3. RESPONSE REQUIREMENTS

3.1. Response Form

A response to this RFP must consist of two parts, a Technical Response and a Cost Proposal.

- 3.1.1. **Technical Response.** RFP Attachment 6.2., Technical Response & Evaluation Guide provides the specific requirements for submitting a response. This guide includes mandatory requirement items, general qualifications and experience items, and technical qualifications, experience, and approach items all of which must be addressed with a written response and, in some instances, additional documentation.

NOTICE: A technical response must not include any pricing or cost information. If any pricing or cost information amounts of any type (even pricing relating to other projects) is included in any part of the technical response, the state may deem the response to be non-responsive and reject it.

- 3.1.1.1. A Respondent must use the RFP Attachment 6.2., Technical Response & Evaluation Guide to organize, reference, and draft the Technical Response by duplicating the attachment, adding appropriate page numbers as required, and using the guide as a table of contents covering the Technical Response.
- 3.1.1.2. A response should be economically prepared, with emphasis on completeness and clarity. A response, as well as any reference material presented, must be written in English and must be written on standard 8 ½" x 11" pages (although oversize exhibits are permissible) and use a 12 point font for text. All response pages must be numbered.
- 3.1.1.3. All information and documentation included in a Technical Response should respond to or address a specific requirement detailed in the RFP Attachment 6.2., Technical Response & Evaluation Guide. All information must be incorporated into a response to a specific requirement and clearly referenced. Any information not meeting these criteria will be deemed extraneous and will not contribute to evaluations.
- 3.1.1.4. The State may determine a response to be non-responsive and reject it if:
- a. the Respondent fails to organize and properly reference the Technical Response as required by this RFP and the RFP Attachment 6.2., Technical Response & Evaluation Guide; or
 - b. the Technical Response document does not appropriately respond to, address, or meet all of the requirements and response items detailed in the RFP Attachment 6.2., Technical Response & Evaluation Guide.
- 3.1.2. **Cost Proposal.** A Cost Proposal must be recorded on an exact duplicate of the RFP Attachment 6.3., Cost Proposal & Scoring Guide.

NOTICE: If a Respondent fails to submit a cost proposal exactly as required, the State may deem the response to be non-responsive and reject it.

- 3.1.2.1. A Respondent must only record the proposed cost exactly as required by the RFP Attachment 6.3., Cost Proposal & Scoring Guide and must NOT record any other rates, amounts, or information.

- 3.1.2.2. The proposed cost shall incorporate ALL costs for services under the contract for the total contract period, including any renewals or extensions.
- 3.1.2.3. A Respondent must sign and date the Cost Proposal.
- 3.1.2.4. A Respondent must submit the Cost Proposal to the State in a sealed package separate from the Technical Response (as detailed in RFP Sections 3.2.3., *et seq.*).

3.2. Response Delivery

3.2.1. A Respondent must ensure that both the original Technical Response and Cost Proposal documents meet all form and content requirements, including all required signatures, as detailed within this RFP.

3.2.2. A Respondent must submit original Technical Response and Cost Proposal documents and copies as specified below.

3.2.2.1. One (1) original Technical Response paper document labeled:

“RFP # 32501-00518 TECHNICAL RESPONSE ORIGINAL”

and four (4) digital copies of the Technical Response each in the form of one (1) digital document in “PDF” format properly recorded on its own otherwise blank, standard CD-R recordable disc or USB flash drive labeled:

“RFP # 32501-00518 TECHNICAL RESPONSE COPY”

The digital copies should not include copies of sealed customer references, however any other discrepancy between the paper Technical Response document and any digital copies may result in the State rejecting the proposal as non-responsive.

3.2.2.2. One (1) original Cost Proposal paper document labeled:

“RFP # 32501-00518 COST PROPOSAL ORIGINAL”

and one (1) copy in the form of a digital document in “PDF” format properly recorded on separate, blank, standard CD-R recordable disc or USB flash drive labeled:

“RFP # 32501-00518 COST PROPOSAL COPY”

In the event of a discrepancy between the original Cost Proposal document and the digital copy, the original, signed document will take precedence.

3.2.3. A Respondent must separate, seal, package, and label the documents and copies for delivery as follows:

3.2.3.1. The Technical Response original document and digital copies must be placed in a sealed package that is clearly labeled:

“DO NOT OPEN... RFP # 32501-00518 TECHNICAL RESPONSE FROM [RESPONDENT LEGAL ENTITY NAME]”

3.2.3.2. The Cost Proposal original document and digital copy must be placed in a separate, sealed package that is clearly labeled:

“DO NOT OPEN... RFP # 32501-00518 COST PROPOSAL FROM [RESPONDENT LEGAL ENTITY NAME]”

- 3.2.3.3. The separately, sealed Technical Response and Cost Proposal components may be enclosed in a larger package for mailing or delivery, provided that the outermost package is clearly labeled:

“RFP # 32501-00518 SEALED TECHNICAL RESPONSE & SEALED COST PROPOSAL FROM [RESPONDENT LEGAL ENTITY NAME]”

- 3.2.4. A Respondent must ensure that the State receives a response no later than the Response Deadline time and date detailed in the RFP Section 2, Schedule of Events at the following address:

Bob Melching
Tennessee Department of Agriculture
P.O. Box 40627
Nashville, TN 37204

3.3. Response & Respondent Prohibitions

- 3.3.1. A response must not include alternate contract terms and conditions. If a response contains such terms and conditions, the State, at its sole discretion, may determine the response to be a non-responsive counteroffer and reject it.
- 3.3.2. A response must not restrict the rights of the State or otherwise qualify either the offer to deliver goods or provide services as required by this RFP or the Cost Proposal. If a response restricts the rights of the State or otherwise qualifies either the offer to deliver goods or provide services as required by this RFP or the Cost Proposal, the State, at its sole discretion, may determine the response to be a non-responsive counteroffer and reject it.
- 3.3.3. A response must not propose alternative goods or services (*i.e.*, offer services different from those requested and required by this RFP) unless expressly requested in this RFP. The State may consider a response of alternative goods or services to be non-responsive and reject it.
- 3.3.4. A Cost Proposal must be prepared and arrived at independently and must not involve any collusion between Respondents. The State will reject any Cost Proposal that involves collusion, consultation, communication, or agreement between Respondents. Regardless of the time of detection, the State will consider any such actions to be grounds for response rejection or contract termination.
- 3.3.5. A Respondent must not provide, for consideration in this RFP process or subsequent contract negotiations, any information that the Respondent knew or should have known was materially incorrect. If the State determines that a Respondent has provided such incorrect information, the State will deem the Response non-responsive and reject it.
- 3.3.6. A Respondent must not submit more than one Technical Response and one Cost Proposal in response to this RFP, except as expressly requested by the State in this RFP. If a Respondent submits more than one Technical Response or more than one Cost Proposal, the State will deem all of the responses non-responsive and reject them.

