SUMMARY OF HOSPITALITY PORTFOLIO BUSINESS

OPPORTUNITY

The following summarizes the key elements of the business opportunity for the pro forma Contract. Should the facts and figures presented in the Summary differ from or contradict with the pro forma Contract in any way, the pro forma Contract will prevail. Currently, visitor services are provided at these locations by the Tennessee Department of Environment and Conservation (“TDEC”)

PROPOSED OBJECTIVE

The Tennessee Department of Environment and Conservation desires to engage a vendor for a public-private partnership for operation of certain hospitality facilities located in eleven state parks. TDEC’s objective includes engaging a partner that will utilize private sector best management practices in a manner that aligns with the Parks mission: “To preserve and protect, in perpetuity, unique examples of natural, cultural, and scenic areas and provide a variety of safe, quality, outdoor experiences through a well-planned and professionally managed system of state parks.”

The hospitality facilities located in the eleven parks covered by the RFQ include inns, restaurants, cabins, marinas, and golf courses. Specific details regarding the parks and hospitality facilities can be found in this Business Opportunity.

Parks has experienced limited funding for many years, contributing to deferred maintenance and operating challenges. Given those challenges, Parks priorities for the proposed public-private partnership include (1) delivery of high-quality visitor services, (2) sensitivity to the park environment in which the vendor will be operating, (3) daily management and maintenance of the assets, (4) investments in real and personal property, and (5) on-going asset stewardship, including establishing maintenance and personal property reserves. The following outlines the elements considered to be included in the Business Opportunity.

HOSPITALITY PORTFOLIO INVENTORY

Total Gross Revenue	\$24,301,077	\$25,098,585	\$25,940,033	\$24,479,642	\$24,478,392

¹Fiscal Years for TDEC span a period of July 1st to June 30th annually. The year corresponding with FY2010 implies that the period started July 1st, 2009 and ended June 30th, 2010.

PROPOSED HOSPITALITY PORTFOLIO OPERATING EXPENSES

Proposed Staffing and Benefits

TDEC has provided current staffing information within the online portal for each park. The Respondent may determine the most suitable staffing model for future operations. TDEC is interested in ensuring that future employees of the

Respondent are employed and compensated recognizing market based employment conditions. TDEC will request that the Respondent consider all existing employees as part of its hiring process.

Direct Operating Supplies

Currently, all linen for the hospitality portfolio including bedding, restaurant and banquet linen and uniforms are provided under contract. All other operating supplies are purchased by the state under their existing contracts. The Respondent shall henceforth be responsible for investment in Direct Operating Supplies. TDEC has determined that all direct operating supplies will be considered taxable.

Administrative and General

TDEC will request that appropriate oversight is provided to the hospitality portfolio. It recognizes that firms develop management strategies based upon the portfolio under management. TDEC has assumed that there will be at a minimum a general manager at each of the resort properties.

Marketing Expenses

TDEC has assumed that the Respondent will allocate industry standard marketing expenses associated with the portfolio of hospitality assets.

Repair and Maintenance Expenses

Repair and maintenance of assigned facilities will be the responsibility of the Respondent. Land Assignment maps are provided for each park within the online portal. TDEC has also provided a draft Operating and Maintenance Plan detailing the maintenance responsibilities of the Respondent.

Utility Expenses

TDEC has provided utility information within the online portal by park including what services are provided by the TDEC vs. commercial providers.

Insurance

TDEC has identified insurance coverage levels for each of the parks within the portfolio. Details on the levels and type of insurance required are provided in the pro forma Contract.

Management Fees

TDEC has assumed an industry appropriate base management fee associated with the portfolio of hospitality assets.

Property Taxes

The Respondent shall be subject to personal property tax on all property purchased.

LICENSES

The Respondent shall be required to have all applicable licenses for their operations and the requisite on and off premise beer and liquor licenses. Details on what parks have the right to sell beer and liquor and details on the process to obtain said licenses is provided in the online portal.

TAX INCENTIVES

The State of Tennessee has several tax Incentives that could be considered by the Respondent. Details on these programs are provided in the online portal.

ESTIMATED HOSPITALITY PORTFOLIO REAL PROPERTY

INVESTMENTS

TDEC has proposed a minimum of \$16 million and potentially up to \$52 million dollars in funding available for consideration for real property improvements to the proposed hospitably portfolio. All funding provided by TDEC shall be subject to legislative budget approval. Upon approval by the state legislature,

funding for real property improvements will be provided to the Respondent in the form of a Capital Grant awarded through the State Building Commission. The Respondent shall in their response identify their need for real property investments by TDEC and be mindful of the funding levels available. All real property investments made by the Respondent using TDEC resources on behalf of TDEC will remain the property of TDEC. All real property investments made by the Respondent utilizing their own resources shall also remain the property of TDEC at the end of the term without any compensation. This therefore assumes full amortization of any real property investments made. Investments in real property made by the Respondent as part of personal property shall be considered taxable.

Real property investment funding provided by TDEC will be negotiated based upon scope and scale of Respondent's proposed strategies.

A summary of Real Property Investments proposed for the hospitality portfolio are provided in Exhibit 78.

ESTIMATED HOSPITALITY PORTFOLIO PERSONAL PROPERTY INVESTMENTS

TDEC has estimated a total need of approximately \$21,300,000 dollars in personal property.

TDEC has proposed that all existing personal property be provided to the Respondent at no cost. Golf carts are currently leased by TDEC. The Respondent will be provided the use of these golf carts for the remaining term of the lease which is three years. After that point, TDEC has assumed that the Respondent will acquire golf carts.

All initial investments in new personal property are proposed to be made by the Respondent. Replacements of personal property over the course of the contract shall be funded by a Personal Property reserve. The personal property at the end of the term shall be provided to TDEC at no cost. Investments in personal property shall be considered taxable.

A summary of Personal Property Investments proposed for the hospitality portfolio are provided in Exhibit 79.

TERM OF CONTRACT

The pro forma Contract will be effective on August 1, 2016 and will include a four (4) month transition period. The Concessionaire will assume full operational duties for the Facilities on the transition date of December 1, 2016. The term of the contract will extend until November 30, 2036.

PROPOSED CONCESSION FEE

TDEC is open to the Respondent identifying an appropriate Concession Fee to be provided to TDEC. This should be stated as a percentage of annual gross revenue.

PROPOSED MINIMUM REPAIR AND MAINTENANCE RESERVE

TDEC is open to the Respondent identifying an appropriate Repair and Maintenance Reserve. TDEC proposes as a minimum of approximately five percent (5.0%) of annual gross revenue.

PROPOSED MINIMUM PERSONAL PROPERTY RESERVE

TDEC is open to the Respondent identifying an appropriate Personal Property Reserve. TDEC proposes as a minimum approximately four percent (4.0%) of annual gross revenue.

FALL CREEK FALLS

Fall Creek Falls Overview

Fall Creek Falls State Park is Tennessee's largest and most visited state park. The park encompasses more than 26,000 acres sprawled across the eastern top of the rugged Cumberland Plateau. Laced with cascades, gorges, waterfalls, streams and lush stands of virgin hardwood timber, the park beckons those who enjoy nature at her finest. Fall Creek Falls, at 256 feet, is one of the highest waterfalls in the eastern United States. Other waterfalls within the park include Piney Falls, Cane Creek Falls and Cane Creek Cascades.

The park is located in Bledsoe and Van Buren counties, 11 miles east of Spencer and 18 miles west of Pikeville. It may be entered from Highway 111 or Highway 30.

In 1937, the federal government began purchasing the badly eroded land around Fall Creek Falls. The following year, the Works Project Administration and the Civilian Conservation Corps (CCC) began restoring the forest and constructing park facilities. A few years later in 1944, the National Park Service transferred ownership of the park to the State of Tennessee.

Fall Creek Falls features an Inn with 145 hotel rooms, a restaurant and extensive meeting space. There are also 30 cabins and 222 campsites. Backcountry camping is also available with permit.

The park is home to a variety of activities suitable for visitors of all ages and abilities. Hikers can opt for short or long walks around the lake and to the base of Fall Creek Falls. There are two long distance overnight trails for adventure-seeking visitors while the day-use trails are designed to accommodate recreational and educational activities for all ages. More than 34 miles of trails can be explored.

The Nature Center at Fall Creek Falls offers hands-on environmental education through a variety of naturalist led programs. Additional programs include arts and crafts, movies, campfires, organized games and live musical entertainment. In addition to individual and family environmental education, the park offers extensive programming geared to school groups. Since 1996, the Environmental Education Center has been educating and facilitating

environmental education through the parks vast natural resources by offering a low cost, high quality overnight field trip for school groups.

The Fall Creek Falls Golf Course is another popular attraction. The beautiful and challenging 18-hole golf course is one of the best courses in Tennessee. The park pro shop provides golfing supplies, lessons, rental clubs and carts.

The park also has four playgrounds, an aerial adventure course managed by a separate concessionaire, horse stables with guided trail rides, five covered picnic pavilions and an Olympic-sized pool with a wading area which is open Memorial Day to Labor Day.

A map of the facilities found within Fall Creek Falls is shown below.

Exhibit 1: Map of Fall Creek Falls State Park

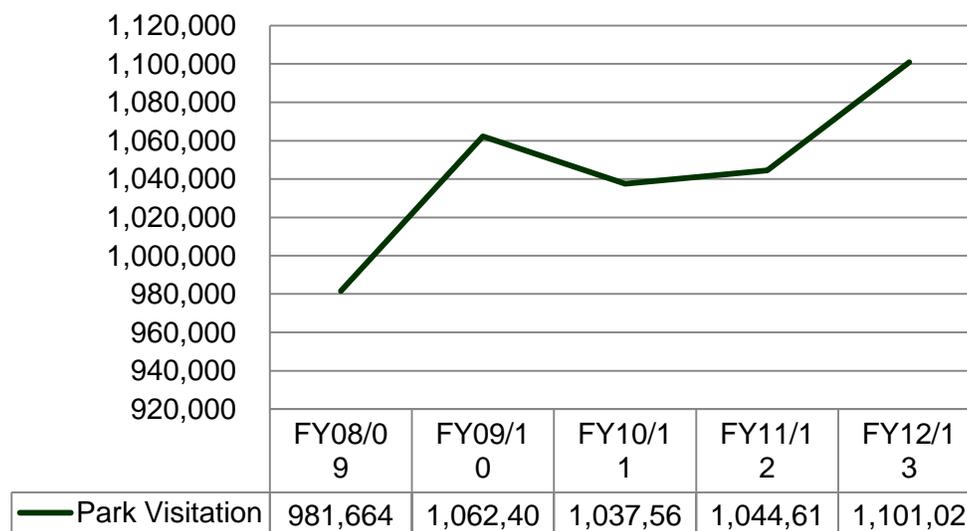

Source: TDEC

Visitation to Fall Creek Falls

The table below describes the visitation trends at Fall Creek Falls State Park over the period of FY08/09 to FY12/13. Fiscal Years for TDEC span a period of July 1st to June 30th annually. The year corresponding with FY08/09 implies that the period started July 1st, 2008 and ended June 30th, 2009. All visitation and financials displayed henceforth with correspond with stated Fiscal Years. Primary feeder markets for Fall Creek Falls State Park include populations within an hour to two hour driving radius including Chattanooga, Nashville, and Knoxville.

Exhibit 2: Fall Creek Falls Visitation

Source: TDEC

Hospitality Portfolio Business Opportunity at Fall Creek Falls

Fall Creek Falls offers a future Respondent the ability to operate the following facilities.

Exhibit 3: Assets at Fall Creek Falls

Asset	Build Year	Size/Capacity
Lodge/Restaurant	1970	145 Rooms
Landside Cabins	1972 - 2000	10 Cabins (1,300 SF/ea.)

Fisherman's Village Cabins	1971 - 1973	10 Cabins (1,100 SF/ea.)
Villa	1993	10 Villas (1,600 SF/ea.)
Golf Course	1970	18 Holes
Golf Pro Shop	1972	3,100 SF

Source: TDEC

The Fall Creek Falls Inn is situated on scenic Fall Creek Lake and has 145 guestrooms with lake views. All rooms have full baths, cable TV, hairdryers, irons and coffeemakers. The Inn also features an outdoor, heated swimming pool, fitness room and game room for guest use. The Inn offers over 5,000 square feet of meeting and banquet space in five conference rooms, which will accommodate up to 400 people. The Gaul's Gallery Restaurant seats 220 and serves southern style buffet cuisine daily. A full renovation of the lodge, restaurant, and conference space at Fall Creek Falls has been proposed by TDEC. As of the issuance of this RFQ, the status of this project is still in the planning phase.

