking of tobacco products within any indoor premises in which services are provided pursuant to this Contract to individuals under the age of eighteen (18) years. The Contractor shall post "no smoking" signs in appropriate, permanent sites within such premises. This prohibition shall be applicable during all hours, not just the hours in which children are present. Violators of the prohibition may be subject to civil penalties and fines. This prohibition shall apply to and be made part of any subcontract related to this Contract.

- E.6. Prohibited Advertising or Marketing. The Contractor shall not suggest or imply in advertising or marketing materials that Contractor's goods or services are endorsed by the State. The restrictions on Contractor advertising or marketing materials under this Section shall survive the termination of this Contract.

- E.7. Public Accountability. If the Contractor is subject to Tenn. Code Ann. §§ 8-4-401, *et seq.*, or if this Contract involves the provision of services to citizens by the Contractor on behalf of the State, the Contractor agrees to establish a system through which recipients of services may present grievances about Contractor's operation of the service program. The Contractor shall also display in a prominent place, located near the passageway through which the public enters in order to receive contract-supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating the following:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY THAT YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454

The sign shall be of the form prescribed by the Comptroller of the Treasury. The contracting state agency shall request copies of the sign from the Comptroller of the Treasury and provide signs to contractors.

E.8. Lobbying. The Contractor certifies, to the best of its knowledge and belief, that:

- a. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of an agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
- b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any contract, grant, loan, or cooperative agreement, the Contractor shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- c. The Contractor shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

E.9. Liquidated Damages. If the Contractor fails to deliver services in accordance with the scope of services and the DCS Provider Policy Manual ("Liquidated Damages Event"), the State may assess damages on Contractor ("Liquidated Damages"). The State shall notify the Contractor of amounts to be assessed as Liquidated Damages. The Parties agree that due to the complicated nature of the Contractor's obligations under this Contract it would be difficult to specifically designate a monetary amount for Contractor's failure to fulfill its obligations regarding the Liquidated Damages Event as these amounts are likely to be uncertain and not easily proven. Contractor has carefully reviewed the Liquidated Damages contained in Attachment D and agrees that these amounts represent a reasonable relationship between the amount and what might reasonably be expected in the event of a Liquidated Damages Event, and are a reasonable estimate of the damages that would occur from a Liquidated Damages Event. The Parties agree that the Liquidated Damages represent solely the damages and injuries sustained by the State in losing the benefit of the bargain with Contractor and do not include any injury or damage sustained by a third party. The Contractor agrees that the Liquidated Damages are in addition to any amounts Contractor may owe the State pursuant to the indemnity provision or any other sections of this Contract.

The State is not obligated to assess Liquidated Damages before availing itself of any other remedy. The State may choose to discontinue Liquidated Damages and avail itself of any other remedy available under this Contract or at law or equity.

E.10. Partial Takeover of Contract. The State may, at its convenience and without cause, exercise a partial takeover of any service that the Contractor is obligated to perform under this Contract, including any service which is the subject of a subcontract between Contractor and a third party (a "Partial Takeover"). A Partial Takeover of this Contract by the State shall not be deemed a breach of contract. The Contractor shall be given at least thirty (30) days prior written notice of a Partial Takeover. The notice shall specify the areas of service the State will assume and the date the State will be assuming. ATTACHMENT A**Level 2 Continuum Group Care****A. General Characteristics**

1. Group Care Facilities are designed to meet the needs of children who are unable to live at home, or with a Resource Family, and therefore require temporary care in a group care setting integrated within the community.
2. The Group Care Facility provides structure, therapeutic support, behavioral intervention and other services identified in a child's permanency plan for children with low to moderate clinical and behavioral needs;
3. Goals/discharge criteria for Children in Group Care typically include permanency through reunification, kinship care, adoption or guardianship;
4. Group Care Facilities are licensed by DCS and may be licensed individually as Family Boarding Homes, Maternity Homes or Group Care Homes. They may also be licensed collectively as a Child Placing Agency through any combination of these programs administered by a single entity;
5. The facility will be licensed as a Department of Children's Services (DCS) Residential Child Care Agency or a Child Placing Agency if serving a population of more than twelve (12) youth. It will be licensed as a DCS Group Care Facility or Child Placing Agency if serving six (6) to twelve (12) or fewer youth. Unlike other Group Care Facilities, DCS Residential Child Care Agencies may not be approved under a DCS Child Placing Agency License.
6. The facility will adhere to the policies and procedures outlined in the DCS Provider Policy manual to include, but not limited to, Core Section, Foster Care/Resource homes, and all relative sections of the manual as it pertains to continuums. The manual is available on the DCS website and updated periodically.

B. Admission/Clinical Criteria

The following criteria will be met for admission:

1. These children/youth may be delinquent or a plaintiff class child/youth with complex needs and have a past history of multiple felony charges and/or a history with a multitude of the following behaviors: impulsivity, aggression, destruction or theft of property, alcohol or drug misuse, moderate to serious sex offenses, or described as having disruptive behavioral needs. Child/youth may have patterns of runaway episodes, may be involved in a gang, have difficulty maintaining self-control, display poor social skills, and/or have difficulty accepting authority. This service is available to children/youth (ages 13 up to 19) transitioning from a secure YDC facility after having received treatment, or from detention without treatment, or children/youth who present with similar needs but do not qualify for a secure facility. Such children/youth may have a need for treatment and support as they are preparing for full community integration or transition to a less restrictive setting.