- 3.3.7. A Respondent must not submit a response as a prime contractor while also permitting one or more other Respondents to offer the Respondent as a subcontractor in their own responses. Such may result in the disqualification of all Respondents knowingly involved. This restriction does not, however, prohibit different Respondents from offering the same subcontractor as a part of their responses (provided that the subcontractor does not also submit a response as a prime contractor).
- 3.3.8. The State shall not consider a response from an individual who is, or within the past six (6) months has been, a State employee. For purposes of this RFP:
- 3.3.8.1. An individual shall be deemed a State employee until such time as all compensation for salary, termination pay, and annual leave has been paid;
- 3.3.8.2. A contract with or a response from a company, corporation, or any other contracting entity in which a controlling interest is held by any State employee shall be considered to be a contract with or proposal from the employee; and
- 3.3.8.3. A contract with or a response from a company, corporation, or any other contracting entity that employs an individual who is, or within the past six (6) months has been, a State employee shall not be considered a contract with or a proposal from the employee and shall not constitute a prohibited conflict of interest.

3.4. **Response Errors & Revisions**

A Respondent is responsible for any and all response errors or omissions. A Respondent will not be allowed to alter or revise response documents after the Response Deadline time and date detailed in the RFP Section 2, Schedule of Events unless such is formally requested, in writing, by the State.

3.5. **Response Withdrawal**

A Respondent may withdraw a submitted response at any time before the Response Deadline time and date detailed in the RFP Section 2, Schedule of Events by submitting a written request signed by an authorized Respondent representative. After withdrawing a response, a Respondent may submit another response at any time before the Response Deadline. After the Response Deadline, a Respondent may only withdraw all or a portion of a response where the enforcement of the response would impose an unconscionable hardship on the Respondent.

3.6. **Additional Services**

If a response offers goods or services in addition to those required by and described in this RFP, the State, at its sole discretion, may add such services to the contract awarded as a result of this RFP. Notwithstanding the foregoing, a Respondent must not propose any additional cost amounts or rates for additional goods or services. Regardless of any additional services offered in a response, the Respondent's Cost Proposal must only record the proposed cost as required in this RFP and must not record any other rates, amounts, or information.

NOTICE: If a Respondent fails to submit a Cost Proposal exactly as required, the State may deem the response non-responsive and reject it.

3.7. **Response Preparation Costs**

The State will not pay any costs associated with the preparation, submittal, or presentation of any response.

4. GENERAL CONTRACTING INFORMATION & REQUIREMENTS

4.1. RFP Amendment

The State at its sole discretion may amend this RFP, in writing, at any time prior to contract award. However, prior to any such amendment, the State will consider whether it would negatively impact the ability of potential Respondents to meet the response deadline and revise the RFP Schedule of Events if deemed appropriate. If an RFP amendment is issued, the State will convey it to potential Respondents who submitted a Notice of Intent to Respond (refer to RFP Section 1.7). A response must address the final RFP (including its attachments) as amended.

4.2. RFP Cancellation

The State reserves the right, at its sole discretion, to cancel the RFP or to cancel and reissue this RFP in accordance with applicable laws and regulations.

4.3. State Right of Rejection

4.3.1. Subject to applicable laws and regulations, the State reserves the right to reject, at its sole discretion, any and all responses.

4.3.2. The State may deem as non-responsive and reject any response that does not comply with all terms, conditions, and performance requirements of this RFP. Notwithstanding the foregoing, the State reserves the right to waive, at its sole discretion, minor variances from full compliance with this RFP. If the State waives variances in a response, such waiver shall not modify the RFP requirements or excuse the Respondent from full compliance, and the State may hold any resulting Contractor to strict compliance with this RFP.

4.4. Assignment & Subcontracting

4.4.1. The Contractor may not subcontract, transfer, or assign any portion of the Contract awarded as a result of this RFP without prior approval of the State. The State reserves the right to refuse approval, at its sole discretion, of any subcontract, transfer, or assignment.

4.4.2. If a Respondent intends to use subcontractors, the response to this RFP must specifically identify the scope and portions of the work each subcontractor will perform (refer to RFP Attachment 6.2., Section B, General Qualifications & Experience Item B.14.).

4.4.3. Subcontractors identified within a response to this RFP will be deemed as approved by the State unless the State expressly disapproves one or more of the proposed subcontractors prior to signing the Contract.

4.4.4. After contract award, a Contractor may only substitute an approved subcontractor at the discretion of the State and with the State's prior, written approval.

4.4.5. Notwithstanding any State approval relating to subcontracts, the Respondent who is awarded a contract pursuant to this RFP will be the prime contractor and will be responsible for all work under the Contract.

4.5. Right to Refuse Personnel or Subcontractors

The State reserves the right to refuse, at its sole discretion and notwithstanding any prior approval, any personnel of the prime contractor or a subcontractor providing goods or services in the performance of a contract resulting from this RFP. The State will document in writing the reason(s) for any rejection of personnel.

4.6. Insurance

From time-to-time, the State may require the awarded Contractor to provide a Certificate of Insurance issued by an insurance company licensed or authorized to provide insurance in the State of Tennessee. Each Certificate of Insurance shall indicate current insurance coverages meeting minimum requirements as may be specified by this RFP. A failure to provide a current, Certificate of Insurance will be considered a material breach and grounds for contract termination.

4.7. Professional Licensure and Department of Revenue Registration

- 4.7.1. All persons, agencies, firms, or other entities that provide legal or financial opinions, which a Respondent provides for consideration and evaluation by the State as a part of a response to this RFP, shall be properly licensed to render such opinions.
- 4.7.2. Before the Contract resulting from this RFP is signed, the apparent successful Respondent (and Respondent employees and subcontractors, as applicable) must hold all necessary or appropriate business or professional licenses to provide the goods or services as required by the contract. The State may require any Respondent to submit evidence of proper licensure.
- 4.7.3. Before the Contract resulting from this RFP is signed, the apparent successful Respondent must be registered with the Tennessee Department of Revenue for the collection of Tennessee sales and use tax. The State shall not award a contract unless the Respondent provides proof of such registration or provides documentation from the Department of Revenue that the Contractor is exempt from this registration requirement. The foregoing is a mandatory requirement of an award of a contract pursuant to this solicitation. For purposes of this registration requirement, the Department of Revenue may be contacted at: TN.Revenue@tn.gov.