The Park features 10 two-bedroom, one-bath cabins, 10 two-bedroom, one full and one half bath cabins; and 10 three-bedroom, two bath cabins, each furnished to sleep up to eight to 10 people. All cabins are fully equipped for housekeeping with linens, cooking and serving utensils, appliances, microwave, telephone and cable TV. The Fisherman and Landside Cabins have all been renovated in 2014.

Fall Creek Falls State Park is home to one of the most challenging 18-hole layouts carved out of the densely forested woodlands of the Cumberland Plateau. The course opened in 1972 and was designed by renowned designer Joe Lee. In 1998 the greens were rebuilt and restored to their original design and drainage work was performed in all 71 bunkers. The Fall Creek Falls Golf Course is a three-time selection by Golf Digest as one of the Top 100 Public Places to Play and honored as one of the top 25 public courses in America. The course is 6,669 yards long and is located next to a driving range and practice green.

Fall Creek Falls Hospitality Portfolio Competitive Market

Fall Creek Falls State Park is located within a competitive environment in relation to accommodating visitor demand. The Fall Creek Falls Inn competes with other state park resort lodges for group and transient demand. The local lodging market identified in the exhibit below has been identified as accommodating transient demand in the market. Details on the performance of the local competitive market may be found in the online portal provided by TDEC.

Food and beverage facilities within Fall Creek Falls include sit down buffet service as well as grab and go food at the quick service facility at the Village Green managed by a concessionaire near the park swimming pool. The competitive supply of restaurants is local restaurant establishments proximate to Fall Creek Falls State Park.

The competitive golf market for Fall Creek Falls includes other local public golf courses. Due to the property's remote location, the number of competitive public golf course options is limited.

¹ Decrease in occupancy for the Inn and Cabins as well as total number of rounds for golf in 2014 was due to the following projects: golf course irrigation system upgrades, landside cabin renovations, fisherman cabin renovations, and Fall Creek Falls Inn delays.

Source: TDEC

TDEC has provided information above related to the utilization of each asset base within the operation for Fall Creek Falls. It is important to note that additional information is provided via the online portal. Additionally, revenues reflected in the financials may not exactly match the information provided above due to the inclusion of additional line items.

Historical Hospitality Portfolio Revenue at Fall Creek Falls

Proposed Hospitality Portfolio Real Property Improvements for Fall Creek Falls

The information provided below outlines the proposed opportunities for capital improvements at Fall Creek Falls State Park.

TDEC requests that the future Respondent work to rebuild the Fall Creek Falls Inn, conference areas, and restaurant within the term of the contract. The proposed location is between the Village Green area and the boat dock. The benefit to relocating the Inn is increased foot traffic nearer to the Village Green, boat rental, golf course and other operations in an effort to boost revenue within those operations. The new Inn could be sized to fit the market with continued operation of the old inn during construction. The old inn demo would follow completion of the new Inn.

The Inn was originally proposed as a two phase renovation project. However, due to the increased cost and conditions of the facility, the original plan has been put on hold and TDEC desires to consider the option of redeveloping the Inn.

TDEC has estimated the capital requirements based upon a midscale hotel with 60 to 110 rooms including a three meal restaurant hosting approximately 100 seats. Additionally, TDEC has assumed 3,500 SF of meeting space, 250 SF of retail, and 750 SF for a fitness area and would like to consider an indoor pool. TDEC has utilized HVS' most recent Hotel Development Cost Survey to determine appropriate pricing for the facility, understanding the premium price required for building in a remote area.

Total estimated costs for renovations rebuilding to the facility are approximately \$13,200,000.

Investments in real property by the Respondent may be funded in part by TDEC dependent upon negotiation.

Proposed Hospitality Portfolio Personal Property Improvements at Fall Creek Falls

As TDEC is no longer entertaining a renovation of the present Fall Creek Falls facility, additional personal property investment must be assumed for the future new-build. Prior to the new lodge and restaurant opening, TDEC projects a personal property investment of \$2,250,000 to furnish and equip the new property according to private hospitality standards. TDEC determined this amount through an analysis of HVS and JN+A's most recent Hotel Cost Estimating Guide.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently renovated both the Landside Cabins as well as the Fisherman Cabins at Fall Creek Falls. Additionally, capital has been deployed to purchase a new RainBird irrigation system for the golf course as well as 71 new electric club cars. In addition to these, the golf course pro shop saw some renovations in 2014 including new bathrooms and the cart barn was expanded.

Recent TDEC Investments in Park Infrastructure

TDEC has undertaken Master Planning for redesign of the Village Green Area. Phase 1 of the Village Green is funded and is beginning construction. The scope is the lower area of the Village Green Area and includes ADA upgrades around the pool, new pedestrian bridge, new pool bathhouse, renovated snack bar, and

renovated restrooms. Additional phases are not funded. Additionally, TDEC has received approval for the upgrading of the sewage treatment plant serving the park, dam repairs and curing of deferred maintenance in the swimming pool in the Village Green.

Projected Hospitality Portfolio Utilization at Fall Creek Falls

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

The information provided in Exhibit 7 below outlines the projected utilization for the Fall Creek Falls Inn assuming renovation of the existing property, not a new property in a different location. The projected utilization for the golf and the cabins assumes a stabilized position of the existing product offerings. TDEC shall provide to the future operator the current Fall Creek Falls Restaurant and Lodge for operation until the completion of the new facility. All respondents must prepare their own financial projections for the new facility. Additionally, TDEC would like to inform potential respondents that the large increase in expected golf rounds between FY2014 and FY2019 is largely due to the closure of the course in 2014 for renovations.

PARIS LANDING

Paris Landing Overview

Founded in 1945, Paris Landing State Park was named after an old steamboat and freight landing on the Tennessee River. In the 1800s, the river landing was an important spot for the delivery of goods to serve the settlements of the region and shipping point for produce and other agricultural products. The site has long afforded good access along the Tennessee River.

Paris Landing State Park is an 841 acre park located on the western shore of the Tennessee River, which is dammed to form Kentucky Lake (160,000 acres). The park sits on the widest part of the lake making it the perfect location for all water sports such as fishing, boating, swimming and waterskiing. On land, there are plenty of activities including golfing, hiking, camping or just relaxing and enjoying the natural beauty and wildlife. Be on the lookout for deer, turkey, fox and coyote that roam the park. Eagles are often seen in the winter months.

Fishing at its finest is found on beautiful Kentucky Lake and the park is equipped with one fishing pier. There are more than 100 species of fish scattered over broad expanses of fresh water and can be found in hundreds of secluded coves.

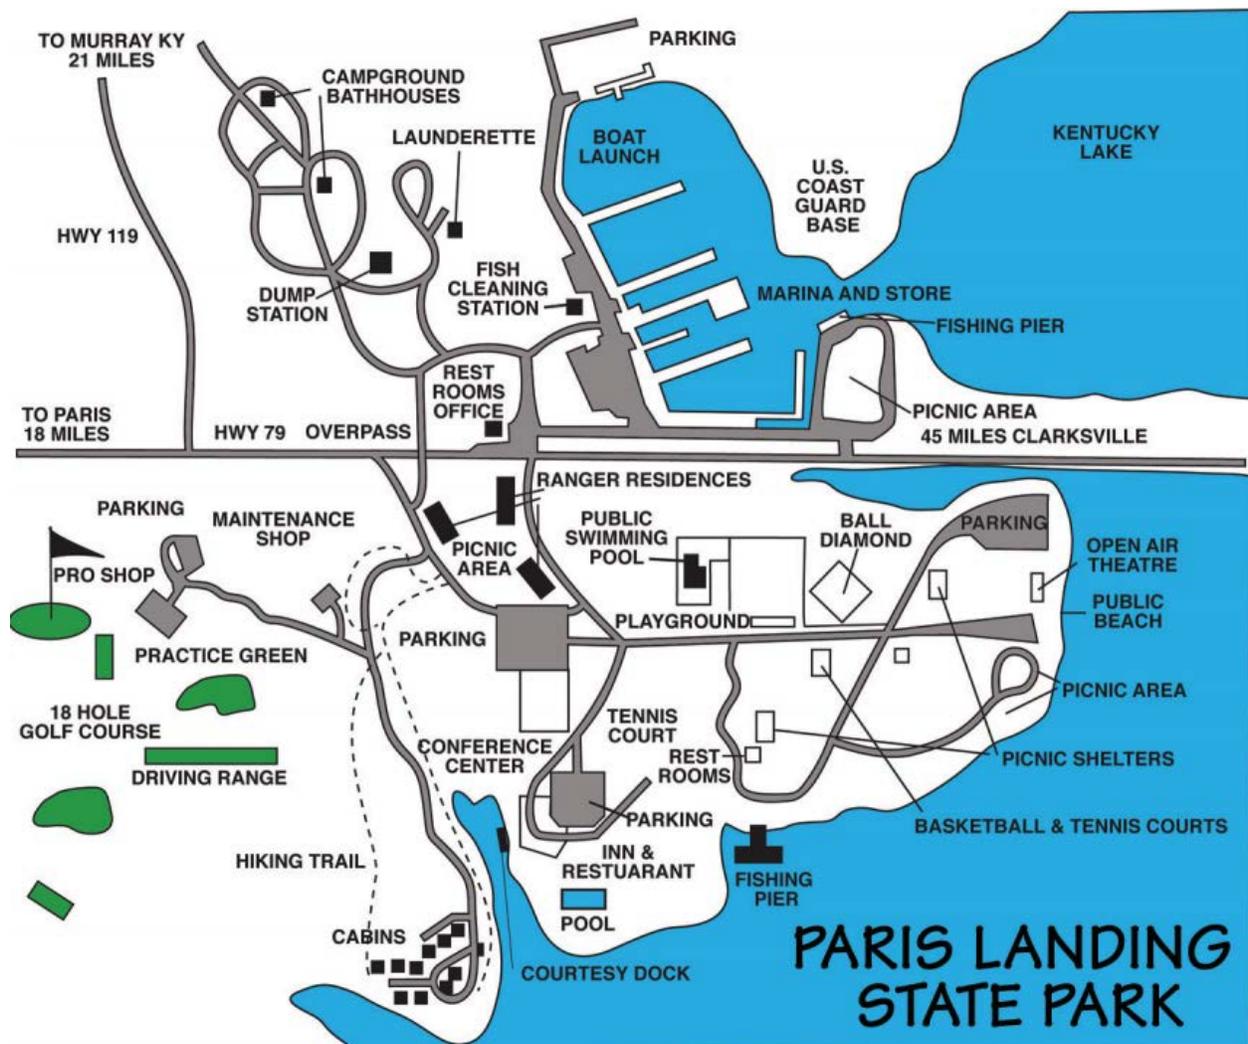

The park also offers a beautiful and challenging Par 72, 18-hole golf course. The park pro shop provides golfing supplies, lessons, rental clubs and carts.

Located at mile marker 66.1, along the west bank of the beautiful Tennessee River, Paris Landing State Park Marina has been an oasis for boaters for more than 50 years. In addition to hosting a spectacular view of Kentucky Lake, Paris Landing Marina provides for 295 wet slips and transient docking. Tie-up slips, un-covered and covered slips are available at monthly or yearly rates. Certain slips come equipped with water, cable & various electrical services depending on the size. We have a shower available as well as Wi-Fi for transients. The marina sells non - ethanol gas, diesel fuel, has a pump-out service, and offers free transportation to the park Inn, restaurant, lounge and golf course. It also has fishing bait, licenses, ice beer and general supplies. A three lane boat ramp is available for no fee.

Paris Landing State Park has a public swimming area and beach on Kentucky Lake with picnic area and restrooms nearby. The park also has an Olympic-size public swimming pool with a children’s pool. The public pool is open from Memorial Day until the first week of August. The pool complex features a white-sand beach volleyball court, two diving boards and a snack bar.

A map of the facilities found within Paris Landing is shown below.

The Paris Landing Inn is situated on scenic Kentucky Lake and has 130 guestrooms with balconies that provide a commanding view of Kentucky Lake. All rooms have full baths, cable TV, and coffeemakers. One and two-bedroom suites are available with microwaves, mini-fridges and sitting areas. The Inn also features an outdoor swimming pool, fitness room and gift shop for guest use. The Inn offers 500 square feet of meeting and banquet space in five conference rooms. In addition to this, the conference center located walking distance from the Inn offers more than 18,000 square feet of meeting and banquet space in three conference rooms, which accommodate up to 1,000 people. The Riverboat Restaurant seats 250 and serves southern style buffet cuisine daily.