2. On a case-by-case basis, the facility will admit children/youth who are in need of Level 3 clinical services but are eighteen years old and therefore not eligible for placement at a Level 3 Residential Treatment Facility (RTF). These youth will receive enhanced clinical services from mental health providers in the community to address their Level 3 needs.
3. This setting is available for children/youth whose relationship with their families or whose family situation, level of development and social or emotional problems are such that services in a family setting would not meet the child/youth's treatment needs due to supervision, intervention, and/or structure needs.
4. Programs are designed for children/youth in need of twenty-four (24) hour care and integrated planning to address behavioral, emotional, or family problems and the need for progressive reintegration into family and community living. Children/youth in Group Home placement remain involved in community-based schools (when appropriate) and participate in community-based recreational activities with appropriate supervision.
5. Children/youth may have a history of truancy but are typically able to attend public school with liaison and support services provided by the agency.
6. Children/youth in this level of care have behaviors that can be treated in a non-secure setting, with adult supervision and clinical intervention.
7. Children/youth may have completed higher levels or intensity of care and determined appropriate for group placement as work toward permanency continues. In addition, the child/youth may have been treated at a higher level of care for sexually reactive behavior or sex offender issues and has been assessed with a low to moderate risk for reoffending.
8. Children/youth in this level of care may require community counseling or therapy, medication, and medication management services. These services will be coordinated by the agency and integrated into Treatment Planning.
9. Assessment Requirements
 - a. Child and Adolescent Needs & Strengths (CANS) will be used as a screening tool for children and youth to assist with determination if group care is indicated. Prior to the CFTM, the CANS will be thoroughly reviewed so the team will have the recommendation available for consideration in placement-related decisions.
 - b. Youth Level of Services (YLS) - Juvenile Justice Youth at this level of service may have low or medium YLS risk levels.
10. Children/youth with a High School diploma or a GED or *HiSET*®.
11. All children/youth referred by DCS meeting the criteria described herein shall be admitted into the program if space is available.
12. Children/youth who are ineligible for this level of care are those who have need of acute psychiatric hospitalization and/or require placement in a YDC setting for major acts of violence or aggression within the past six (6) months. Those who are found to pose a significant risk to the community are not appropriate for this level of care. Child/Youth with a primary diagnosis of intellectual disability are evaluated

on a case-by-case basis. Child/Youth with an IQ lower than 55 or who have adaptive functioning indicating a moderate to severe intellectual disability are not appropriate unless the agency is licensed for this service type.

C. Personnel & Staffing Requirements

1. Adequate care and supervision is provided to assure that child/youth is safe and that his/her needs are met, in accordance with child/youth's developmental level, age, and emotional or behavioral problems, and include:
 - a. At least one (1) on-duty child care worker providing continuous supervision for each group of eight (8) children or youth (staff to student ratio of 1:8). This ratio is also maintained at night;
 - b. Higher adult/child ratios during periods of greater activity are recommended; and,
 - c. Availability of additional or back-up direct care staff for emergency situations or to meet special needs presented by the children in care as needed.
2. No more than five (5) providers of case coordination or casework services report to one (1) Case Manager Supervisor. The caseloads for personnel providing case coordination or casework services do not exceed fifteen (15) residents.
3. No more than seven (7) direct care staff members report to one (1) Direct Care Worker Supervisor and the ratio is reduced to 1:5 when the workers are newly hired or in probationary status.

D. Individualized Care Plan

1. An Individualized Care Plan will be developed and implemented for each child/youth. An initial assessment of the child/youth's needs and strengths will be completed within 72 hours of admission. following discharge recommendations of prior treatment facilities as applicable.

- f. The Care Plan will include specific steps to work toward permanency, including visitation plan. This plan may integrate information from tools such as the CANS, FFA, YLS, and Permanency Plan. For example, actionable items on the CANS (items rated 2 or 3) will be addressed. On the YLS “Needs Intervention Checklist,” areas with a “moderate” or “high” risk noted will be addressed in the plan.

H. Monitoring Progress

As described on the Monthly Summary Template, summaries are to be completed on a monthly basis for each family case served by the agency and will be submitted in TFACTS as a Private Provider Monthly summary case recording one time a month. The summary needs to be entered in the system by the 15th of the next month. This summary will include anything that has changed from the previous month and the youth's progress toward step-down.

The Monthly Summary Template may be found in the Core Standards section of this manual.

I. Utilization Review

Agency will participate in DCS Utilization Reviews (UR). UR generally occurs at 30 day intervals.

J. Discharge Criteria

1. A preliminary discharge plan with discharge goals, projected length of stay, and tentative aftercare plan will be formulated and shared with the DCS Regional Licensed Mental Health Clinician, educational specialist, family services worker, and placement specialist.
2. A child/youth is ready for discharge when he/she no longer meets the admission criteria (outlined above) and sufficient aftercare services (e.g., mental health, education, family, medical/physical) have been arranged to allow for a smooth transition.

K. Special Populations Group Care

Education:

1. Youth in this program may attend public school; however, programs will have access to an approved non-public school site for students that are zero tolerance or if students are unable to attend public school for some other reason. (See DCS Policy related to Non-Traditional Educational Settings <http://www.tn.gov/youth/dcsguide/policies.html>).
2. For group homes with an on-site school, assessment of whether child/youth is currently eligible for special education services in accordance with the State Board of Education Rules, Regulations and Minimum Standards. Additionally, an Educational Placement Evaluation (form CS-0772) will be completed.
3. Documentation of an education plan, including the initial Educational Placement Evaluation and subsequent reviews, developed for each child/youth that conforms to the Rules, Regulations and Minimum Standards

of the State Board of Education. The youth's Individualized Education Program (IEP), developed by an appropriately constituted IEP-Team, will also be included for all "qualified students with disabilities." The education plan may include education services provided either by the facility or by the Local Education Agency.