4.8. Disclosure of Response Contents

- 4.8.1. All materials submitted to the State in response to this RFP shall become the property of the State of Tennessee. Selection or rejection of a response does not affect this right. By submitting a response, a Respondent acknowledges and accepts that the full response contents and associated documents will become open to public inspection in accordance with the laws of the State of Tennessee.
- 4.8.2. The State will hold all response information, including both technical and cost information, in confidence during the evaluation process. Notwithstanding the foregoing, a list of actual Respondents submitting timely responses may be available to the public, upon request, after technical responses are opened.
- 4.8.3. Upon completion of response evaluations, indicated by public release of a Notice of Intent to Award, the responses and associated materials will be open for review by the public in accordance with *Tennessee Code Annotated*, Section 10-7-504(a)(7).

4.9. Contract Approval and Contract Payments

- 4.9.1. After contract award, the Contractor who is awarded the contract must submit appropriate documentation with the Department of Finance and Administration, Division of Accounts.
- 4.9.2. This RFP and its contractor selection processes do not obligate the State and do not create rights, interests, or claims of entitlement in either the Respondent with the apparent best-evaluated response or any other Respondent. State obligations pursuant to a contract award shall commence only after the contract is signed by the State agency head and the Contractor and after the Contract is approved by all other state officials as required by applicable laws and regulations.

- 4.9.3. No payment will be obligated or made until the relevant Contract is approved as required by applicable statutes and rules of the State of Tennessee.
- 4.9.3.1. The State shall not be liable for payment of any type associated with the Contract resulting from this RFP (or any amendment thereof) or responsible for any goods delivered or services rendered by the Contractor, even goods delivered or services rendered in good faith and even if the Contractor is orally directed to proceed with the delivery of goods or the rendering of services, if it occurs before the Contract start date or after the Contract end date.
- 4.9.3.2. All payments relating to this procurement will be made in accordance with the Payment Terms and Conditions of the Contract resulting from this RFP (refer to RFP Attachment 6.6., *Pro Forma Contract*, Section C).
- 4.9.3.3. If any provision of the Contract provides direct funding or reimbursement for the competitive purchase of goods or services as a component of contract performance or otherwise provides for the reimbursement of specified, actual costs, the State will employ all reasonable means and will require all such documentation that it deems necessary to ensure that such purchases were competitive and costs were reasonable, necessary, and actual. The Contractor shall provide reasonable assistance and access related to such review. Further, the State shall not remit, as funding or reimbursement pursuant to such provisions, any amounts that it determines do not represent reasonable, necessary, and actual costs.

4.10. **Contractor Performance**

The Contractor who is awarded a contract will be responsible for the delivery of all acceptable goods or the satisfactory completion of all services set out in this RFP (including attachments) as may be amended. All goods or services are subject to inspection and evaluation by the State. The State will employ all reasonable means to ensure that goods delivered or services rendered are in compliance with the Contract, and the Contractor must cooperate with such efforts.

4.11. **Contract Amendment**

After contract award, the State may request the Contractor to deliver additional goods or perform additional services within the general scope of the contract and this RFP, but beyond the specified scope of service, and for which the Contractor may be compensated. In such instances, the State will provide the Contractor a written description of the additional goods or services. The Contractor must respond to the State with a time schedule for delivering the additional goods or accomplishing the additional services based on the compensable units included in the Contractor's response to this RFP. If the State and the Contractor reach an agreement regarding the goods or services and associated compensation, such agreement must be effected by means of a contract amendment. Further, any such amendment requiring additional goods or services must be signed by both the State agency head and the Contractor and must be approved by other state officials as required by applicable statutes, rules, policies and procedures of the State of Tennessee. The Contractor must not provide additional goods or render additional services until the State has issued a written contract amendment with all required approvals.

4.12. **Severability**

If any provision of this RFP is declared by a court to be illegal or in conflict with any law, said decision will not affect the validity of the remaining RFP terms and provisions, and the rights and obligations of the State and Respondents will be construed and enforced as if the RFP did not contain the particular provision held to be invalid.

4.13. **Next Ranked Respondent**

The State reserves the right to initiate negotiations with the next ranked Respondent should the State cease doing business with any Respondent selected via this RFP process.

5. EVALUATION & CONTRACT AWARD

5.1. Evaluation Categories & Maximum Points

The State will consider qualifications, experience, technical approach, and cost in the evaluation of responses and award points in each of the categories detailed below (up to the maximum evaluation points indicated) to each response deemed by the State to be responsive.

EVALUATION CATEGORY	MAXIMUM POINTS POSSIBLE
General Qualifications & Experience (refer to RFP Attachment 6.2., Section B)	30
Technical Qualifications, Experience & Approach (refer to RFP Attachment 6.2., Section C)	30
Cost Proposal (refer to RFP Attachment 6.3.)	40

5.2. Evaluation Process

The evaluation process is designed to award the contract resulting from this RFP not necessarily to the Respondent offering the lowest cost, but rather to the Respondent deemed by the State to be responsive and responsible who offers the best combination of attributes based upon the evaluation criteria. (“Responsive Respondent” is defined as a Respondent that has submitted a response that conforms in all material respects to the RFP. “Responsible Respondent” is defined as a Respondent that has the capacity in all respects to perform fully the contract requirements, and the integrity and reliability which will assure good faith performance.)

5.2.1. **Technical Response Evaluation.** The Solicitation Coordinator and the Proposal Evaluation Team (consisting of three (3) or more State employees) will use the RFP Attachment 6.2., Technical Response & Evaluation Guide to manage the Technical Response Evaluation and maintain evaluation records.

5.2.1.1. The State reserves the right, at its sole discretion, to request Respondent clarification of a Technical Response or to conduct clarification discussions with any or all Respondents. Any such clarification or discussion will be limited to specific sections of the response identified by the State. The subject Respondent must put any resulting clarification in writing as may be required and in accordance with any deadline imposed by the State.