The Park features 10 three-bedroom, two-bath cabins, each furnished to sleep up to 10 people. All cabins are fully equipped for housekeeping with linens, cooking and serving utensils, appliances, microwave, telephone and cable TV.

Paris Landing golf course is situated on the western shore of Kentucky Lake. The entire course is tree-lined creating a feeling that you are the only one on the course, very rarely seeing another foursome. Several holes skirt the Kentucky Lake, producing a natural balance of rolling land, trees, and water. Through the years Paris Landing has hosted numerous collegiate and high school championships. The course opened in 1971. In 1994, hole number 12 was redesigned, lengthening the hole by approximately 75 to 100 yards and relocating the green to include the vistas of the lake, while greens on holes seven and 13 were rebuilt in 1996-1997. The park pro shop provides golfing supplies, lessons, rental clubs and carts. The pro shop snack bar is open (March - October) for breakfast and lunch.

Located on mile marker 66.1 on Kentucky Lake is the Paris Landing full-service marina, with gas, diesel fuel and a self-serve pump out station. The marina has 295 annual and transient slips and a three lane public boat launch ramp. The ramp will accommodate wave runners and boats up to 72 feet. A day-use courtesy dock is available at the Inn for guests. Shuttle service is available from the marina to the Inn and cabins for overnight guests. The marina store sells fishing licenses, bait, ice and other boating needs.

Proposed Hospitality Portfolio Real Property Improvements for Paris Landing

The information provided below outlines the proposed opportunities for capital improvements at Paris Landing State Park.

TDEC requests that the respondents propose capital improvement possibilities for Paris Landing State Park. As the lodging and food and beverage facilities are in need of significant rehabilitation TDEC will allow the respondents the flexibility to determine the future of this operation. Potential improvements may include, but are not limited to, rehabilitation of the present facilities or demolition and re-building of the lodging and food and beverage facilities. Detailed condition assessments of the property are found within TDEC's online portal.

Additionally, TDEC is not opposed to entertaining changes of concept at the food and beverage location to better suit customer demands. The respondent must include expected real-property investments required for any modification to food and beverage service in their bid.

At the marina, TDEC is interested in a respondent's potential to invest in a dock covering for an exposed marina finger. Projected costs in 2014 dollars were approximately \$210,000.

Proposed Hospitality Portfolio Personal Property Improvements for Paris Landing

In addition to the real property improvements, TDEC is interested in complete replacement of the personal property within the lodging and cabins. Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. Any projected modifications to the food and beverage service must include appropriate food and beverage personal property investments. Additionally, at the golf course there are needs for replacement of golf course maintenance equipment and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently purchased 70 gasoline-powered golf carts in August of 2014 for use by the future Respondent. An irrigation system for the golf course was installed in 2006. In FY2015 TDEC is planning to replace the sewer system at the golf pro shop. TDEC is currently looking for funding to purchase Champion Bermuda grass for the golf course, with no guarantee that it will be funded by the start of the future Respondent's contract.

Additional improvements include renovating the bathrooms of cabins one and eight as well as replacing damaged wood and paint across the cabin portfolio.

Recent TDEC Investments in Park Infrastructure

TDEC is currently upgrading the sewer system in the park. This sewer system services the entire park. All sewer work has been completed except for the golf course. The golf course is in the progress of being added. Additional proposed improvements in the park include: Golf course greens replacement and Inn parking lot paving has been requested but remains unfunded.

Projected Hospitality Portfolio Utilization at Paris Landing

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

The information provided below outlines the projected utilization at Paris Landing State Park during the future concessions contract. Important to note is that all utilization information provided below is for FY2019, assuming that occupancy has stabilized.

PICKWICK LANDING

Pickwick Landing Overview

Pickwick Landing State Park was a riverboat stop dating from the 1840s. In the 1930s during the depression, the site was chosen as a location for one of the Tennessee Valley Authority's dams on the Tennessee River. What comprises the park today was once the living area for the TVA construction crews and their families. The TVA Village, better known as Pickwick Village was located where the Post Office, Park office and day use area are now located. The State of Tennessee purchased all 681 acres of Pickwick from TVA in 1969 designating the area as a state park in 1970. Since that time additional land has been brought to enlarge the park.

The park offers many activities for guests. Pickwick Lake is famous for smallmouth bass and Tennessee River Catfish. Fish that are known to bite year round are crappie, bluegill, white bass, stripes and sauger. Some of the biggest fishing tournaments are located here.

Pickwick Landing State Park offers a beautiful and challenging golf course surrounded by trees and water is found on eight holes. The course opened in May 1973 and is a favorite of the locals as well as destination golfers. Pickwick Landing also offers three public swimming beaches. Circle Beach and Sandy Beach are located in the park's day-use area and the third is located across the lake at Bruton Branch primitive area. Altogether, there are about two miles of public swimming beach at Pickwick.

Pickwick State Park's Inn offers an indoor pool and an outdoor pool exclusively for the cabin and Inn guests. The park Inn has 119 rooms each with a picturesque view of the lake. The Inn has a gift shop, restaurant, laundry facilities, meeting rooms, exercise rooms, outdoor and indoor pools and tennis courts. Located near the Inn are cabins featured with central heat and air, cable TV, full kitchen, a patio and fireplace. Guests in the cabins enjoy all Inn privileges including use of the tennis courts and swimming pool. Each cabin accommodates eight people and may be booked up to a year in advance.

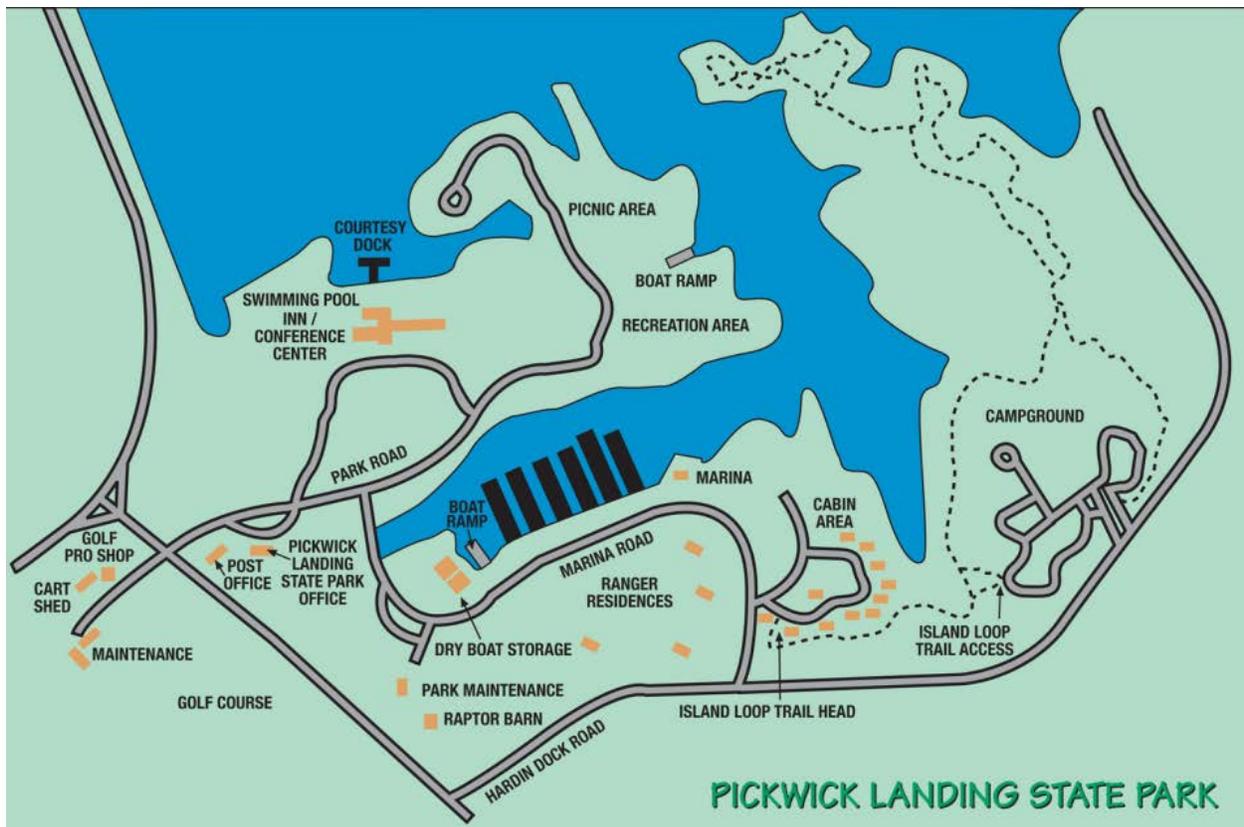

Pickwick Landing State Park Marina is located at mile marker 208, along the south bank of the Tennessee River near Pickwick Dam. For more than 40 years

the marina has served the recreational and tournament fishing needs of the community. The marina has 280 wet slips and transient docking. There are 100 dry storage slips available. Covered and un-covered slips, sail boat slips and dry storage are available at monthly or yearly rates. Certain slips come equipped with water, cable & electrical services depending on the size. Showers, restrooms, laundry as well as Wi-Fi are also available. The full-service marina sells ethanol-free gas and diesel fuel, ice, beer, general supplies, has a 24-hour self-serve pump-out service, and offers free transportation to the park Inn, restaurant, campground and golf course. Boat rentals are also available. A three lane boat ramp is available for no fee.

The park also offers 48 beautiful wooded campsites, each equipped with a table, a grill and electrical and water hook-up. Two of the sites are handicap accessible. A primitive campground and picnic area is located on the north side of Pickwick Lake and has 43 sites with some located on the lake.

A map of the facilities found within Pickwick Landing is shown below.

The Pickwick Landing Inn is situated on beautiful Pickwick Lake and has 124 guestrooms with picturesque lake views. The Inn has a gift shop, restaurant, meeting rooms, exercise rooms and an indoor and outdoor pool. The Inn offers 6,000 square feet of meeting and banquet space in five conference rooms. The restaurant, overlooking Pickwick Lake, specializes in southern cuisine at popular prices.

The Park features 17 two-bedroom, one-bath cabins. Each cabin is fully furnished with four queen beds per cabin, a kitchen, and a living room. Each features central heating and cooling, cable TV, grills, picnic tables and fireplaces. The cabin inventory currently includes 10 cabins and 7 additional cabins that are under construction.

The Pickwick Landing State Park Golf Course is located close to the border of Mississippi and Alabama within the proximity of Pickwick Dam. The course was opened in May, 1973 and is a favorite of the locals as well as destination golfers. Every hole is tree-lined. Out of bounds guards 11 holes and there are a total of 21 bunkers found throughout the course. Pickwick Landing Golf Course is host to St. Jude’s Charity Golf Tournament and hosts several district and regional high school events during the year.

The marina is fully equipped to handle crafts of all sizes and offers wet storage, dry storage, sailboat and transient slips. Rental boats and fuels are available at the marina’s full-service dock and the marina store/office sells other supplies. The marina is open year round with two public launch ramps.

Proposed Hospitality Portfolio Real Property Improvements for Pickwick Landing

The information provided below outlines the proposed opportunities for capital improvements at Pickwick Landing State Park.

Pickwick Landing Inn is the newest lodging facility within the TDEC portfolio and as such, needs much lower real property improvements when compared to the assets within the portfolio. However, a respondent must be amenable to rehabilitate the facility through the curing of deferred maintenance of the facility. A detailed account of deferred maintenance items at Pickwick Landing may be found within TDEC's online portal.

Additionally, TDEC is not opposed to entertaining changes of concept at the food and beverage location to better suit customer demands. The respondent must include expected real-property investments required for any modification to food and beverage service in their bid.

Proposed Hospitality Portfolio Personal Property Improvements at Pickwick Landing

In addition to the curing of deferred maintenance, TDEC is interested in appropriate replacement of the personal property within the lodging and cabin rooms. Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. Any projected modifications to the food and beverage service must include appropriate food and beverage personal property investments. Additionally, at the golf course there are needs for replacement of golf course maintenance equipment and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

Portions of the marina and dry storage have been updated over the last three years (A, B, C, D, and sailboat dock) Dry Storage Building A was renovated in 2010. The remaining slips (E and F Dock) have not been updated in 15 years. TDEC has recently purchased 70 gasoline-powered golf carts in 2014. Additionally, TDEC invested in new course irrigation, new pumps at the lake, and new cart paths in 2014 and added two new on course restrooms. Champion Bermuda greens were installed in 2010 to update the golf course. At the Inn, TDEC is planning to repair the HVAC units and the sewage pump while also replacing the HVAC units at the cabins during FY2015.