Level 3 Continuum Special Needs Enhanced Juvenile Justice (JJ)**A. General Characteristics**

1. Residential Treatment provides thorough clinical services including psychiatric and educational assessment and therapeutic treatment program in a 24-hour-a-day residential facility for children and youth with significant emotional and/or psychological treatment needs.
2. The type of licenses required for this level of service is licensed by Department of Mental Health and Substance Abuse Services (DMHSAS) as: Mental Health Residential Treatment Facility (MH Residential Treatment). Residential Treatment Facilities serving DCS children may not operate out of single-family dwellings. These settings are not conducive to providing the more intense clinical services and structure required for this level of service.
3. Staff secure Residential Treatment Facilities will exclusively serve youth adjudicated delinquent and will not co-mingle these youth with those adjudicated social services or unruly.
4. The facility will adhere to the policies and procedures outlined in the DCS Provider Policy manual to include, but not limited to, Core Section, Foster Care/Resource homes, and all relative sections of the manual as it pertains to continuums. The manual is available on the DCS website and updated periodically.
http://www.tn.gov/youth/providers/prov_policies.htm

B. Admission/Clinical Criteria

1. This facility serves **male** children/youth aged 13 and up who are adjudicated delinquent. The facility will be staff secured. The facility will exclusively serve children/youth who demonstrate a moderate to high risk for behavioral instability. These youth may pose a risk to self and/or others and will have exhibited conduct problems, evidenced by one or more of the following: Multiple felony charges, history of aggression, impulsivity, strong gang affiliation, alcohol and drug misuse, and sexual behavior problems.
2. In addition, the following medical necessity criteria are met for admission to a Residential Treatment Facility:
 - a. The child/youth has a significant mental health disorder (DSM-IV-TR or DSM-V) and is impaired in social, educational, familial and occupational functioning. This level of functioning is not due exclusively to intellectual or developmental disability or organic dysfunction. This disorder is amenable to “psychiatric treatment” and requires mental health treatment that cannot be successfully provided at a lower level of care. The youth needs psychiatric consultation and access to physician services as well as daily supportive guidance toward stabilization.
 - b. The child/youth is unable to adequately care for physical needs without

external support that is beyond the capacity/capabilities of the family and/or other non-inpatient community support. This inability represents harm to self or others (e.g., reckless self-endangerment) and is due to psychiatric disorder, *not* developmental, social, cognitive or specific medical limitations.

- c. The child/youth's current living environment, family setting and extended community cannot provide the support and access to therapeutic services necessary to maintain stability or maximize effective daily functioning and/or the youth has not been successful in lower levels of treatment efforts (i.e., has failed to maintain or sustain adequately).
 - d. The child/youth cannot achieve successful adaptation for the purpose of stabilization, *at this time*, without significant structure and supportive residential guidance that can only be provided through twenty-four (24) hour intervention and supervision in a highly-structured environment.
 - e. The child/youth meets the age, cognitive capacity, adaptive functioning level and/or developmental level requirements necessary for minimal acceptance in the specific setting.
 - f. The child/youth does not require medical substance abuse treatment (e.g. detoxification) as the primary need and does not have contraindicated medical conditions that are primary and would supersede the psychiatric symptoms;
4. Child/youth may pose a high risk for elopement, instability in behavior and mental health status or occasionally experience acute episodes. These youth also experience persistent maladjustment of peer and other social relationships or other influencing systems which interfere with learning and social environments.
 5. Children/youths with a primary diagnosis of intellectual disability are evaluated on a case-by-case basis for admission and a special needs contract. Children with an IQ lower than 55 or who have adaptive functioning indicating moderate to severe intellectual disability may not be appropriate unless the agency is able to make appropriate adjustments to the regular programming as needed.
 6. Assessment Requirements:
 - a. Child and Adolescent Needs & Strengths (CANS) will be used as a screening tool for children and youth to assist with determination if residential treatment is indicated. Prior to the CFTM, the Regional Licensed Mental Health Clinician will be consulted and the CANS (if available) thoroughly reviewed so the team will have the recommendation available for consideration in placement-related decisions.
Note: Items that might need to be considered for potential placement in

this setting are CANS actionable items scoring a 2 or 3 on risk behaviors and behavioral emotional needs;

- b. Youth Level of Service/Case Management Inventory™ (YLS) - Juvenile Justice youth at this level of service may have low, moderate or high YLS risk levels. Youth with very high YLS risk level scores may be appropriate for admission at this level of care based on unique case circumstances following classification at a secure facility (such as a Youth Development Center) or assessment in a Level 4 treatment facility
- c. The Regional Licensed Mental Health Clinician will determine "medical necessity" in order for a child or youth to be placed in a Residential Treatment Facility. If a CFT cannot come to a consensus on a recommendation of medical necessity, the situation will be reviewed by Central Office clinical staff. This is intended to ensure that those children or youth who require this level of service are given every opportunity to receive it.
- d. Children/youth with a High School diploma or a GED or *HiSET*®.

C. Personnel

1. The provider has trained personnel who can meet the developmental, therapeutic, and supervision needs of all children/youths accepted for care and services.
2. The program is under the direct clinical supervision of a licensed mental health professional with training and experience in mental health treatment of children and youth.
3. Staff is appropriately credentialed to provide individual and family counseling/therapy. The agency is responsible for providing the credentials of therapists upon request. If a specific treatment such as Trauma Focused Cognitive Behavior Therapy (TFCBT), Dialectical Behavior Therapy (DBT), or treatment for problem sexual behavior is being provided, the agency is able to demonstrate that the therapist is appropriately trained to deliver this treatment.
4. Educational staff will meet the employment standards outlined in the state Board of Education Rules, Regulations and Minimum Standards.
5. The program will maintain a written agreement with, or employ, a Tennessee-licensed physician as a medical consultant. If the consulting physician is not a psychiatrist, the facility will arrange for the regular, consultative and emergency services of a licensed psychiatrist (TCA 0940-5-37). The psychiatrist is available for consultation with program staff, parent/guardian and/or custodian. For further details see Section E, Service Components, below.
6. Residential Treatment Facility staff to child/youth ratio: 1:5 (one direct-care, awake staff for every five on-site youth) during the day and 1:8 (one direct-care, awake staff for every eight on-site youth) overnight staff. Staff persons counted in the staff-to-child/youth ratio may only be persons who are assigned to provide direct program services as described by written job description. During normal sleeping hours the program will provide one direct-care staff person on-site in each building, or physically separated unit of a building in which children/youths