5.2.1.2. The Solicitation Coordinator will review each Technical Response to determine compliance with RFP Attachment 6.2., Technical Response & Evaluation Guide, Section A—Mandatory Requirements. If the Solicitation Coordinator determines that a response failed to meet one or more of the mandatory requirements, the Proposal Evaluation Team will review the response and document the team’s determination of whether:

- a. the response adequately meets RFP requirements for further evaluation;
- b. the State will request clarifications or corrections for consideration prior to further evaluation; or,
- c. the State will determine the response to be non-responsive to the RFP and reject it.

5.2.1.3. Proposal Evaluation Team members will independently evaluate each Technical Response (that is responsive to the RFP) against the evaluation criteria in this RFP,

and will score each in accordance with the RFP Attachment 6.2., Technical Response & Evaluation Guide.

5.2.1.4. For each response evaluated, the Solicitation Coordinator will calculate the average of the Proposal Evaluation Team member scores for RFP Attachment 6.2., Technical Response & Evaluation Guide, and record each average as the response score for the respective Technical Response section.

5.2.1.5. Before Cost Proposals are opened, the Proposal Evaluation Team will review the Technical Response Evaluation record and any other available information pertinent to whether or not each Respondent is responsive and responsible. If the Proposal Evaluation Team identifies any Respondent that does not to meet the responsive and responsible thresholds such that the team would not recommend the Respondent for Cost Proposal Evaluation and potential contract award, the team members will fully document the determination.

5.2.2. **Cost Proposal Evaluation.** The Solicitation Coordinator will open for evaluation the Cost Proposal of each Respondent deemed by the State to be responsive and responsible and calculate and record each Cost Proposal score in accordance with the RFP Attachment 6.3., Cost Proposal & Scoring Guide.

5.2.3. **Total Response Score.** The Solicitation Coordinator will calculate the sum of the Technical Response section scores and the Cost Proposal score and record the resulting number as the total score for the subject Response (refer to RFP Attachment 6.5., Score Summary Matrix).

5.3. Contract Award Process

5.3.1 The Solicitation Coordinator will submit the Proposal Evaluation Team determinations and scores to the head of the procuring agency for consideration along with any other relevant information that might be available and pertinent to contract award.

5.3.2. The procuring agency head will determine the apparent best-evaluated Response. To effect a contract award to a Respondent other than the one receiving the highest evaluation process score, the head of the procuring agency must provide written justification and obtain the written approval of the Chief Procurement Officer and the Comptroller of the Treasury.

5.3.3. The State will issue a Notice of Intent to Award identifying the apparent best-evaluated response and make the RFP files available for public inspection at the time and date specified in the RFP Section 2, Schedule of Events.

NOTICE: The Notice of Intent to Award shall not create rights, interests, or claims of entitlement in either the apparent best-evaluated Respondent or any other Respondent.

5.3.4. The Respondent identified as offering the apparent best-evaluated response must sign a contract drawn by the State pursuant to this RFP. The contract shall be substantially the same as the RFP Attachment 6.6., *Pro Forma* Contract. The Respondent must sign the contract by the Contractor Signature Deadline detailed in the RFP Section 2, Schedule of Events. If the Respondent fails to provide the signed contract by this deadline, the State may determine that the Respondent is non-responsive to this RFP and reject the response.

5.3.5. Notwithstanding the foregoing, the State may, at its sole discretion, entertain limited negotiation prior to contract signing and, as a result, revise the *pro forma* contract terms and conditions or performance requirements in the State's best interests, PROVIDED THAT such revision of terms and conditions or performance requirements shall NOT materially affect the basis of response evaluations or negatively impact the competitive nature of the RFP and contractor selection process.

- 5.3.6. If the State determines that a response is non-responsive and rejects it after opening Cost Proposals, the Solicitation Coordinator will re-calculate scores for each remaining responsive Cost Proposal to determine (or re-determine) the apparent best-evaluated response.

A separate fee per case should be specified for this service, usually less than the per-case charge for delivery to recipient kitchens.

A.4. Warehouse Space, Equipment, and Staff.

A.4.a. General. Except as otherwise stated, the equipment to be used and the procedures to be followed are to include, but are not necessarily limited to, those stipulated herein.

A.4.b. Warehouse Facilities. Contractor must have adequate warehouse facilities for the following:

Dry Foods	Ventilated Space (grain products and dried fruits require refrigeration storage if dry warehouse temperatures continuously exceed 70° F)
-----------	--

Frozen Foods	Maintained at 0° F or below
Chilled Foods	Normally 36° F. (36° F to 40° F depending on the food)

The Contractor should maintain logs and record temperatures daily in each storage area for USDA commodity foods. An accurate continuous recording temperature chart is a reasonable substitute providing each storage area is so monitored. This action can help serve as verification that precautions were taken to prevent food loss.

Foods must be stored off the floor and away from walls to allow for adequate ventilation.

RAs are potentially eligible to receive at least thirty-nine (39) different items of packaged USDA commodity foods (Attachment C). The 39 items may be categorized according to warehouse requirements as follows:

Dry Foods	15
Frozen Foods	20
Chilled Foods	4

In addition to the items listed, State approved processors convert USDA commodity foods into further processed products. Such products are primarily frozen and shall be received, stored, and distributed under the same terms as all other USDA commodity foods.

It is herein set forth that any and all quantities mentioned are purely estimates, and are not to be implied or inferred as being guarantees. The State is obligated to order only the quantity needed by its RAs during the term of the contract. The items and quantities will vary from year to year. The total amount of warehouse space required will vary from month to month. The heaviest USDA shipping periods are August-October and January-February.

- A.4.c. Sanitation Requirement. The Contractor's warehouse shall be free from rodent, bird, insect, and other animal infestations and USDA commodity foods must be safeguarded against theft, spoilage, damage, and other losses. USDA commodity foods must be maintained in sanitary conditions, at the proper storage temperature and humidity, with adequate air circulation.

The Contractor's warehouse may be routinely inspected by State officials. Warehouse facilities and warehousing practices must be continuously in compliance with the Federal, State, and local requirements relative to food safety and health and procedures for responding to a food recall, as applicable, and the Contractor must obtain all required health inspections. Reports of inspections must be kept on file.

- A.4.d. Delivery Vehicle Requirements. The Contractor shall have adequate delivery vehicles as follows:

1. Van trucks for dry foods and refrigerated trucks for refrigerated foods; or
2. Dual compartment trucks for combined handling of dry and refrigerated foods; or
3. Single compartment refrigerated trucks (0° F) for separate or integrated loads of dry foods and refrigerated foods.
4. The Contractor must have vehicles in a number and size sufficient to meet the delivery schedule and quantity requirements.