Recent TDEC Investments in the Park Infrastructure

TDEC has funding to upgradethe bathhouses in the campground. Seven new cabins are under construction with a Winter 2015/216 completion date

Projected Hospitality Portfolio Utilization at Pickwick Landing

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of

projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. MONTGOMERY BELL

Montgomery Bell Overview

Montgomery Bell State Park is located seven miles east of Dickson in Dickson County. The park was once the center of iron industry in Middle Tennessee. The park's namesake, Montgomery Bell, formed one of the largest iron industries in Tennessee. Iron was once thought to be more valuable than gold and was a very lucrative industry at the time.

The site of the first Cumberland Presbyterian Church is also located at Montgomery Bell State Park. The church was founded in 1810 in the log cabin home of Reverend Samuel McAdow. A replica of the cabin and a church are located within the park.

Montgomery Bell State Park is equipped with a conference center that can host up to 500 people. The onsite restaurant is open every day and available to cater events. Within the center, the Inn offers 120 rooms and five suites. The park also has eight environmentally-friendly modern cabins available for rent.

Montgomery Bell has an 18-hole golf course which was built in 1973 and then redesigned by designer Gary Roger Baird in 1988. The entire course is heavily wooded and features an abundance of wildlife such as deer, geese and wild turkey.

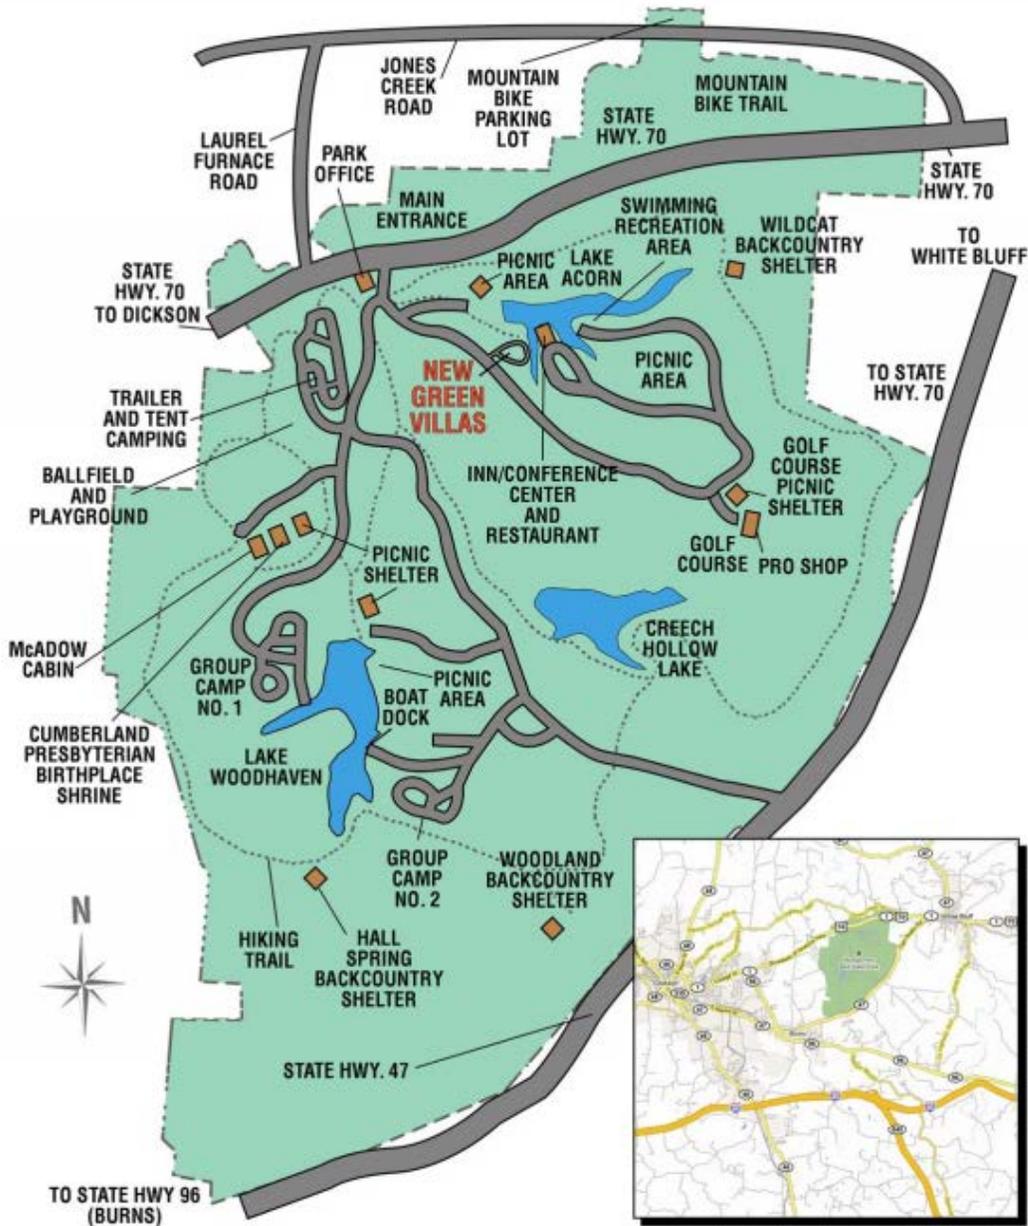

The park provides 116 campsites. Some sites offer water, electric and sewer, other sites offer water and electric or no utilities. All sites have picnic tables and fire-pit grills. Three bathhouses are available with hot water and other restroom facilities. Open from spring through fall, the group camp has 34 individual rustic cabins that sleep up to 120 people and a large dining hall with a full service kitchen.

A map of the facilities found within Montgomery Bell is shown below.

The Montgomery Bell Inn is situated on beautiful Lake Acorn and has 120 guestrooms and five suites with picturesque lake views. The Inn has a gift shop, restaurant, meeting rooms, exercise rooms, an indoor pool and a seasonal outdoor pool. The Inn offers 6,000 square feet of meeting and banquet space. The restaurant, overlooking Lake Acorn, seats 180, with a back dining room able to seat 60. Three southern-style buffets are featured seven days a week

The Park features eight two-bedroom, two-bath cabins. One bedroom has two queen beds, the master bedroom has a king-size bed and the great room has a queen sleeper sofa. Each cabin is completely furnished and offers a large covered patio with an outdoor fireplace and gas grill. These unique modern accommodations are the first in a series of more environmentally responsible homes built in the Tennessee State Park System. The cabins are rented with a two-night minimum from Labor Day until Memorial Day and a six-night minimum from Memorial Day until Labor Day.

The beautiful 18-hole Frank G. Clement par 72 golf course has been nationally recognized as a Best Place to Play by *Golf Digest* and is repeatedly selected Best Area Golf Course in *Readers' Choice Award* voting. Greens featuring Champion Bermuda grass were installed in 2009. Each Spring Montgomery Bell is host to The Dogwood Classic.

Montgomery Bell Hospitality Portfolio Competitive Market

Proposed Hospitality Portfolio Real Property Improvements at Montgomery Bell

The information provided below outlines the proposed opportunities for capital improvements at Montgomery Bell State Park.

TDEC requests that the respondents propose capital improvement possibilities for Montgomery Bell State Park. As the lodging and food and beverage facilities are in need of significant rehabilitation TDEC will allow the respondents the flexibility to determine the future of this operation. Potential improvements may include, but are not limited to, rehabilitation of the present facilities. A detailed condition assessment of the property is found within TDEC's online portal.

Additionally, TDEC is not opposed to entertaining changes of concept at the food and beverage location to better suit customer demands. The respondent must include expected real-property investments required for any modification to food and beverage service in their bid.

Capital funding provided by TDEC will be negotiated based upon scope and scale of Respondent's planned rehabilitation.

Proposed Hospitality Portfolio Personal Property Improvements at Montgomery Bell

In addition to the curing of deferred maintenance, TDEC is interested in appropriate replacement of the personal property within the lodging and cabin rooms. Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. Any projected modifications to the food and beverage service must include appropriate food and beverage personal property investments. Additionally, at the golf course there are needs for replacement of golf course maintenance equipment and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently invested in 75 electric golf carts in 2014 while also investing in both a new club house and a new cart storage area in 2010. Greens were replaced by TDEC in 2009 with Champion Bermuda grass. Additionally, TDEC has received approval for the bunker renovation in its recent capital budget.

Recent TDEC Investments in Park Infrastructure

TDEC is currently working on repairing Lake Woodhaven Dam that was damaged in the 2010 floods.

Projected Hospitality Portfolio Utilization at Montgomery Bell

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

The information provided below outlines the projected utilization at Montgomery Bell State Park during the future concessions contract. Important to note is that all utilization information provided below is for FY2019, assuming that occupancy has stabilized.

HARRISON BAY

Harrison Bay Overview

Harrison Bay State Park is a 1,200 acre park with approximately 40 miles of Chickamauga Lake shoreline, and was originally developed as a Tennessee Valley Authority (TVA) recreation area in the 1930s. Its name is derived from a large bay at the main channel of the Tennessee River that covers the old town of Harrison, and the last Cherokee Campground. The parklands are historically significant because the Cherokee Campground consisted of three villages which were ruled by one of the last great Cherokee Chieftains. Harrison Bay became the first Tennessee State Park in 1937.

This beautiful wooded park is a haven for campers, boaters and fishermen, as well as picnickers and other day-use visitors from Chattanooga and the surrounding tristate area. It has one of the most complete marina facilities available on any of the TVA lakes.

All types of boats and water recreation vehicles are allowed at the park. A boat ramp is available to the general public and there is no fee. The marina can accommodate 20 ft. – 60 ft. boats. The park also has a marina that features 161 covered slips, 28 uncovered slips and four sailboat slips. There is no transit or overnight slip rental available. Fuel is available at the dock.

Camping is also a popular activity at Harrison Bay State Park. There are 128 RV campsites with water and electrical hookups and a limited number can accommodate RV's up to 65 ft. There are also 21 primitive tent only campsites.

The 18 hole Bear Trace Golf Course at Harrison Bay, a Jack Nicklaus designed course, is characterized by the presence of both water and heavily-wooded land with soaring pine and hardwood trees. This popular course is often noted as “the best natural piece of land for a golf course” and a reflection of the traditional Jack Nicklaus emphasis on overall integrity and playability for golfers of all ability. The Bear Trace at Harrison Bay is also one of the most highly recognized environmentally sensitive courses in the nation. It is certified by Audubon International for its conservation and habitat practices and also registered as the first Groundwater Guardian Green Site in Tennessee.

Harrison Bay State Park offers a 4.5 mile loop bike trail. The trail features nice uphill climbs with some fast downhill opportunities as well. The trail is fun and rated for all abilities.

The park has three large pavilions that can accommodate large groups. Pavilions may be reserved up to one year in advance.

A map of the facilities found within Harrison Bay is shown below.

Exhibit 29: Map of Harrison Bay State Park

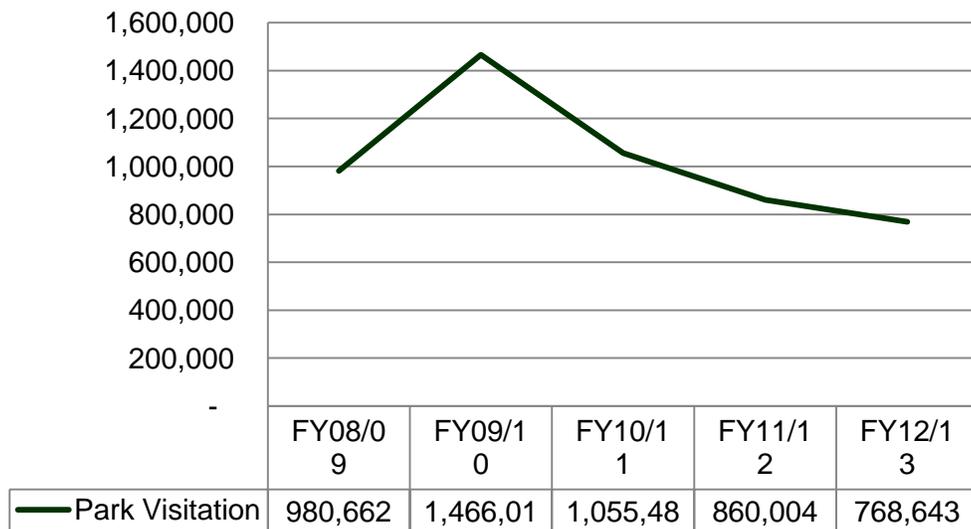

Source: TDEC

Visitation to Harrison Bay

The table below describes the visitation trends at Harrison Bay State Park over the period of FY08/09 to FY12/13. Fiscal Years for TDEC span a period of July 1st to June 30th annually. The year corresponding with FY08/09 implies that the period started July 1st, 2008 and ended June 30th, 2009. All visitation and financials displayed henceforth with correspond with stated Fiscal Years. Primary feeder markets for Harrison Bay State Park include Chattanooga and other local townships.