are housed. Support staff such as clerical, housekeeping, van and bus driver staff or students involved in an onsite practicum for academic credit may not be counted in the staff-to-child/youth ratio. While these are the minimum standards, it is strongly recommended that two staff be present at any time when children/youths are being supervised.

7. The program will provide, at all times, at least one (1) on-duty staff member trained in First Aid and the Heimlich maneuver and certified in cardiopulmonary resuscitation (CPR) (TCA 0940-5-37).
8. Note: For additional licensure information see Section 0940-5-37.03 Rules of Department of Mental Health and Development Disabilities.

D. Individualized Treatment Plan

1. An Initial Treatment Plan will be developed within the first 72 hours for each child/youth. This plan will be based on initial history and current assessment of child/youth's needs and strengths.
2. A more Comprehensive Treatment Plan will be developed after testing and/or assessment has occurred. The Treatment Planning process will include the family and youth per the CFTM model for collaborative planning. This will be completed within 30 days of admission.
3. The program will ensure that the following assessments are completed prior to development of the child/youth's comprehensive Treatment Plan:
 - a. Assessment of current functioning, and a history in the following areas: Community living skills, living skills appropriate to age, emotional and psychological health, and Educational level (including educational history).
 - b. Basic medical history and information;
 - c. A six (6) month history of prescribed medication, frequently used over-the-counter medication and alcohol or other drug use;
 - d. History of prior mental health and alcohol and drug treatment episodes; and,
 - e. Assessment of whether child/youth is currently eligible for special education services in accordance with the State Board of Education Rules, Regulations and Minimum Standards.
4. The Comprehensive Treatment Plan will address referral concerns and identify treatment goals as related to safety, mental health, medical, and educational well-being. The Treatment Plan will include specific steps to work toward permanency, including a visitation plan. This plan may integrate information from tools such as the CANS, FFA, YLS, and Permanency Plan. For example, actionable items on the CANS (items rated 2 or 3) and/or areas that score "moderate or high" on the YLS will be addressed.
5. The Comprehensive Treatment Plan will consider discharge goals and estimated length of stay. Discharge planning will begin at admission and will be an ongoing process.

6. Documentation of the Treatment Plan and of its implementation will be kept in the child/youth record and will include the following, per TCA 0940-5-37-.05:
 - a. The child/youth's name on the Treatment Plan
 - b. The date of development of the Treatment Plan

 - i. Planned frequency of treatment contacts
 - j. A plan for family involvement in the child/youth's treatment
7. A review of the Treatment Plan will occur at least every thirty (30) days or upon completion of the stated goals and objectives and will include the following documentation, per TCA 0940-5-37-.05:
 - a. Dated signatures of appropriate staff
 - b. An assessment of progress toward each treatment goal and/or objective with revisions as indicated

The percentage of State dollar savings to be re-invested with the Contractor and any Contractor remittance of DCS expended funds back to the State for unsuccessful outcomes are defined in the following table:

Performance-Based Contracting (PBC) outcomes will be evaluated at the close of a three (3) year performance window for each admissions co-hort. The exception is the 2014-15 In-Care population. Treatment of the 2014-15 In-Care population is described above in item A.4.

Baseline performance under which PBC providers will be evaluated will be separated into the three (3) Grand Regions of the state: East, Middle and West. This will allow for a more accurate evaluation of service provision within these three distinct geographic areas. It will also serve to align the PBC performance evaluation window with the contract term.

The schedule for PBC Grand Regional performance evaluation will take place at the time intervals outlined in Section A.4.

PBC baselines for this Grand Regional configuration were constructed utilizing the following geographic boundaries:

East Grand Region – East Region, Knox Region, Northeast Region, Smoky Mountain Region, Tennessee Valley Region.

Middle Grand Region – Mid-Cumberland Region, Davidson Region, Upper Cumberland Region, South Central Region.

West Grand Region – Shelby Region, Southwest Region, Northwest Region.

Compensation for re-investment dollars will be paid to the Contractor at the close of any given performance window. Contractor remittance of DCS expended funds back to the State will be netted against payments.

All PBC performance outcomes (Exits, Care Days and Re-entries) will continue to be monitored throughout the term of the contract. Performance expectations will continue to be based on historical performance relative to pre-established Grand Regional PBC baselines.

Commonly Used Performance-Based Contracting Definitions:

In-Care Population - The In-Care population consists of all children and youth being served by the Contractor as of the first day (July 1st) of the initial fiscal year of operation under a performance-based contract. This is a fixed population and at such time as the final In-Care child or youth exits care,

outcomes for this population are then concluded. Children who were receiving services in their home at the start of the initial fiscal year of operation under a performance-based contract are not included in the In-Care counts, nor in the performance targets.

Fourth Year In-Care and Admit Population – Those youth *remaining* in a provider's care from their original in-care population as well as their first year admissions population and any subsequent admission population entering its fourth fiscal year, will not be eligible for the banking of care days in prospective years beginning in the fourth year of a provider's participation under a performance-based contract.

Beginning in the fourth contract year, new baselines for this group will be set utilizing the expected performance for existing populations. Although these youth are not eligible for the banking of care days, providers **will** be able to generate re-investment funds as well as incur financial penalties relative to performance just as with any other population.