- A.4.e. Staff Requirements. The Contractor is required to have sufficient staff to meet all requirements of this contract. One individual shall be identified as a primary contact person available to assist RAs with questions regarding allocations, orders, deliveries, and inventory. The Contractor shall

provide the name of one backup individual who can assume the responsibilities of the primary contact person in his/her absence.

A.4.f. Electronic Requirements. The Contractor shall have computer capability to provide necessary tracking and reporting of receipts and issues as well as prevent overdrawing of allocations. Such tracking and reporting shall include the USDA Sales Order number (10 numeric digits) and the USDA material number (6 numeric digits). For a further processed end product, the processor's product code will be used instead of a USDA material number. The Contractor must establish a method for sharing tracking /reporting information with the State and RAs on a regular basis and as requested. Acceptable methods are mailing, emailing, or offering online access. The Contractor shall have Internet access and shall maintain email capability to receive and transmit information and data.

A.5. Warehousing Procedures. The Contractor shall adhere to the following procedures:

A.5.a. Line of Communication. Warehouse staff shall discuss all matters of policy and complaints with the State. Only RA supervisors or designated representatives shall place orders with, otherwise instruct, or make requests of the Contractor. Individual schools shall communicate only with system supervisors. In as far as practical, all communications between RAs and the Contractor shall be in writing as outlined herein.

RA supervisors shall discuss all matters of policy and complaints with State Authorities. In as far as practical, communications between RAs and the Contractor shall be between designated representatives.

A.5.b. Warehouse Notification of Commodities to be Received: The Contractor shall be notified by the State of all in-bound shipments of USDA commodity foods to be received. The method and form for such notification will be mutually agreed upon by the State and the Contractor and will occur at least one (1) month prior to the receiving date for most foods. Notice of in-bound shipments of processed products from State approved processors will be provided to the Contractor as such information is received from the processors.

A.5.c. Notice of Arrival: USDA requests that the Shipper contact the Contractor at least forty-eight (48) hours prior to the actual delivery to schedule an unloading appointment. FNS Instruction 709-5, Revision 2 describes shipment and receipt procedures with which the Contractor must comply. (See Attachment D for highlights and <https://www.fns.usda.gov/fns-instruction-709-5-revision-2> for the full instruction.) The Contractor shall ensure that warehouse staff understand and agree to follow the procedures described.

The Contractor will notify the State via email within one business day of shipment arrival and promptly forward all bills of lading and other appropriate documentation to the State (scanned copies may be emailed).

At that time, the State will provide the Contractor a listing of the number of cases allocated to each RA. The State will notify applicable RAs if the Contractor doesn't have an online ordering system available for RAs.

A.5.d. Inbound Freight: All USDA commodity foods shipped to a Contractor's warehouse will be totally prepaid, i.e., product and freight. USDA does not allow charging of lumper fees.

The Contractor must stock and space foods in a manner so that USDA commodity foods are readily identified. For USDA commodity foods not bearing the USDA label and legend "Not to be sold or exchanged," the Contractor must use a method of notification, such as placard, stamp, bar code, etc. as well as slotting records, that will sufficiently identify those cases as USDA product.

Such a method must facilitate tracking in the event that foods are put on "hold" or are recalled. Evidence of stock rotation must be provided upon request.

The Contractor shall receive inbound freight in accordance with acceptable industry practices and will be responsible for the following:

1. Acting as consignee for the State. As consignee, the Contractor shall be held accountable and shall assume legal liabilities for all USDA commodity foods received and stored at its warehouse.
2. Positively identifying incoming shipments using the Bill of Lading matched against the State's notice and only unloading loads or portion of loads so identified. The Contractor must call the State before unloading if positive identification is not possible.
3. Ensuring that the high security seal(s) on the door or other point of entry of the truck or trailer is intact, removing the high security seal(s) and, for frozen or refrigerated foods, ensuring the temperature is at an acceptable level and that the unit is switched on and running.
4. Inspecting load for condition on arrival, verifying accuracy of count, and executing any reporting as may be required.
5. Indicating on the Bill of Lading the quantity of USDA foods received, noting any over/short/damages, before signing and dating the Bill of Lading and returning it to the vendor or carrier. (A copy must be retained as part of the Contractor's required records.) Indicate whether damaged merchandise is retained by the shipper or the warehouse. If the shipper is willing to retain damaged merchandise, the Contractor should not accept cases found to be damaged or out-of-condition.
6. Notifying the State via email within one business day of shipment arrival and promptly forwarding all bills of lading and any other shipping documents to the State. (Scanned copies may be emailed.)
7. Carrying all damaged merchandise in the inventory report until the State inspects or provides guidance for disposal. All damaged or out-of-condition foods shall not be disposed of without a witness and prior approval of the State. An area shall be identified to store damaged food until proper disposal.
8. With guidance from the State, recouping damaged merchandise so that all foods suitable for human consumption are salvaged for program use.
9. Assuming all freight demurrage and detention charges which occur, unless specifically exempted.
10. Arranging for sufficient warehouse space to absorb all inbound freight at abnormal peak loads at no additional cost to any RA.
11. Taking immediate steps to ensure product placed on hold is not delivered to RAs.

The Contractor is liable for claims levied by the USDA and/or the State against the Contractor as a result of the Contractor's failure to properly secure, handle, or account for shipment.

A.5.e. Outbound Deliveries

1. Frequency of Deliveries. Deliveries shall be made weekly to RAs that receive weekly delivery of commercially purchased foods from the Contractor; otherwise, deliveries can be made on a

biweekly basis. Deliveries to other RAs may be made once each two weeks if the average USDA commodity food case load is twenty (20) cases or more; otherwise deliveries may be scheduled monthly.

2. Delivery Schedule. Prior to delivery of any USDA commodity foods, the Contractor shall notify each RA of their system account number and delivery day. The RA will notify the Contractor of the amounts and date of delivery of USDA commodity foods via fax, online ordering system, or other means suitable to the Contractor and/or the State.

The Contractor agrees to notify the RA by phone in the event that a scheduled delivery cannot be made as planned, such notification to be made immediately once inability to deliver is identified. Delivery schedules, once established, may not arbitrarily be changed unless a qualified emergency exists and recipient agencies are notified.

3. Delivery Hours. Deliveries shall be made between the hours of 7:00 AM and 2:30 PM (local time) unless special arrangements are made in advance. Deliveries shall be made Monday through Friday, except school or institutional holidays or emergency closing days. Deliveries missed due to holidays, inclement weather, breakdowns, etc. must be re-scheduled before the next scheduled delivery. RAs will be requested to arrange a flexible work schedule so that a receiver will be on duty the days when USDA commodity foods are scheduled for delivery after cafeteria hours (but prior to 2:30 PM). Deliveries past 2:30 PM must be scheduled in advance by Contractor with the RA only in emergency situations.