Exhibit 30: Harrison Bay Visitation

Hospitality Portfolio Business Opportunity at Harrison Bay

Harrison Bay offers a future Respondent the ability to operate the following facilities.

Exhibit 31: Assets at Harrison Bay

Asset	Build Year	Size/Capacity
Golf Course	1999	18 Holes
Golf Pro Shop	1999	5,600 sf
Marina	1951	199 Boat Slips

Source: TDEC

The Bear Trace golf course is designed by Jack Nicklaus and is surrounded by both water and heavily-wooded land, making an ideal setting for the course. Referred to as "the best natural piece of land for a golf course," the Bear Trace at Harrison Bay features Bermuda fairways lined with soaring pine and hardwood trees. Although water touches 12 fairways, there is more than sufficient room to hit safely. Most greens are open in front, which makes the course more user-friendly for high-handicap players and allows run-up shots. Fairway and green side bunkers are designed in the traditional Nicklaus fashion and add notable character to the overall integrity of the course. Like other courses in the collection, the emphasis on playability is clearly evident. The Bear Trace at Harrison Bay stretches from 7,140 yards (gold tees) to just under 5,300 yards (red tees).

A marina with 199 boat slips is available to accommodate boats from 20 to 60 feet based on a yearly lease. Fuel, snacks, ice, and a pump-out station are available to boaters, as well as an ample launch ramp. Currently, a dockside restaurant is under renovation proximate to the marina that will be operated by a third party.

Harrison Bay Hospitality Portfolio Competitive Market

Proposed Hospitality Portfolio Real Property Improvements at Harrison Bay

The information provided below outlines the proposed opportunities for capital improvements at Harrison Bay State Park.

TDEC is currently in the process of upgrading the marina. Docks A, B, and C will be replaced. Docks D and E will receive a new roof and electrical upgrades. Docks F and G will receive electrical upgrades. The new boat ramp has been completed. The office and restaurant will be renovated. The restaurant is currently a leased operation and is not included in this RFQ. The marina guests will have access to updated showers and restrooms being completed proximate to the docks. TDEC requests the Respondent investigate the potential investment of a new fuel dock on the marina as it is not being provided as part of the marina update. Estimates of this cost in 2014 dollars were assumed at \$200,000.

Proposed Hospitality Portfolio Personal Property Improvements at Harrison Bay

In addition to the limited real property improvements, TDEC is interested in appropriate replacement of the personal property within the golf course. Specifically, golf course maintenance equipment (e.g. large fairway and rough mowers) and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

In addition to the aforementioned marina upgrades, recent investments at the golf course include all new electric equipment for the golf course with the exception of large fairway and rough mowers. Recently the state invested in new greens mowers, new tees, new sand pro's, new carry-alls, and 75 electric golf carts.

Recent TDEC Investments in Park Infrastructure

TDEC currently has a campground and bathhouse renovation under construction. The 2015/16 budget includes funding for the renovation of the bath houses as well as curing of deferred maintenance in the swimming pool complex.

Projected Hospitality Portfolio Utilization at Harrison Bay

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

Upon interviewing park staff responsible for the marina it was determined that the marina would likely be able to sell 60,000 gallons of fuel annually at a 50 cent margin per gallon while also renting docks at approximately \$6.50 to \$7.00 per foot.

The information provided below outlines the projected utilization at Harrison Bay State Park during the future concessions contract. Important to note is that all utilization information provided below is for FY2019, assuming that rounds of golf and marina occupancy has stabilized.

HENRY HORTON

Henry Horton Overview

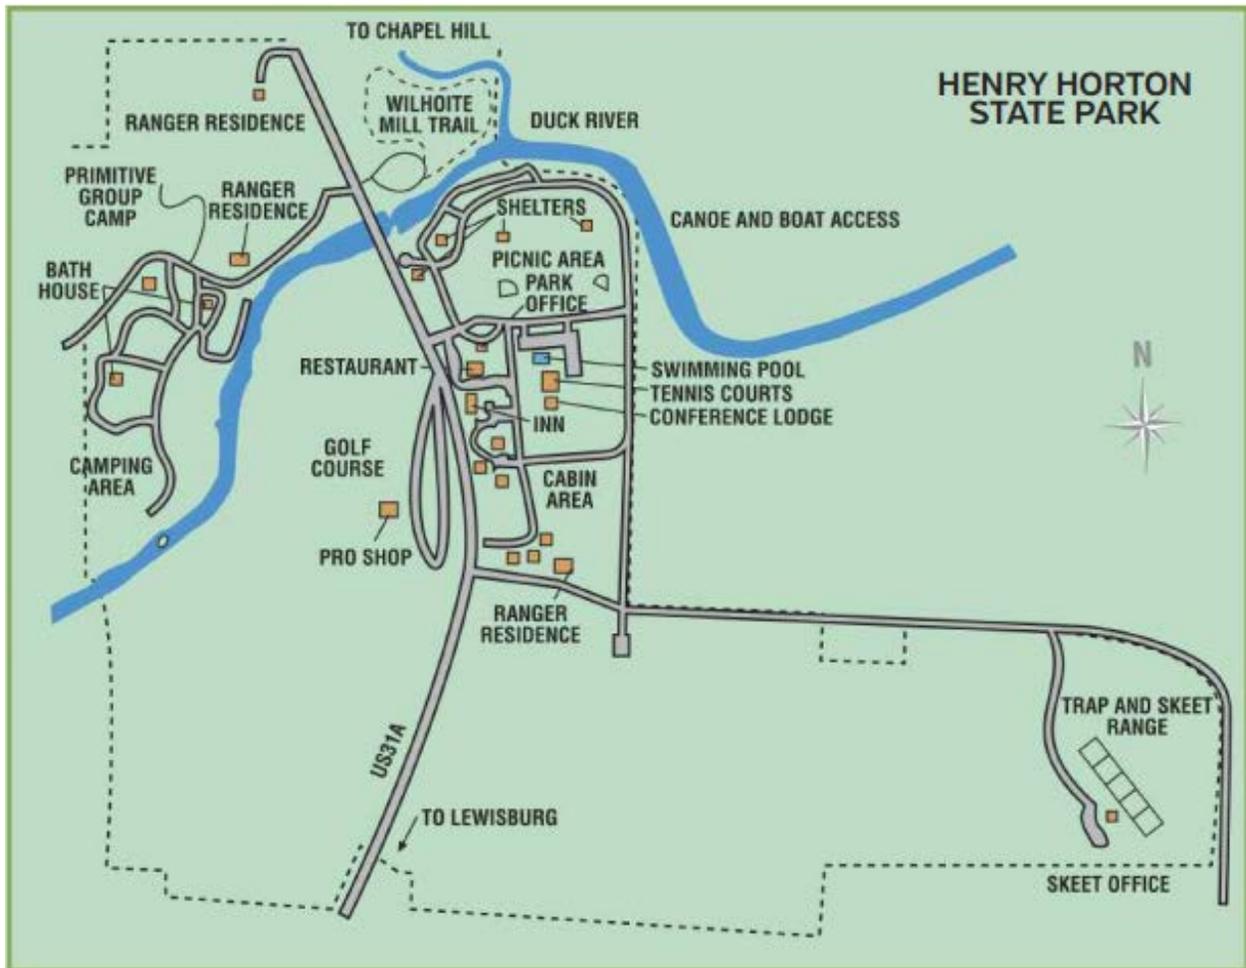

Henry Horton State Park was constructed in the 1960s on the estate of the former governor of Tennessee, Henry Horton. The park is located on the shores of the historic Duck River, one of the most diverse ecosystems in the world. Remnants of a mill and bridge operated and used by the family of Horton's spouse for over a century may be seen today on the Wilhoite Mill Trail.

The park offers several lodging options, including an Inn, eight cabins, 56 RV campsites, 10 tent campsites, nine primitive campsites and three backcountry campsites. There are also three group campsites available. The Inn features The Governor's Table Restaurant, open seven days a week.

The 18-hole Buford Ellington championship golf course at Henry Horton State Park is one of the finest courses in the state of Tennessee. This challenging course is heavily treed with hardwoods and contains 37 bunkers.

A map of the facilities found within Henry Horton is shown below.

Exhibit 36: Map of Henry Horton State Park

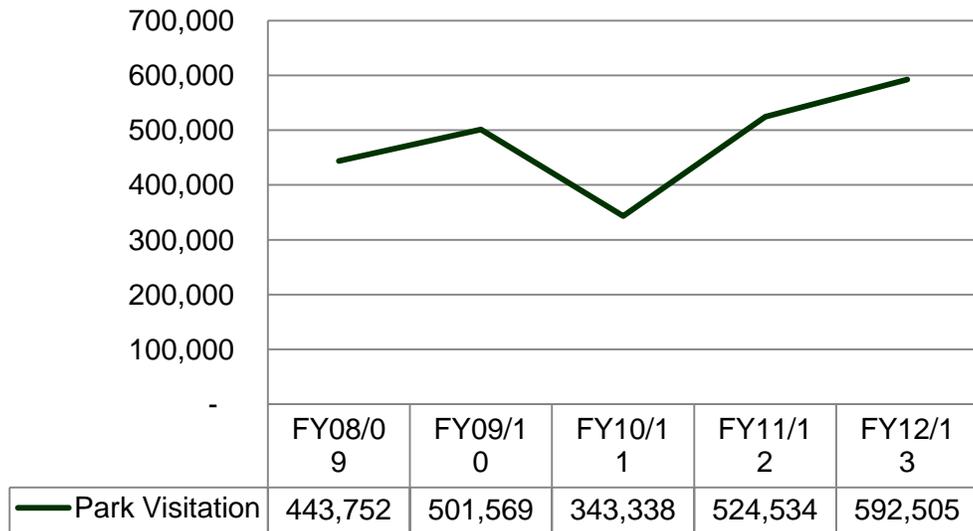

Source: TDEC

Visitation to Henry Horton

The table below describes the visitation trends at Henry Horton State Park over the period of FY08/09 to FY12/13. Fiscal Years for TDEC span a period of July 1st to June 30th annually. The year corresponding with FY08/09 implies that the period started July 1st, 2008 and ended June 30th, 2009. All visitation and financials displayed henceforth with correspond with stated Fiscal Years. Primary feeder markets for Henry Horton State Park include populations within an hour and a half drive radius.

Exhibit 37: Henry Horton Visitation

Hospitality Portfolio Business Opportunity at Henry Horton

Henry Horton offers a future Respondent the ability to operate the following facilities.

Exhibit 38: Assets at Henry Horton

Asset	Build Year	Size/Capacity
Lodge	1965–1970	73 Rooms
Cabins	1970–1998	8 Cabins (900 - 1,100 SF/ea.)
Restaurant	1970	225 Seats
Golf Course	1965	18 Holes
Golf Pro Shop	1965	6,100 SF

Source: TDEC

The Inn has 73 Inn rooms which includes four suites. Rooms are air conditioned, carpeted, and equipped with TV and phone. The suites have a small refrigerator, microwave, toaster and coffee maker. The Inn has handicapped accessible rooms and pet-friendly rooms. There are four meeting rooms in the Inn with 2,000 square feet of space to accommodate from 15 to

90 people. The Conference Lodge, with 3,150 square feet of meeting space is located in a separate building near the Inn and is used for large meetings up to 300 people. The Henry Horton Inn is the most dated facility within TDEC's portfolio and is need of considerable upgrades. As discussed below, the Respondent will be afforded the option to determine the future of the facility.

Cabins are open year-round and are located within walking distance of the hotel. The five rustic cabins have two bedrooms with queen beds, one bath, full kitchen, living rooms, wood burning fireplaces (wood provided), air conditioning, TV, phones and charcoal grills outside. The three deluxe cabins have two bedrooms and bathrooms, gas fireplaces, central heat and air and the amenities of the rustic cabins. There is one pet-friendly cabin. One of the deluxe cabins is handicapped-accessible.