Baselines - Baselines express performance expectations relative to population (In-Care and Admissions), strata (age, adjudication, intellectual functioning) and geography (East, Middle and West Grand Regions). Baselines are created using historical data taken from the system of record and reflect the traditional or normal pattern of out-of-home care utilization. All PBC providers are evaluated using these uniform, "network-wide" baseline expectations.

Baseline Admissions - The expected number of children admitted to the Contractor during the fiscal year, based on the historical number of annual admissions.

Baseline Care Days –The average number of expected bed days a Contractor would be anticipated to use for any one given youth within a three fiscal year window according to assigned Strata and Grand Regional affiliation. This three year window begins during the child's initial year of admission. This window ends at the close of the third fiscal year from the child's original admissions year.

Baseline Exits to Permanency – The number and percent of children, from the corresponding in care and admission populations, a Contractor would be expected to exit from out-of-home care, within a three fiscal year window according to assigned Strata and Grand Regional affiliation, to permanency (as defined in this section).

Baseline Re-Entries – The number and percent of children discharged to permanency who may be expected to return to care, given historical performance. For purposes of estimating the reentry to care, return to out-of-home care means any child who returns to out of home care from a permanent exit, whether the foster home is supervised by DCS, or a Contractor. For purposes of calculating the re-entry rate, the base includes children discharged to permanency from either the in care or admission population within the fiscal year, who returns to care with one year of their discharge to permanency. Re-entries (as defined above) will continue to be tracked against the historical performance in the next fiscal year.

Baseline Re-Entries Range – A plus or minus range built around the baseline re-entry rate that captures variation in the re-entry rate observed at the agency level. The range is intended to reflect the fact that factors beyond the control of an agency (e.g., sibling groups) may influence the re-entry rate.

Refreshing Baselines – Baselines for performance are periodically "refreshed". This refreshing consists of dropping the oldest year of the initial baseline performance years data from the calculation and adding the most recent full fiscal year of performance. The window for the baselines will remain an aggregate of three (3) full fiscal years but will be refreshed in this way every subsequent three (3) years hereafter in order to more accurately reflect the expectations attached to certain fixed populations.

Initial baselines for performance are calculated utilizing a provider's last three (3) full fiscal year's worth of data regarding the outcomes of permanent exits, care days used and re-entry into care. This refreshing of baselines is only ever applicable to prospective populations and does not affect the treatment of prior existing in-care or admissions populations.

Targeted Care Days –The total number of out-of-home care days a Contractor is expected to provide given improvements in outcomes for children (i.e., safety and permanency). The difference between the target care days and the baseline care days, expressed as a percentage, is the performance improvement for purposes of calculating the reimbursement.

Targeted Exits to Permanency – The number and percent of children for whom a Contractor can be projected to achieve a permanent exit, given improvement in performance.

Targeted Re-Entries - The number and percentage of returns to out of home care after a successful exit to permanency within one fiscal year.

Re-Entry to Custody – Any child that has a permanent exit from care and returns to custody within one (1) year.

Exits to Permanency – All exits that are intended to provide the child with a stable, permanent family: reunification, guardianship and adoption.

Primary Treatment Center (PTC) & Enhanced Services – The approach for handling the fiscal calculation for these youth (at any provider offering PTC services or enhanced services) will be as follows:

Primary Treatment Centers: In their first (admission) year, the baselines and actuals are calculated using the current PTC rate. For those youth remaining with that provider into the next fiscal year (and for the original in-care population) the calculation will be made as follows:

The calculation for actuals will use the rate associated with the contract type on which the youth was placed following their stay in the PTC; and,

The baselines will be calculated using a method that applies a weighted distribution to the projected baseline population that reflects where PTC youth in the admission population were actually placed following the PTC stay.

Example: An admission cohort includes 25 Level II Continuum spells, 25 Level III Continuum spells and 50 PTC spells.

Upon completion of their PTC stay, 10 youth were placed in the provider's Level III Continuum and the remaining 40 went to their Level II Continuum. In this scenario the baselines will be calculated assuming 35% Level III Continuum and 65% Level II Continuum (this is done within strata).

Enhanced Services: Certain enhanced services have been designed with a time-limited stay in order to more effectively apply those services and to allow for more rapid movement of youth through the system.

Those youth leaving service from an enhanced contract and transferring to another provider will be dropped altogether from that provider's PBC outcomes. They will not, from a PBC standpoint, appear as ever having been served by the enhanced services provider. Youth leaving service from an enhanced contract and being placed on another of the enhanced provider's contracts **will** be a part of that provider's PBC outcomes.

In their first (admission) year, the baselines and actuals are calculated using the current enhanced contract rate. For those remaining with that provider into the next fiscal year (and for the original in-care population) the calculation will be made utilizing the rate associated with the contract type on which the youth was placed following their stay in the enhanced program.

ATTACHMENT A**Level 2 Continuum Group Care****A. General Characteristics**

1. Group Care Facilities are designed to meet the needs of children who are unable to live at home, or with a Resource Family, and therefore require temporary care in a group care setting integrated within the community.
2. The Group Care Facility provides structure, therapeutic support, behavioral intervention and other services identified in a child's permanency plan for children with low to moderate clinical and behavioral needs;
3. Goals/discharge criteria for Children in Group Care typically include permanency through reunification, kinship care, adoption or guardianship;
4. Group Care Facilities are licensed by DCS and may be licensed individually as Family Boarding Homes, Maternity Homes or Group Care Homes. They may also be licensed collectively as a Child Placing Agency through any combination of these programs administered by a single entity;
5. The facility will be licensed as a Department of Children's Services (DCS) Residential Child Care Agency or a Child Placing Agency if serving a population of more than twelve (12) youth. It will be licensed as a DCS Group Care Facility or Child Placing Agency if serving six (6) to twelve (12) or fewer youth. Unlike other Group Care Facilities, DCS Residential Child Care Agencies may not be approved under a DCS Child Placing Agency License.
6. The facility will adhere to the policies and procedures outlined in the DCS Provider Policy manual to include, but not limited to, Core Section, Foster Care/Resource homes, and all relative sections of the manual as it pertains to continuums. The manual is available on the DCS website and updated periodically.