4. Delivery Drop Areas. Contractor drivers and helpers shall deliver merchandise in designated staging areas at each delivery location. Recognized designated staging areas are inside of the door or a walk-in dry grocery area, freezer or cooler. Drivers or helpers shall not be required to store merchandise on shelves or stack in reach-in coolers, freezers or other cabinets.

Contractor drivers and helpers shall request an authorized receiver or the designated representative to verify accuracy of items, quantities of each item, total quantities, and condition of merchandise. Each delivery ticket must be receipted (signed) by a designated receiver. Variations from the norm, i.e., shortages, damages, etc., shall be noted on each ticket by the designated receiver, and initialed by both the truck driver and receiver.

5. Special Deliveries. Special or intermediate deliveries will be required only if a Contractor fails to deliver a product in stock in which case the Contractor shall make delivery within 24 hours if so requested by the RA. No extra charges will be assessed.

6. Straight or Mixed Loads: The Contractor may load USDA commodity foods in vans containing only USDA commodity foods or in vans with food commercially purchased as long as other terms of the contract are satisfied. Foods may not be stored or loaded with agricultural or other chemicals which may be harmful to the quality or safety of the food.

A.5.f. Inventory Management Reports and Controls

1. Stock Rotation. Contractor must rotate stock on a first in, first out basis in accordance with acceptable warehousing practices and provide evidence of stock rotation upon request.

2. Inventory Control. The Contractor shall provide monthly inventory reports electronically to the State. This may be in the form of scanned reports, spreadsheets, or allowing the State access to the Contractor's online ordering system or website. Reports shall be available by the 10th day of the following month and shall show the amounts on hand by item (material number) and RA at the beginning of the month, the amount received, the amount delivered, and the balance on hand at the end of the month. Allocations to RAs should be tracked by the ten (10) digit USDA Sales Order number.

USDA commodity foods received pursuant to this contract, including processed foods, must be stored separately in an easily identifiable manner. If Contractor stores USDA commodity foods pursuant to a contract with another entity, for instance an RA or another state, those USDA foods must be stored separately from the USDA foods covered by this contract and their owner clearly identified.

If a USDA commodity food is placed on hold, immediate steps must be taken to ensure product is not delivered to RAs.

3. Shortages and Damages. The Contractor shall be financially responsible for shortages and damages to products or packages after receipt by Contractor which make them unacceptable to the State. All shortages and damages of foods must be reported to the State at least monthly. Damages shall include infestation of products due to improper storage conditions, as well as physical damage to containers including serious rust. Shortages and damages shall be accounted as such within the Contractor's monthly inventory reports.

The Contractor's settlement may be required in the form of cash payment or by replacement with an equal quantity of an equal or better quality product, at the option of the State or the RA. A cash payment to an RA for loss of processed commodity foods must include the value of USDA food used to process the case and the vendor's processing fee per case.

If a shortage of USDA commodity foods is identified by the RA or Inspector representing State, or the Contractor, a review of the inventory and signed invoices of the foods in question will be conducted at the discretion of the State. Determination of responsibility of shortages will be made by the State.

Should overage and shortage discrepancies between physical inventory and perpetual book inventory exist, such discrepancies shall be reconciled annually. Irreconcilable overages and/or shortages will be settled by computing the value of such shortages and overages based on the USDA cost established annually by the State. If the value of shortages exceeds the value of overages, a monetary settlement for the difference in value will be required. If the value of overages exceeds the value of shortages, no monetary settlement is required. Book inventory will be adjusted after settlement to correspond with physical inventory.

UNDER NO CIRCUMSTANCES SHALL A CONTRACTOR BE PERMITTED TO RETAIN AS THE CONTRACTOR'S OWN PROPERTY ANY USDA COMMODITY FOODS WHICH DEVELOP AS OVERAGES IN INVENTORY.

- A.6. The Contractor agrees to operate the program in accordance with the requirements of 7 CFR 250 (as applicable), and all pertinent policies, rules, regulations, and procedures established by USDA and/or the State.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA.

B. TERM OF CONTRACT:

- B.1. This Contract shall be effective on July 1, 2017 ("Effective Date"), and extend for a period of twelve (12) months after the Effective Date ("Term"). The State shall have no obligation for goods or services provided by the Contractor prior to the Effective Date.

B.2. Renewal Options. This Contract may be renewed upon satisfactory completion of the Term. The State reserves the right to execute up to four (4) renewal options under the same terms and conditions for a period not to exceed twelve (12) months each by the State, at the State's sole option. In no event, however, shall the maximum Term, including all renewals or extensions, exceed a total of sixty (60) months.

C. PAYMENT TERMS AND CONDITIONS:

C.1. There shall be no cost to the State for the performance of services under this contract.

C.2. The Contractor shall charge the RAs served under this contract the following firm price per case for the contract period:

Deliveries to Recipient Kitchen **\$ PRICE PER CASE**

Lump Sum Deliveries/One stop (Warehouse Deliveries) **\$ PRICE PER CASE**

C.3. Each one-year extension of the contract shall be subject to increases and decreases based upon the United States Department of Labor Wholesale Price Index. Changes will be calculated by applying the standard formula to the base index. In the event of one-year extensions of the contract, they shall be subject to annual increases or decreases based upon a composite index consisting of the Employment Cost Index (ECI) and the Producer Price Index (PPI) for #2 diesel fuel Commodity Code 05-73-03. The ECI will be based on December data and will carry a weight of sixty (60) percent. The PPI on #2 diesel fuel will also be based on December data and will carry a weight of forty (40) percent. No price increase or decrease will be effective unless requested by the Contractor in the case of an increase, or the State in the case of a decrease. Any such request shall be made in writing by February 1 each year to become effective July 1. Upon receipt by the State of a request for renewal with a price increase by the Contractor, the State may, at its sole discretion, either accept the increase or notify the Contractor of its intent to reject the proposed price increase and proceed to re-bid the contract.