The Governor's Table Restaurant is a family casual restaurant capable of seating 225 people and includes two private dining areas. Like the other restaurants within the state park system it serves a southern cuisine buffet along with special catered meals and banquets. Currently an issue was discovered with the roofing of the restaurant that the Respondent would have to address as mentioned below.

The Henry Horton Golf Course at Henry Horton State Park features five sets of tees to accommodate golfers of every skill level from beginner to a single digit handicapper or professional. The course measures as long as 7,060 yards from the Championship Black Tees down to 5569 yards from the forward Red Tees. The course is a parkland style routing and is well known for the large greens and two of Tennessee Golf Trail's most memorable holes.

Henry Horton Hospitality Portfolio Competitive Market

Proposed Hospitality Portfolio Real Property Improvements at Henry Horton

The information provided below outlines the proposed opportunities for capital improvements at Henry Horton State Park.

TDEC requests that the respondents propose capital improvement possibilities for Henry Horton State Park. As the lodging and food and beverage facilities are in need of significant rehabilitation TDEC will allow the respondents the flexibility to determine the future of this operation. Potential improvements may include, but are not limited to, rehabilitation of the present facilities or demolition and re-building of the lodging and food and beverage facilities. Detailed condition assessments of the property are found within TDEC's online portal. Potential investments for lodging expansion may also include an investment of cabins proximate to the golf course along the river.

Additionally, TDEC is not opposed to entertaining changes of concept at the food and beverage location to better suit customer demands. The respondent must include expected real-property investments required for any modification to food and beverage service in their bid.

Capital funding provided by TDEC will be negotiated based upon scope and scale of Respondent's planned rehabilitation.

Proposed Hospitality Portfolio Personal Property Improvements at Henry Horton

In addition to the real property improvements, TDEC is interested in complete replacement of the personal property within the lodging and cabin rooms. Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. Any projected modifications to the food and beverage service must include appropriate food and beverage personal property investments. Additionally, at the golf course there are needs for replacement of golf course maintenance equipment and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal. Additionally, high level cost estimates are found within the bid documents for the aforementioned personal property projects.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently invested in new sewer lines for the cabins as well as repairing the HVAC at the Inn. In addition to these investments in the lodging at Henry Horton, TDEC has invested in electric golf carts, a new sand rake, and various pieces of large machinery for the operation of the golf course. The 2015/16 budget includes investments in installing Champion Bermuda greens as well as improving the practice tee.

Recent TDEC Investments in Park Infrastructure

TDEC has invested in upgrading the campgrounds at the park. The improvements include upgraded and paved sites, electrical upgrades and Wi-Fi. Additionally, the capital budget includes curing deferred maintenance at the swimming pool within the park.

Projected Hospitality Portfolio Utilization at Henry Horton

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate

under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

NATCHEZ TRACE

Natchez Trace Overview

Natchez Trace State Park is located on an alternate route of the old Natchez Trace. This route of the old trace is on the opposite side of the Tennessee River from the Natchez Trace Parkway. The name originally applied to a series of trails and paths that originated with animal migration routes and American Indian trade and travel routes. These were later used by returning boatmen that had floated goods to markets in Natchez and New Orleans from the Nashville area.

Under President Franklin D. Roosevelt's New Deal Program approximately 48,000 acres of land were purchased in the area of the park. This purchase provided jobs for many people. Programs such as the Civilian Conservation Corps and Works Progress Administration established many of the buildings still being used today and laid the foundation for what is now Natchez Trace State Park at the core of the large tract of public lands.

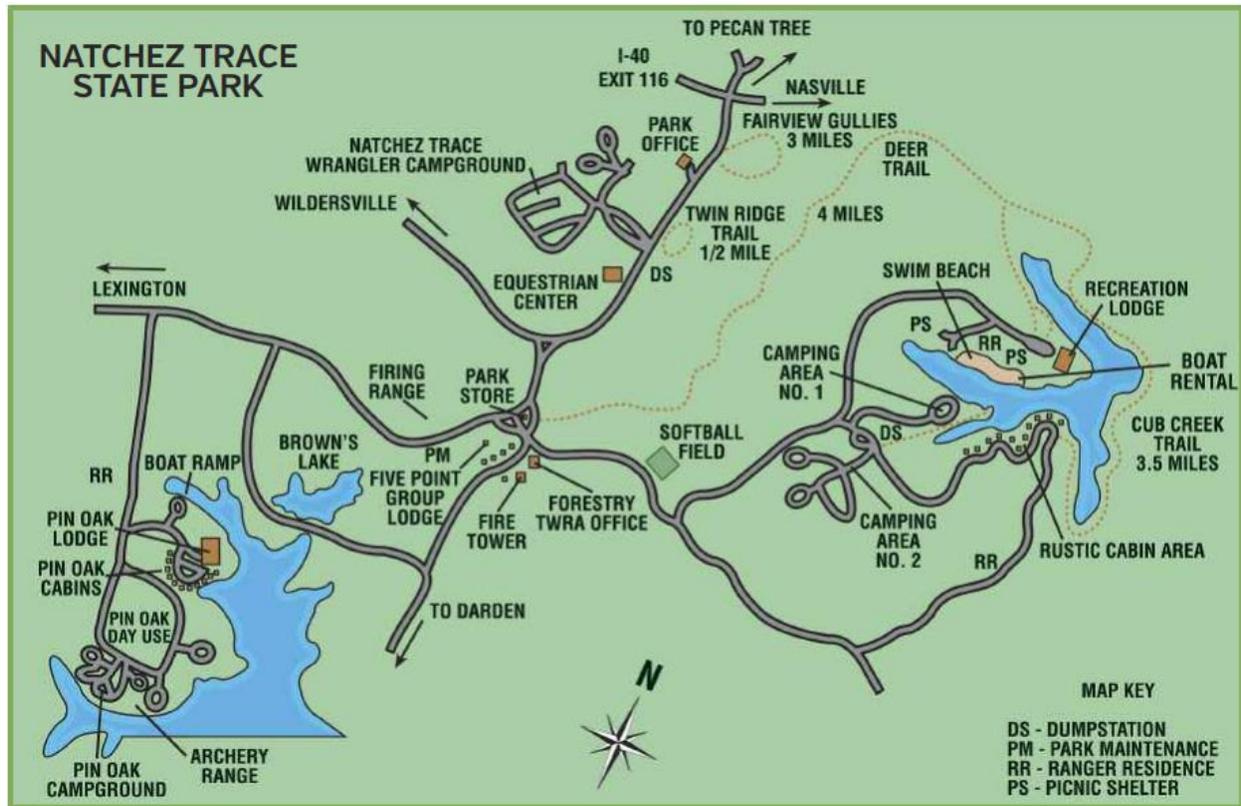

The park has 13.5 miles of hiking trails, ranging from a one-half mile up to 4.5 miles. The trails wind through the forest and fields and along the lakeshores and streams of Natchez Park. Visitors also enjoy the museum that features local and park history, picnic facilities, camping, cabins and lodges, boating and the park's restaurant.

The park offers activities for visitors of all ages. Fishing is a favorite activity at Natchez Trace and anglers have four lakes from which to choose. Fifty-eight acre Cub Lake and 690 acre Pin Oak Lake are operated by Tennessee State Parks, while 90 acre Maple Creek Lake and 167 acre Brown's Creek Lake are operated by Tennessee Wildlife Resources Agency.

Natchez Trace State Park is one of the few parks that have an onsite wrangler camp. Located 2.2 miles south of I-40 on Hwy. 114 the Bucksnot Wrangler Camp features 65 campsites with full hook-ups, two bathhouses and a dump station. There are 250 miles of riding trails on the south end of the park in the Natchez Trace State Forest operated by the Tennessee Department of Agriculture.

A map of the facilities found within Natchez Trace is shown below.

Asset	Build Year	Size/Capacity
Lodge	1972	47 Guestrooms
2-Bedroom Villas	1998	10 Villas (1,700 SF/ea.)

Source: TDEC

Pin Oak Lodge is situated on scenic Pin Oak Lake and has 47 guestrooms. Half of the rooms face Pin Oak Lake and the other half face the outdoor pool. All of the rooms have cable TV, phone, coffee maker, blower dryer and bath with shower/tub, table and chairs. The Inn and conference center offers over 3,000 square feet of meeting and banquet space in three conference rooms, which will accommodate up to 200 people. The Cub Lake Recreation Lodge is located on Cub Creek Lake. This historic building was built in the 1930s by the Civilian Conservation Corps. The recreation lodge is used for reunions, weddings, receptions and parties. The lodge can seat 100 people comfortably.

The Park features 17 one-bedroom, one-bath rustic cabins and 10 two-bedroom, two-bath villas. All cabins and villas are fully equipped for housekeeping with linens, cooking and serving utensils, appliances and microwaves. Cabins have a minimum two-night stay requirement, except during the summer when they are rented weekly.

For guests staying in the Inn or the cabins, the restaurant provides a free continental breakfast. The restaurant can seat 150 people and serves southern-style buffet cuisine. Box lunches and catering are available for breaks, banquets or cookouts throughout the park.

Proposed Hospitality Portfolio Real Property Improvements at Natchez Trace

The information provided below outlines the proposed opportunities for capital improvements at Natchez Trace State Park.

TDEC requests that the respondents propose capital improvement possibilities for Natchez Trace State Park. As the lodging and food and beverage facilities are in need of significant rehabilitation TDEC will allow the respondents the flexibility to determine the future of this operation. Potential improvements may include, but are not limited to, rehabilitation and/or repositioning of the present facilities. Detailed condition assessments of the property are found within TDEC's online portal.

Additionally, TDEC is not opposed to entertaining changes of concept at the food and beverage location to better suit customer demands. The respondent must include expected real-property investments required for any modification to food and beverage service in their bid.

Capital funding provided by TDEC will be negotiated based upon scope and scale of Respondent's planned rehabilitation.

Proposed Hospitality Portfolio Personal Property Improvements at Natchez Trace

In addition to the real property improvements, TDEC is interested in complete replacement of the personal property within the lodging and cabin rooms. Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal. Estimates for the replacement of other personal property are provided in the personal property listing on TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently worked to repair the sewer and chiller at the Natchez Trace Inn. The Natchez Trace inn roof is in process of being replaced.

Recent TDEC Investments in Park Infrastructure

Presently there are no planned park infrastructure projects planned at Natchez Trace.

Projected Hospitality Portfolio Utilization at Natchez Trace

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

The information provided below outlines the projected utilization at Natchez Trace State Park during the future concessions contract. Important to note is that all utilization information provided below is for FY2019, assuming that occupancy has stabilized.

CUMBERLAND MOUNTAIN

Cumberland Mountain Overview

Cumberland Mountain State Park is situated on the Cumberland Plateau, a segment of the great upland, which extends from western New York to central Alabama. It is said to be the largest timbered plateau in America. Cumberland Mountain State Park began as part of the greater Cumberland Homesteads Project, a New Deal-era initiative by the Resettlement Administration that helped relocate poverty-stricken families on the Cumberland Plateau to small farms centered on what is now the Cumberland Homestead community. This 1,720-acre park was acquired in 1938 to provide a recreational area for some 250 families selected to homestead on the Cumberland Plateau.