B. Admission/Clinical Criteria

The following criteria will be met for admission:

1. These children/youth may be delinquent or a plaintiff class child/youth with complex needs and have a past history of multiple felony charges and/or a history with a multitude of the following behaviors: impulsivity, aggression, destruction or theft of property, alcohol or drug misuse, moderate to serious sex offenses, or described as having disruptive behavioral needs. Child/youth may have patterns of runaway episodes, may be involved in a gang, have difficulty maintaining self-control, display poor social skills, and/or have difficulty accepting authority. This service is available to children/youth (ages 13 up to 19) transitioning from a secure YDC facility after having received treatment, or from detention without treatment, or children/youth who present with similar needs but do not qualify for a secure facility. Such children/youth may have a need for treatment and support as they are preparing for full community integration or transition to a less restrictive setting.

2. On a case-by-case basis, the facility will admit children/youth who are in need of Level 3 clinical services but are eighteen years old and therefore not eligible for placement at a Level 3 Residential Treatment Facility (RTF). These youth will receive enhanced clinical services from mental health providers in the community to address their Level 3 needs.
3. This setting is available for children/youth whose relationship with their families or whose family situation, level of development and social or emotional problems are such that services in a family setting would not meet the child/youth's treatment needs due to supervision, intervention, and/or structure needs.
4. Programs are designed for children/youth in need of twenty-four (24) hour care and integrated planning to address behavioral, emotional, or family problems and the need for progressive reintegration into family and community living. Children/youth in Group Home placement remain involved in community-based schools (when appropriate) and participate in community-based recreational activities with appropriate supervision.
5. Children/youth may have a history of truancy but are typically able to attend public school with liaison and support services provided by the agency.
6. Children/youth in this level of care have behaviors that can be treated in a non-secure setting, with adult supervision and clinical intervention.
7. Children/youth may have completed higher levels or intensity of care and determined appropriate for group placement as work toward permanency continues. In addition, the child/youth may have been treated at a higher level of care for sexually reactive behavior or sex offender issues and has been assessed with a low to moderate risk for reoffending.
8. Children/youth in this level of care may require community counseling or therapy, medication, and medication management services. These services will be coordinated by the agency and integrated into Treatment Planning.
9. Assessment Requirements
 - a. Child and Adolescent Needs & Strengths (CANS) will be used as a screening tool for children and youth to assist with determination if group care is indicated. Prior to the CFTM, the CANS will be thoroughly reviewed so the team will have the recommendation available for consideration in placement-related decisions.
 - b. Youth Level of Services (YLS) - Juvenile Justice Youth at this level of service may have low or medium YLS risk levels.
10. Children/youth with a High School diploma or a GED or *HiSET*®.
11. All children/youth referred by DCS meeting the criteria described herein shall be admitted into the program if space is available.
12. Children/youth who are ineligible for this level of care are those who have need of acute psychiatric hospitalization and/or require placement in a YDC setting for major acts of violence or aggression within the past six (6) months. Those who are found to pose a significant risk to the community are not appropriate for this level of care. Child/Youth with a primary diagnosis of intellectual disability are evaluated

on a case-by-case basis. Child/Youth with an IQ lower than 55 or who have adaptive functioning indicating a moderate to severe intellectual disability are not appropriate unless the agency is licensed for this service type.

C. Personnel & Staffing Requirements

1. Adequate care and supervision is provided to assure that child/youth is safe and that his/her needs are met, in accordance with child/youth's developmental level, age, and emotional or behavioral problems, and include:
 - a. At least one (1) on-duty child care worker providing continuous supervision for each group of eight (8) children or youth (staff to student ratio of 1:8). This ratio is also maintained at night;
 - b. Higher adult/child ratios during periods of greater activity are recommended; and,
 - c. Availability of additional or back-up direct care staff for emergency situations or to meet special needs presented by the children in care as needed.
2. No more than five (5) providers of case coordination or casework services report to one (1) Case Manager Supervisor. The caseloads for personnel providing case coordination or casework services do not exceed fifteen (15) residents.
3. No more than seven (7) direct care staff members report to one (1) Direct Care Worker Supervisor and the ratio is reduced to 1:5 when the workers are newly hired or in probationary status.

D. Individualized Care Plan

1. An Individualized Care Plan will be developed and implemented for each child/youth. An initial assessment of the child/youth's needs and strengths will be completed within 72 hours of admission. The information gleaned from the assessment will be incorporated into the Care Plan. Detailed guidelines for the Care Plan are listed in the Core Standards of the Provider Policy Manual.
2. The program will ensure that the following assessments are completed prior to development of the child/youth's Care Plan:
 - a. Assessment of current functioning, and a history in the following areas: Community living skills; living skills appropriate to age; emotional and psychological health; and educational level (including educational history);
 - b. Basic medical history and information;
 - c. A six (6) month history of prescribed medication(s), frequently used over-the-counter medication, and alcohol or other drug use; and,

 - e. DCS' expectation is that the provider will review all available records and will work with the FSW to obtain missing information. This information will be reviewed and integrated into the treatment planning process, including

following discharge recommendations of prior treatment facilities as applicable.