EXAMPLE OF CALCULATION PROCEDURE

<u>COMPOSITE</u>	<u>LABOR</u>	<u>DIESEL</u>
Base Price \$2.00		
Current period series value (December of current fiscal year)	128.0	157.3
Divide by base period series value (December - previous fiscal year).....;	125.2	129.7
equals	1.022	1.213
Multiply by 100 to yield the converted series value weight	102.236	121.28
Multiply by assigned weight (Labor 60%, Diesel Fuel 40%)	61.342	48.512
Add the figures to get the current value for the special index	109.854	
Multiply by the base price per case (\$2.00)	219.708	
Divide by 100 to yield the adjusted allowable price	\$2.20	

C.4 The Contractor may assess a charge per month to RAs for each unit (case) of food remaining in storage beyond two (2) months for the convenience of RAs or State officials. This charge shall not exceed twenty-five (25) percent of the stated charge per case for delivery to RAs. Such charges may be assessed for a full month on the first day following the anniversary arrival dates. The twenty-five percent charge per month may be assessed on the base price only and not a compounded basis.

Because of the need for “filling the pipeline” at school start-up and after the Winter holidays, the Contractor will allow one (1) month of additional grace period beyond the two (2) months covered by the price per case for shipments arriving in August and December.

C.5 Invoicing. On no less than a monthly basis, the Contractor shall submit invoices for work performed to each RA that received services. Each invoice shall include a summary of delivery tickets for the period. Each referenced ticket shall be listed in numerical sequence and show the total number of cases, bags, etc. delivered. The payment of an invoice shall not prejudice the State's right to object to or question any invoice or matter related thereto. Such payment shall not be construed as acceptance of any part of the service provided or as approval of any of the costs invoiced therein. Contractor's invoice shall be subject to reduction for amounts included in the invoice or payment theretofore made which are determined by the State, on basis of audits conducted in accordance with the terms of the Contract, not to constitute allowable costs.

D. STANDARD TERMS AND CONDITIONS:

- D.5. Subcontracting. The Contractor shall not assign this Contract or enter into a subcontract for any of the services performed under this Contract without obtaining the prior written approval of the State. This law requires the Commissioner of Finance and Administration to prohibit a contractor from contracting with, or submitting an offer, proposal, or bid to contract with the State of Tennessee to supply goods or services for a period of one year after a contractor is discovered to have knowingly used the services of illegal immigrants during the performance of this Contract.

- d. The Contractor will indemnify the State and hold it harmless for any violation by the Contractor or its subcontractors of the Privacy Rules. Proof of insurance must be provided to the State prior to contract execution. Insurance coverages required are:

"All Risk" escalating contents insurance at the warehouse with coverage equal to the value of the USDA commodities in warehouse at any one time.

“All Risk” transit insurance during transportation of the USDA commodities with coverage equal to the value of USDA commodities on delivery vehicles at any one time.

- E.7. Transfers. Costs resulting from a transfer of USDA commodity foods due to the cancellation or termination for cause of the Contract will be the responsibility of the Contractor. Costs resulting from the transfer of USDA commodity foods due the Contract’s termination for convenience by the State will be the responsibility of the State; however, the Contractor cannot assess a handling fee in excess of the lump-sum price.

Upon completion of the Contract, Contractor will transfer USDA commodity foods to the new successful bidder if Contractor is not the successful bidder for the next contract, at the new contractor’s expense. USDA commodity foods will be transferred at the lump-sum price specified in this Contract.

The new Contractor and the expired/terminated Contractor are mutually responsible for inspecting USDA commodity foods being transferred and for documenting damaged or out-of-condition product. The expired/terminated Contractor will be responsible for damaged or out-of-condition products.

In the case of an emergency/disaster, the State reserves the right to transfer USDA commodity foods by any carrier of the State’s choice and pay only the price quoted for lump-sum delivery.

- E.8. Federal Support. In the event that Federal funds or USDA commodity foods for the contract become unavailable, the State shall terminate the contract without penalty. Availability of funds will be determined by the State. The contractor shall be entitled to receive equitable compensation for satisfactorily authorized services completed as of the termination date.
- E.9. Monitoring and Review: State and Federal officials or any of their duly appointed representatives may inspect and inventory USDA commodity foods, may inspect and audit all records, and may review or audit the procedures and methods used in carrying out the requirements of this contract at any reasonable time and upon reasonable notice. On an annual basis, the State will conduct a physical review of USDA commodity food inventories and will reconcile physical and book inventories.
- E.10. Contract Termination. Any contract termination notice shall not relieve the contractor of the obligation to deliver and/or perform on all outstanding orders issued prior to the effective date of cancellation.

REGION LISTING WITH APPROXIMATE NUMBER OF CASES AND STOPS

REGION	Estimated Number of Cases	Estimated Number of Stops
5	101,523	243

The estimate for the annual number of cases is based on the actual number of non-processed cases ordered for School Year 2016-2017. These quantities are provided as estimates of future activity and are not implied or inferred as being guarantees. The State is obligated to order only the quantity needed by its recipient agencies during the term of the contract. The items and quantities will vary from year to year.

The estimated number of stops is based in part on Tennessee Department of Education's SDE directory which can be found online at <https://k-12.education.tn.gov/SDE/default.asp>. The estimated number of stops does not include the VOLCO school cooperative, whose members have procured their own service provider. (VOLCO membership is indicated on the following list of current Region 5 recipient agencies.) The number of stops also does not include Shelby County Schools, which has its own warehousing and receives all of its food shipments directly from USDA. The State reserves the right to add or delete recipient agencies within the Region 5 counties. The Contractor agrees to provide service at the contracted price to any new recipient agencies.

These items are currently available for recipient agencies to order. The list is not a guarantee that all items will be received. New items may also be added. In addition to the items listed, State approved processors convert USDA commodity foods into further processed end products. (For example, chicken nuggets are manufactured from bulk whole chickens.) Such processed end products are primarily frozen and shall be received, stored, and distributed under the same terms as all other USDA commodity foods.

ATTACHMENT D**USDA Food and Nutrition Service (FNS) Instruction 709-5 Rev 2
Shipment and Receipt of USDA Foods**

Contractors shall receive inbound freight in accordance with FNS Instruction 709-5 Rev 2. The full instruction can be found at <https://www.fns.usda.gov/fns-instruction-709-5-revision-2>

This attachment is intended to paraphrase and highlight key provisions of the instruction. [Throughout this instruction, the Contractor is the “consignee” and the company from whom USDA purchased the food is the “vendor.”]