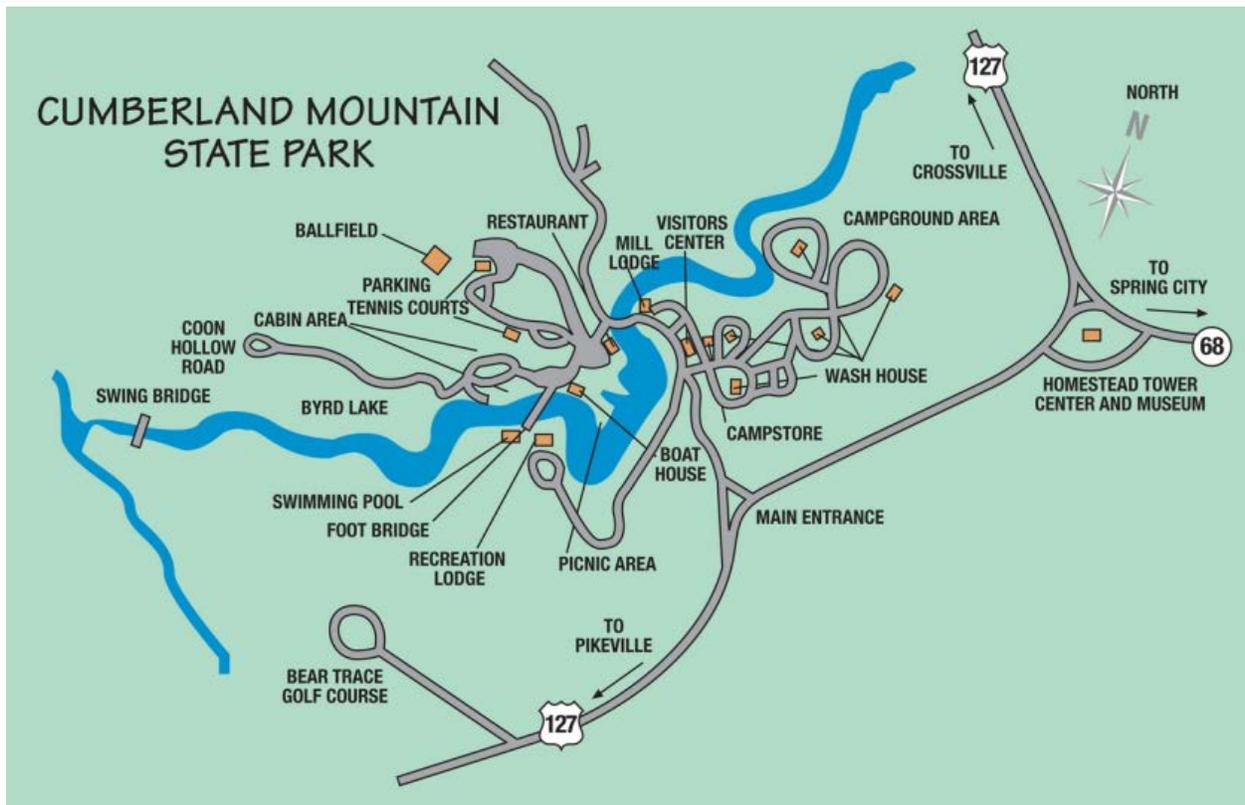

The park is located around Byrd Lake, a man-made lake created by the impoundment of Byrd Creek in the 1930s. The park is set on the Cumberland Plateau and provides numerous recreational activities, including hiking, swimming, picnicking and interpretive programs. The park also features a popular area restaurant and separate recreation hall that can accommodate up to 250 people.

Cumberland Mountain State Park has many options for overnight accommodations. There are numerous fully furnished cabins available throughout the year. The campground has more than 140 campsites for tents and RVs. There is also a designated place on the overnight trail for backcountry camping.

The Bear Trace at Cumberland Mountain Golf Course is one of the most sought-after sites among the Jack Nicklaus designed Bear Trace courses in Tennessee. The 6,900-yard, par 72 layout features a design that capitalizes on elevation changes as well as natural features, such as flowing brooks and clustered, mature pines.

A map of the facilities found within Cumberland Mountain is shown below.

Source: TDEC

The park restaurant serves two meals a day and is open all year except during the Christmas holidays. The dining hall features a beautiful view of the lake and dam, and will seat 200 people. The restaurant has a comfortable smoke-free atmosphere combined with some of the best Southern cuisine in Tennessee. The restaurant is popular for its catfish on Fridays, smoked ribs and BBQ Saturday nights and traditional southern country meals with great fried chicken

served on Sundays. The park restaurant has three meeting rooms downstairs for parties, banquets, and private functions. The largest room can accommodate 125 with two smaller rooms accommodating up to 50 each.

Situated in the heart of Tennessee’s scenic Cumberland Plateau, the Bear Trace at Cumberland Mountain was named “Top Ten Courses in Tennessee” by Golf Digest in 2001. It was also named the number one golf course in Tennessee by Golf Digest in 2012. Today, the Bear Trace at Cumberland Mountain is one of the most sought-after sites among the Jack Nicklaus designed Bear trace courses in Tennessee. The 6,900 yard, par 72 layout features a design that capitalizes on elevation changes as well as natural features, such as flowing brooks and clustered mature pines.

Proposed Hospitality Portfolio Real Property Improvements at Cumberland Mountain

The information provided below outlines the proposed opportunities for capital improvements at Cumberland Mountain State Park.

The Respondent shall be responsible for curing the deferred maintenance at the Cumberland Mountain Restaurant and golf course. Detailed listings of deferred maintenance items are provided within the online portal.

Capital funding provided by TDEC will be negotiated based upon scope and scale of Respondent's planned rehabilitation.

Proposed Hospitality Portfolio Personal Property Improvements at Cumberland Mountain

Within the restaurant, there is a need for updated FF&E including restaurant seating and equipment as well as kitchen equipment. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

TDEC recently replaced the HVAC compressor and water heater at the restaurant while also fixing the plumbing. Recent investment at the golf course includes 75 new electric golf carts, new walk-behind greens mowers, and creation of a foot golf course.

Recent TDEC Investments in Park Infrastructure

The 2015/16 capital budget includes curing deferred maintenance for the park pool and improvements to the CCC Cabins and additional work to support the Old Mill Preservation. The park completed the CCC bathhouse renovation/conversion into an interpretive center with restrooms. The facility is adjacent to the restaurant. Campground renovations including upgraded electrical was completed within the past year.

Projected Hospitality Portfolio Utilization at Cumberland Mountain

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. DAVID CROCKETT

David Crockett Overview

David Crockett was a pioneer, soldier, politician and industrialist. He was born near the little town of Limestone in northeast Tennessee in 1786. In 1817, he moved to Lawrence County and served as a justice of the peace, a colonel of the militia and as a state representative. Along the banks of Shoal Creek, in what is now his namesake park, he established a diversified industry consisting of a powder mill, a gristmill and a distillery. All three operations were washed away in a flood in September 1821. Financial difficulties from this loss caused Crockett to move to West Tennessee where he was elected to Congress. While in Washington, he fought for his people's right to keep land they had settled on in the new frontier of West Tennessee. Crockett died at the Alamo Mission in March of 1836 while aiding the Texans in their fight for independence from Mexico. The 1,100-acre park has a museum, staffed during the summer months, with exhibits depicting Crockett's life here and a water-powered grist mill.

In addition to the paved bike trail, the park has more than six miles of hiking trails. The trails offer scenic vistas of Shoal Creek and Crockett Falls, limestone bluffs, abundant wildlife and serene forest. The Overlook Trail runs parallel to the Shoal Creek Trail.

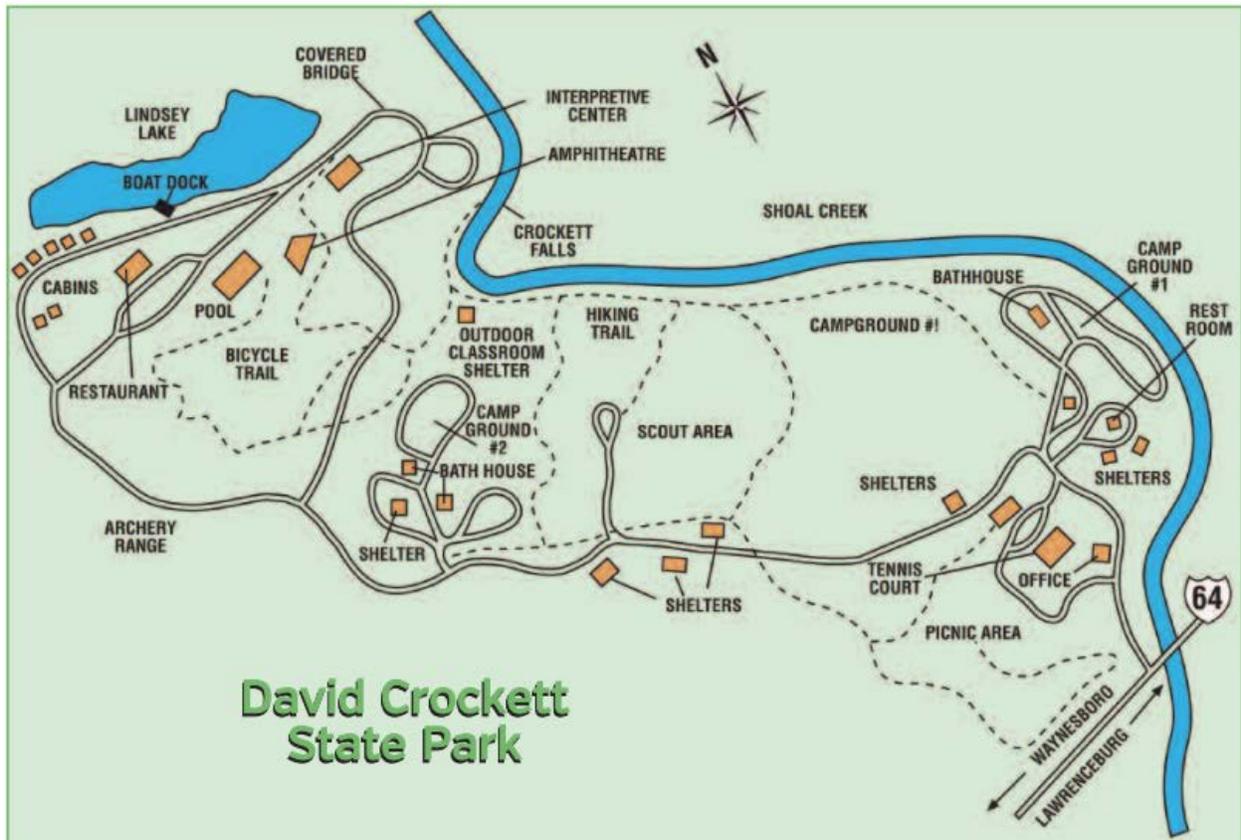

During the summer months, swimming is a popular park activity. There is ample sunbathing space and a wading pool for children. Lifeguards are on duty during swimming hours.

David Crockett State Park has seven cabins near beautiful Lindsey Lake. Each cabin is completely furnished with two bedrooms, two baths, a full kitchen and covered patio. These unique modern accommodations were designed and built with energy efficiency in mind. They are designated Leadership in Energy and Environmental Design (LEED) certified vacation homes. For campers, the park's two campgrounds contain a total of 107 sites, some equipped with a table, fire ring and grill and 30 amp electrical and water hookups. Campground #1 also has 8 primitive camp sites.

The park has an onsite restaurant that overlooks 40-acre scenic Lindsey Lake. The restaurant features home-style cooking from the buffet or menu.

A map of the facilities found within David Crockett is shown below.

TIMS FORD

Tims Ford Overview

Located on the Tims Ford Reservoir, the 2,200-acre Tims Ford State park sits in the shadows of the Cumberland Plateau in south-central Tennessee. The Tims Ford Lake is considered one of the most picturesque lakes in Tennessee and is regarded as one of the top bass fishing and recreational lakes in the Southeast.

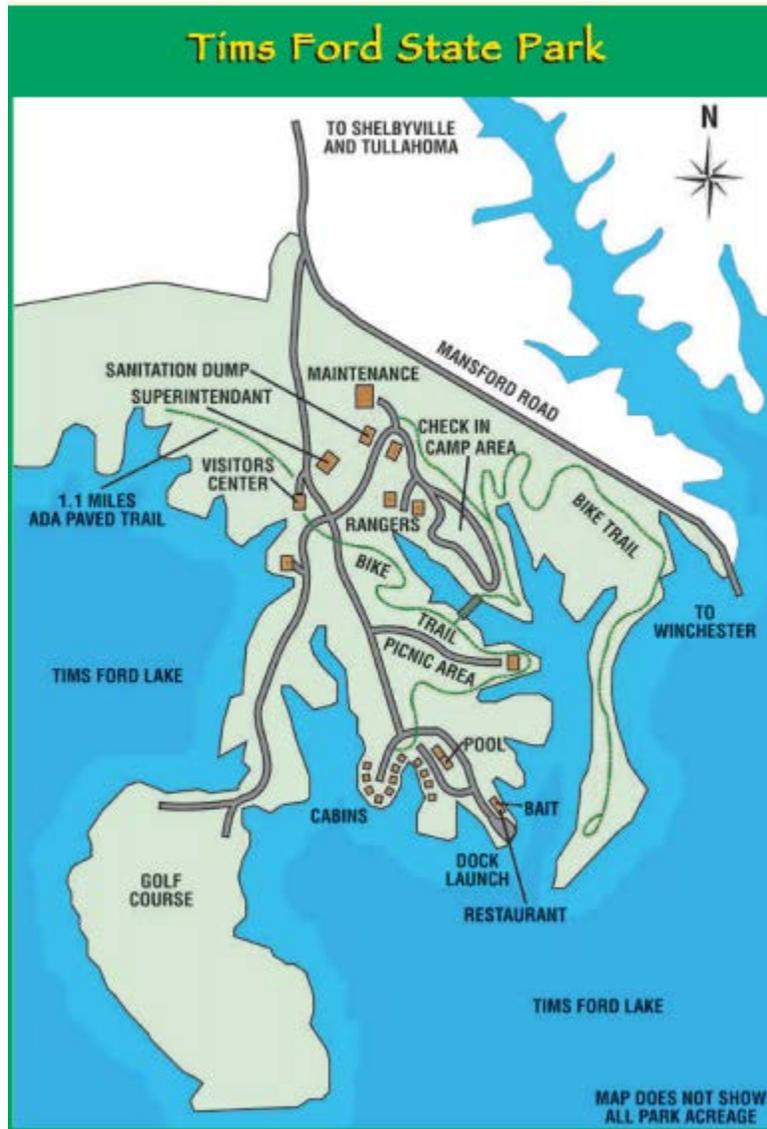

The Lake View Marina, located within the park, provides equipment and supplies for boating and fishing, a boat launching ramp and dock. The marina also includes a snack bar, bait shop and fish-cleaning area. Jet skis, pontoon boats, fishing boats and canoes are available for rent.