- f. The Care Plan will include specific steps to work toward permanency, including visitation plan. This plan may integrate information from tools such as the CANS, FFA, YLS, and Permanency Plan. For example, actionable items on the CANS (items rated 2 or 3) will be addressed. On the YLS “Needs Intervention Checklist,” areas with a “moderate” or “high” risk noted will be addressed in the plan.

8. Appropriate consents and authorizations for the release and obtaining of information about the child/youth.

H. Monitoring Progress

As described on the Monthly Summary Template, summaries are to be completed on a monthly basis for each family case served by the agency and will be submitted in TFACTS as a Private Provider Monthly summary case recording one time a month. The summary needs to be entered in the system by the 15th of the next month. This summary will include anything that has changed from the previous month and the youth's progress toward step-down.

The Monthly Summary Template may be found in the Core Standards section of this manual.

I. Utilization Review

Agency will participate in DCS Utilization Reviews (UR). UR generally occurs at 30 day intervals.

J. Discharge Criteria

1. A preliminary discharge plan with discharge goals, projected length of stay, and tentative aftercare plan will be formulated and shared with the DCS Regional Licensed Mental Health Clinician, educational specialist, family services worker, and placement specialist.
2. A child/youth is ready for discharge when he/she no longer meets the admission criteria (outlined above) and sufficient aftercare services (e.g., mental health, education, family, medical/physical) have been arranged to allow for a smooth transition.

K. Special Populations Group Care

Education:

1. Youth in this program may attend public school; however, programs will have access to an approved non-public school site for students that are zero tolerance or if students are unable to attend public school for some other reason. (See DCS Policy related to Non-Traditional Educational Settings <http://www.tn.gov/youth/dcsguide/policies.html>).
2. For group homes with an on-site school, assessment of whether child/youth is currently eligible for special education services in accordance with the State Board of Education Rules, Regulations and Minimum Standards. Additionally, an Educational Placement Evaluation (form CS-0772) will be completed.
3. Documentation of an education plan, including the initial Educational Placement Evaluation and subsequent reviews, developed for each child/youth that conforms to the Rules, Regulations and Minimum Standards

of the State Board of Education. The youth's Individualized Education Program (IEP), developed by an appropriately constituted IEP-Team, will also be included for all "qualified students with disabilities." The education plan may include education services provided either by the facility or by the Local Education Agency.

ATTACHMENT B

Level 3 Continuum Special Needs Enhanced Juvenile Justice (JJ)**A. General Characteristics**

1. Residential Treatment provides thorough clinical services including psychiatric and educational assessment and therapeutic treatment program in a 24-hour-a-day residential facility for children and youth with significant emotional and/or psychological treatment needs.
2. The type of licenses required for this level of service is licensed by Department of Mental Health and Substance Abuse Services (DMHSAS) as: Mental Health Residential Treatment Facility (MH Residential Treatment). Residential Treatment Facilities serving DCS children may not operate out of single-family dwellings. These settings are not conducive to providing the more intense clinical services and structure required for this level of service.
3. Staff secure Residential Treatment Facilities will exclusively serve youth adjudicated delinquent and will not co-mingle these youth with those adjudicated social services or unruly.
4. The facility will adhere to the policies and procedures outlined in the DCS Provider Policy manual to include, but not limited to, Core Section, Foster Care/Resource homes, and all relative sections of the manual as it pertains to continuums. The manual is available on the DCS website and updated periodically.
http://www.tn.gov/youth/providers/prov_policies.htm

B. Admission/Clinical Criteria

1. This facility serves **male** children/youth aged 13 and up who are adjudicated delinquent. The facility will be staff secured. The facility will exclusively serve children/youth who demonstrate a moderate to high risk for behavioral instability. These youth may pose a risk to self and/or others and will have exhibited conduct problems, evidenced by one or more of the following: Multiple felony charges, history of aggression, impulsivity, strong gang affiliation, alcohol and drug misuse, and sexual behavior problems.
2. In addition, the following medical necessity criteria are met for admission to a Residential Treatment Facility:
 - a. The child/youth has a significant mental health disorder (DSM-IV-TR or DSM-V) and is impaired in social, educational, familial and occupational functioning. This level of functioning is not due exclusively to intellectual or developmental disability or organic dysfunction. This disorder is amenable to “psychiatric treatment” and requires mental health treatment that cannot be successfully provided at a lower level of care. The youth needs psychiatric consultation and access to physician services as well as daily supportive guidance toward stabilization.
 - b. The child/youth is unable to adequately care for physical needs without

external support that is beyond the capacity/capabilities of the family and/or other non-inpatient community support. This inability represents harm to self or others (e.g., reckless self-endangerment) and is due to psychiatric disorder, *not* developmental, social, cognitive or specific medical limitations.

- c. The child/youth's current living environment, family setting and extended community cannot provide the support and access to therapeutic services necessary to maintain stability or maximize effective daily functioning and/or the youth has not been successful in lower levels of treatment efforts (i.e., has failed to maintain or sustain adequately).
 - d. The child/youth cannot achieve successful adaptation for the purpose of stabilization, *at this time*, without significant structure and supportive residential guidance that can only be provided through twenty-four (24) hour intervention and supervision in a highly-structured environment.
 - e. The child/youth meets the age, cognitive capacity, adaptive functioning level and/or developmental level requirements necessary for minimal acceptance in the specific setting.
 - f. The child/youth does not require medical substance abuse treatment (e.g. detoxification) as the primary need and does not have contraindicated medical conditions that are primary and would supersede the psychiatric symptoms;
3. Child/youth may pose a high risk for elopement, instability in behavior and mental health status or occasionally experience acute episodes. These youth also experience persistent maladjustment of peer and other social relationships or other influencing systems which interfere with learning and social environments.
 4. Children/youths with a primary diagnosis of intellectual disability are evaluated on a case-by-case basis for admission and a special needs contract. Children with an IQ lower than 55 or who have adaptive functioning indicating moderate to severe intellectual disability may not be appropriate unless the agency is able to make appropriate adjustments to the regular programming as needed.
 5. Assessment Requirements:
 - a. Child and Adolescent Needs & Strengths (CANS) will be used as a screening tool for children and youth to assist with determination if residential treatment is indicated. Prior to the CFTM, the Regional Licensed Mental Health Clinician will be consulted and the CANS (if available) thoroughly reviewed so the team will have the recommendation available for consideration in placement-related decisions.
Note: Items that might need to be considered for potential placement in

this setting are CANS actionable items scoring a 2 or 3 on risk behaviors and behavioral emotional needs;