ARRANGING FOR SHIPMENT AND DELIVERY

Delivery appointment. The vendor or carrier must arrange for a delivery appointment with the consignee at least 48 hours before the expected delivery. [Note: FNS 709-5 still states 24 hours, but USDA’s contracting documents with vendors now require at least 48 hours.] All parties are highly encouraged to address any non-federal shipment or delivery requirements in advance of the delivery (e.g., additional paperwork required by the warehouse).

If the vendor or carrier arrives without a delivery appointment or is late for an appointment, the consignee should accept the shipment, if able, or work with the vendor or carrier to schedule delivery at a later time. When a carrier does not make a delivery appointment in advance, it is recommended that the consignee report the issue to the State.

Vendor or carrier unable to deliver USDA Foods. If a vendor or carrier arrives at the delivery location at the appointed time and is unable to unload USDA Foods as a result of action or inaction by the consignee, the vendor or carrier may place the USDA Foods in storage or move them to another location which may subject the consignee to additional charges.

Pallet exchange. Pallet exchange (i.e., trading pallets of equal quantity and quality for those delivered with shipment) is not required but may occur at the discretion of the consignee and should be arranged in advance of delivery.

INSPECTING THE SHIPMENT

General requirements. The consignee must inspect each shipment and commercial delivery receipt (e.g., BOL) carefully prior to unloading to ensure that the high security seal(s) is intact, to determine the overall condition of the USDA Foods and the number of units in the shipment, and to ensure the accuracy of the receipt.

Seal. The consignee must ensure that the high security seal(s) on the door or other point of entry of the truck or trailer is intact and must make a record of the serial number of the seal. If the high security seal is broken or lacking, or the serial number on the seal does not match the number on supporting documentation (e.g., BOL), the consignee must refuse the shipment and immediately notify the State, which will notify USDA and ensure the required inspection has been completed.

Removal of seal and temperature check. The consignee is responsible for the removal of the high security seal(s), which must be done with bolt cutters or a similar tool. For frozen or refrigerated foods, at a minimum, the consignee must check the thermometer, which is usually located outside of the truck, to ensure that the temperature in the freezer or refrigeration unit is at an acceptable level, in accordance with USDA guidance, and must ensure that the unit is switched on and working.

Quantity of USDA Foods. The consignee must determine if there is any obvious discrepancy from the

ATTACHMENT D (Page 2 of 3)

quantity of USDA Foods ordered (e.g., an overage or shortage). A more careful count must be conducted as the shipment is unloaded and prior to the vendor or carrier departing.

Observing Condition of USDA Foods. The consignee must inspect the shipment to determine if the USDA Foods have been delivered in good condition and with no evidence of product tampering. The consignee should take note of any odors, infestation (e.g., dead insects or nesting materials), or damage to inner or outer containers. For frozen foods, the consignee should look for signs of defrosting or signs of thawing and re-freezing of the foods that could have occurred prior to the arrival of the shipment. For USDA Foods that are not intended to be frozen (e.g., canned products), it is recommended that the consignee also check to ensure that such foods do not arrive in such manner.

Fresh fruit or vegetable shipments, with the exception of fresh apples, must be inspected by a USDA representative prior to unloading in accordance with contract specifications. The vendor must arrange for the inspection at each delivery destination and pay any costs associated with inspection.

Out-of-condition USDA Foods and required notification. If consignee inspection indicates that all, or a major portion, of the USDA Foods in a shipment are out-of-condition, the consignee must immediately notify the State, which will provide guidance.

If there is a doubt as to the condition of the USDA Foods, or a disagreement with the vendor or carrier regarding their condition, the consignee must immediately notify the State, which will consult with USDA to determine a course of action.

ACCEPTING AND RECEIPTING FOR THE SHIPMENT

Delivery receipt. The consignee must ensure that the delivery receipt (e.g., BOL) indicates the quantity of USDA Foods received, including product that is rejected at the time of receipt for being out-of-condition and the quantity received in good condition, before signing and dating such receipt and returning it to the vendor or carrier. The carrier, and not the consignee, is responsible for providing the vendor with the signed delivery receipt.

UNLOADING THE SHIPMENT

Consignee responsibilities. The consignee is responsible for unloading the shipment of USDA Foods and for removing and disposing of dunnage and other debris. The consignee may request reimbursement for costs associated with restacking items that arrive unpalletized or pallets that arrive poorly stacked if appropriate documentation, including photographs, is provided via the State to USDA before the shipment is accepted. Fees levied on the vendor or carrier (e.g., gate fees or lumper fees) are not permissible. For shipments of frozen or refrigerated foods, the consignee must ensure that the freezer or refrigeration unit remains on during unloading.

Vendor or carrier responsibilities. The vendor or carrier is responsible for shipping product on pallets or equivalent (e.g., slip sheets) that are in acceptable condition, in accordance with applicable contract specifications. If pallet exchange is desired, the vendor or carrier must arrange for pallet exchange with the consignee prior to delivery. Fees levied on the consignee (e.g., lumper fees) are not permissible.

Free time. The consignee must complete the unloading of the shipment, and the removal of dunnage and other debris, within the period of free time. For palletized loads, free time is up to two (2) hours. For non-palletized loads, free time is up to six (6) hours. Failure to complete the unloading within the free time may incur a demurrage or detention charge, which the consignee may be obligated to pay.

Verifying quantity of USDA Foods, overages, and shortages. The consignee must confirm the quantity of USDA Foods received when unloading to determine if the quantity of foods delivered is the quantity

ATTACHMENT D (Page 3 of 3)

ordered or if there is an overage or shortage of the quantity ordered. Any overages or shortages must be noted on the signed delivery receipt [and in the emailed notice to the State].

For split shipments between two or more destinations, it is the responsibility of the consignee to unload the correct quantity at each delivery location in accordance with the Sales Orders.

Re-sealing for subsequent delivery. It is the responsibility of the vendor or carrier to re-seal/rebrace the truck for subsequent deliveries, such as in split shipments. In a split shipment, the consignee at the next delivery location must ensure that the high security seal(s) is intact and that the serial number on the seal matches the number on supporting documentation. Issues related to re-sealing, such as broken or lacking seals should be immediately referred to the State.

RECORDS

Required Records. The consignee must maintain documentation of:

- The serial number of high security seal(s).
- The temperature of a freezer or refrigerated truck or trailer upon arrival.
- The result of any inspections by State or local health authorities or USDA certification agent to determine the condition of USDA foods.
- The disposition of USDA foods received out-of-condition, including, as applicable, the destruction of such foods or a signed salvage receipt from the vendor or carrier.

Retention of records. All records must be retained for a period of three years from the close of the fiscal year to which they pertain.