Tims Ford State Park offers multiple lodging opportunities. The park has 20 beautiful cabins situated on the wooded slopes of Tims Ford Lake. The cabins are completely equipped, including appliances, cooking and serving utensils and linens. The park has two campgrounds for tent or RV campers. In addition, with a permit from the park office, tent campers may camp on any of the six islands on the lake or at our Turkey Creek area.

Another popular activity is golfing. The park is home to the Bear Trace at Tims Ford which is part of the Jack Nicklaus-designed collection. The Tims Ford reservoir is visible from most holes on the course and comes into play on several of the 18 holes, giving the course an excellent balance of challenge and playability.

A map of the facilities found within Tims Ford is shown below.

Just an hour-and-a-half south of Nashville lays another star of the Jack Nicklaus-designed collection. The Bear Trace at Tims Ford has received widespread acclaim almost from the day of its opening. Included among its plaudits are one of the “Top Ten Places You Can Play” and one of the “Best New Destinations” in Tennessee in 1999. Situated on a peninsula surrounded by picturesque Tims Ford Lake, this visually compelling golf course has been described by one national publication as a “glittering newcomer...an intriguing 6,673 yard layout (gold tees) with several different looks”.

WARRIORS PATH

Warriors Path Overview

Warriors' Path State Park was named for the Great Cherokee War and Trading Path. Since that time, the park land has known a long history of travelers and is still a pathway for modern-day outdoor enthusiasts. The 950-acre park is located on the shores of the Patrick Henry Reservoir on the Holston River.

The park is home to premier boating and fishing activity, hiking trails, an internationally-renowned mountain bike trail system (which is a designated National Recreational Trail), an award-winning nature education program and a nationally recognized golf course.

Warriors' Path is the only Tennessee State Park with a Boundless Playground – where children of all physical and mental abilities can play together. Other unique features throughout the park that are fully accessible include: the Lions Narnia Braille Trail with eight sensory stations along a quarter-mile that tell visitors the story of Aslan of the Chronicles of Narnia, the Anderson Treehouse which is a fully-accessible tree house and the Palmer Center Foundation Amphitheater which can host audiences of up to 1,000 people.

A map of the facilities found within Warriors Path is shown below.

Hospitality Portfolio Business Opportunity at Warriors Path

Warriors Path offers a future Respondent the ability to operate the following facilities.

Exhibit 73: Asset at Warriors Path

Asset	Build Year	Size/Capacity
Golf Course	1972	18-Holes
Pro Shop	1972	9,000 SF

Source: TDEC

Warriors’ Path Golf Course is an 18-hole course located on the shores of fort Patrick Henry Lake and the foothills of the Appalachian Mountains. This course is one of the most popular in the Tennessee State Parks system. The par 72 course was designed by George Cobb and opened for play in 1972. It measures 6,601 yards from the Championship tees and 5,204 yards from the front tees. It is located along rolling countryside and has a scenic view of the lake from hole number five’s tee. This course is a favorite of many golfers in the Tri-Cities area and also features a large practice facility compete with large teeing ground, practice green and practice bunker.

Proposed Hospitality Portfolio Real Property Improvements at Warriors Path

The information provided below outlines the proposed opportunities for capital improvements at Warriors Path State Park.

TDEC will consider Respondent investment in a new marina finger at Warriors Path as well as a new pavilion proximate to the driving range where tournament events may be held.

Capital funding provided by TDEC will be negotiated based upon scope and scale of Respondent's planned investment.

Proposed Hospitality Portfolio Personal Property Improvements at Warriors Path

In addition to the real property improvements, TDEC is interested in appropriate replacement of the personal property within the golf course and marina. At the golf course there are needs for replacement of golf course maintenance equipment and scheduled replacement of golf cart leases. The existing personal property will be provided to the Respondent at no cost. Personal property listings are found within the TDEC online portal.

Recent TDEC Investments in the Hospitality Portfolio

TDEC has recently invested in a minor roof replacement at the golf course pro shop. No other investments have been made within the Warriors Path facilities available for Respondent operation.

Other Proposed TDEC Investments in Park Infrastructure

TDEC has budgeted for improvements to the pool located within the park and for new bathhouses in the campgrounds.

Projected Hospitality Portfolio Utilization at Warriors Path

The response to this RFQ will require the Respondent to develop financial projections based upon the operations the Respondent is required to operate under this contract. To assist the Respondent in the development of projections, TDEC has provided information which informed their own internal estimates for the development of the concession fee. Please note that the operating projections are only estimates based on assumptions developed considering publicly available historical data, industry standards, and other comparable information from other facilities.

TDEC does not guarantee these projections will materialize and assumes no liability for the accuracy of the projections presented. Respondents must compile and prepare their own financial projections based on their independent assumptions and industry knowledge.

The information provided below outlines the projected utilization at Warriors Path State Park during the future concessions contract. Important to note is that all utilization information provided below is for FY2019, assuming that occupancy has stabilized.

INVESTMENT ANALYSIS

Real Property

Across the TDEC hospitality portfolio, the respondent will be asked to propose certain real property improvement projects. Currently, TDEC is amenable to providing some funding, pending negotiation, for the investments incurred by the Respondent. As it stands, TDEC has available capital sources ranging from \$16,000,000 to \$52,000,000 for use by the Respondent, which is subject to legislative budget approval. Upon identification of the Respondent of the total deferred maintenance needs and total investments projected, TDEC will enter into negotiations to provide said funding to the Respondent for deployment. All funding provided by TDEC shall be subject to legislative budget approval. Upon approval by the state legislature, funding for real property improvements will be provided to the Respondent in the form of a Capital Grant awarded through the State Building Commission.

Exhibit 78: Estimated Real Property Investments

	Deferred Maintenance	Required Projects	Maximum Potential Investment Expected
Cumberland Mountain	\$ 63,000		\$ 63,000
David Crockett	\$ 100,000		\$ 100,000
Fall Creek Falls	\$ 432,000	\$13,200,000 *	\$ 18,653,000
Harrison Bay	\$ 57,000		\$ 498,000
Henry Horton	\$ 1,354,000		\$ 6,163,000
Montgomery Bell	\$ 919,000		\$5,444,000
Natchez Trace	\$ 276,000		\$ 1,070,000
Paris Landing	\$ 1,342,000		\$ 13,412,000
Pickwick Landing	\$ 1,065,000		\$6,133,000
Tims Ford	\$ 60,000		\$ 60,000
Warriors Path	\$134,000		\$134,000
			\$
Sum	\$ 5,802,000	\$ 13,200,000	51,730,000

*Denotes New Build Required of Concessionaire

Source: TDEC

Real property investment estimates have been developed through a combination of in-house estimates, market-based quotes, HVS Hotel Development Cost Surveys, and HVS Design & JNA Hotel Cost Estimating Guides. These budget estimates should be considered high level. These estimates include but are not limited to, re-building facilities, re-concepting restaurants, and recapitalizing facilities.

Personal Property

The personal property investment necessary for operation of the concession contract shall be incurred by the Respondent. TDEC does not anticipate any subsidy of the Respondent's investment in personal property. A detailed listing of personal property currently found within the portfolio is provided in the online portal provided by TDEC. All existing personal property will be provided to the Respondent at no cost. Initial investments shall be the responsibility of the Respondent. Reserves shall be funded through a personal property reserve and all personal property shall be property of TDEC at the end of the contract.

Exhibit 79: Estimated Personal Property Investments

	Personal Property
	\$
Cumberland Mountain	1,356,000
	\$
David Crockett	263,000
	\$
Fall Creek Falls ¹	3,594,000
	\$
Harrison Bay	1,356,000
	\$
Henry Horton	2,349,000
	\$
Montgomery Bell	3,151,000
	\$
Natchez Trace	936,000
	\$
Paris Landing	3,010,000
	\$
Pickwick Landing	3,071,000
	\$
Tims Ford	1,167,000
	\$
Warriors Path	1,014,000
Sum	\$
	21,267,000

¹\$2,250,000 of this amount is estimated to be invested in the new Fall Creek Falls Lodge and Restaurant.

Source: TDEC

Personal property investments have been established based upon the inventory of assets provided by the parks, best estimates of valuation based upon the asset inventory provided and information on current personal property purchases.

Working Capital, Inventory, and Pre-Opening Expenses

TDEC requires the Respondent to include assumptions of working capital, inventory, and pre-opening expenses in their response to TDEC. Consideration will be made by TDEC towards the reasonableness of these assumptions during the proposal negotiation process.

RESERVE REQUIREMENTS

Repair and Maintenance Reserve

The pro forma Contract requires the Respondent to establish a Repair and Maintenance Reserve to ensure that funds are available to accomplish certain recurring component renewal activities. The funds in this Reserve shall be used to carry out, on a project basis repair and maintenance of concession facilities that are non-recurring within a seven-year time frame. Projects will be carried out by the Respondent under approval by TDEC.

Projects paid for with funds from the Repair and Maintenance Reserve will not include routine, operational maintenance of facilities or housekeeping and grounds keeping activities. The Respondent shall establish within its accounting system a Repair and Maintenance Reserve. TDEC is proposing a minimum repair and maintenance reserve of approximately five percent (5.0%).

Personal Property Reserve

The pro forma Contract requires the Respondent to establish a Personal Property Reserve to ensure that funds are available to recapitalize aging personal property throughout the portfolio. The funds in this Reserve shall be used to carry out, on a project basis reinvestment in personal property as needed.

The Respondent shall establish within its accounting system a Personal Property Reserve. TDEC is proposing a minimum personal property reserve of approximately four percent (4.0%).

CONCESSION FEE

TDEC is open to the Respondent identifying an appropriate Concession Fee to be provided to TDEC on an annual basis as a percent of gross revenue.

TERM AND EFFECTIVE DATE OF CONCESSION CONTRACT

The pro forma Contract will be effective on August 1, 2016 and will include a four (4) month transition period. The Concessionaire will assume full

operational duties for the Facilities on the transition date of December 1, 2016.
The term of the contract will extend until November 30, 2036.

SITE VISIT

Pre-Response Conferences shall be hosted at all locations featured in the Portfolio. The pre-response conference will provide for a general overview of the assets and a technical review of the facilities, geared towards inspections by engineers, contractors, etc. engaged by Respondents. A detailed itinerary can be found in the online portal.

August 17, 2015: Montgomery Bell State Park

August 18, 2015: Henry Horton State Park
David Crockett State Park

August 19, 2015: Pickwick State Park

August 20, 2015: Natchez Trace State Park

August 21, 2015: Paris Landing State Park

August 22, 2015: Break (Option to revisit previous parks upon request)

August 23, 2015: Tims Ford State Park
Harrison Bay State Park

August 24, 2015: Fall Creek Falls State Park

August 25, 2015: Cumberland Mountain State Park
Warriors Path State Park

Registration for the Pre-Response Conference is available online at:

https://www.surveymonkey.com/r/TDEC_RFQ_Pre-Response_Conference_Registration

Deadline to register is August 10, 2015 at 2:00 p.m. central time.

For questions regarding the Pre-Response Conference, please contact:

Lindsay Oliveras

Phone: 615-253-4762

Email: Lindsay.Oliveras@tn.gov

The site visit will be an opportunity for all interested parties to get an overview of the concession operation along with a tour of the concession facilities associated with the pro forma Contract.