- b. Youth Level of Service/Case Management Inventory™ (YLS) - Juvenile Justice youth at this level of service may have low, moderate or high YLS risk levels. Youth with very high YLS risk level scores may be appropriate for admission at this level of care based on unique case circumstances following classification at a secure facility (such as a Youth Development Center) or assessment in a Level 4 treatment facility
- c. The Regional Licensed Mental Health Clinician will determine "medical necessity" in order for a child or youth to be placed in a Residential Treatment Facility. If a CFT cannot come to a consensus on a recommendation of medical necessity, the situation will be reviewed by Central Office clinical staff. This is intended to ensure that those children or youth who require this level of service are given every opportunity to receive it.
- d. Children/youth with a High School diploma or a GED or *HiSET*®.

C. Personnel

1. The provider has trained personnel who can meet the developmental, therapeutic, and supervision needs of all children/youths accepted for care and services.
2. The program is under the direct clinical supervision of a licensed mental health professional with training and experience in mental health treatment of children and youth.
3. Staff is appropriately credentialed to provide individual and family counseling/therapy. The agency is responsible for providing the credentials of therapists upon request. If a specific treatment such as Trauma Focused Cognitive Behavior Therapy (TFCBT), Dialectical Behavior Therapy (DBT), or treatment for problem sexual behavior is being provided, the agency is able to demonstrate that the therapist is appropriately trained to deliver this treatment.
4. Educational staff will meet the employment standards outlined in the state Board of Education Rules, Regulations and Minimum Standards.
5. The program will maintain a written agreement with, or employ, a Tennessee-licensed physician as a medical consultant. If the consulting physician is not a psychiatrist, the facility will arrange for the regular, consultative and emergency services of a licensed psychiatrist (TCA 0940-5-37). The psychiatrist is available for consultation with program staff, parent/guardian and/or custodian. For further details see Section E, Service Components, below.
6. Residential Treatment Facility staff to child/youth ratio: 1:5 (one direct-care, awake staff for every five on-site youth) during the day and 1:8 (one direct-care, awake staff for every eight on-site youth) overnight staff. Staff persons counted in the staff-to-child/youth ratio may only be persons who are assigned to provide direct program services as described by written job description. During normal sleeping hours the program will provide one direct-care staff person on-site in each building, or physically separated unit of a building in which children/youths

are housed. Support staff such as clerical, housekeeping, van and bus driver staff or students involved in an onsite practicum for academic credit may not be counted in the staff-to-child/youth ratio. While these are the minimum standards, it is strongly recommended that two staff be present at any time when children/youths are being supervised.

7. The program will provide, at all times, at least one (1) on-duty staff member trained in First Aid and the Heimlich maneuver and certified in cardiopulmonary resuscitation (CPR) (TCA 0940-5-37).
8. Note: For additional licensure information see Section 0940-5-37.03 Rules of Department of Mental Health and Development Disabilities.

D. Individualized Treatment Plan

1. An Initial Treatment Plan will be developed within the first 72 hours for each child/youth. This plan will be based on initial history and current assessment of child/youth's needs and strengths.
2. A more Comprehensive Treatment Plan will be developed after testing and/or assessment has occurred. The Treatment Planning process will include the family and youth per the CFTM model for collaborative planning. This will be completed within 30 days of admission.
3. The program will ensure that the following assessments are completed prior to development of the child/youth's comprehensive Treatment Plan:
 - a. Assessment of current functioning, and a history in the following areas: Community living skills, living skills appropriate to age, emotional and psychological health, and Educational level (including educational history).
 - b. Basic medical history and information;
 - c. A six (6) month history of prescribed medication, frequently used over-the-counter medication and alcohol or other drug use;
 - d. History of prior mental health and alcohol and drug treatment episodes; and,
 - e. Assessment of whether child/youth is currently eligible for special education services in accordance with the State Board of Education Rules, Regulations and Minimum Standards.
4. The Comprehensive Treatment Plan will address referral concerns and identify treatment goals as related to safety, mental health, medical, and educational well-being. The Treatment Plan will include specific steps to work toward permanency, including a visitation plan. This plan may integrate information from tools such as the CANS, FFA, YLS, and Permanency Plan. For example, actionable items on the CANS (items rated 2 or 3) and/or areas that score "moderate or high" on the YLS will be addressed.
5. The Comprehensive Treatment Plan will consider discharge goals and estimated length of stay. Discharge planning will begin at admission and will be an ongoing process.

6. Documentation of the Treatment Plan and of its implementation will be kept in the child/youth record and will include the following, per TCA 0940-5-37-.05:
 - a. The child/youth's name on the Treatment Plan
 - b. The date of development of the Treatment Plan

7. A review of the Treatment Plan will occur at least every thirty (30) days or upon completion of the stated goals and objectives and will include the following documentation, per TCA 0940-5-37-.05:
 - a. Dated signatures of appropriate staff
 - b. An assessment of progress toward each treatment goal and/or objective with revisions as indicated
