

**TENNESSEE DEPARTMENT OF HEALTH
Public Health Informatics Office**

For more information contact the Tennessee Meaningful Use Coordinator (MU.Health@tn.gov)

In Tennessee, the onboarding process to exchange data with the Tennessee Department of Health (TDH) begins when a potential trading partner registers with TDH, expressing their intent to exchange data electronically.

The Trading Partner Registration (TPR) system allows potential trading partners to register for Immunization Messaging (***new registrations only***), Cancer Case Reporting, Electronic Laboratory Reporting (ELR), and Syndromic Surveillance Messaging (***eligible hospitals w/emergency room***) in one location. TPR provides documentation that can be utilized for Meaningful Use attestation and allows users to view their progress from start to finish through the use of milestone letters documenting onboarding progress.

Also displayed within the TPR organizational profiles are requests for action. Potential trading partners are expected to provide valid responses to requests for action in order to move the trading partner into production status. TDH reserves the right to discontinue onboarding activities with any trading partner, at any time, in the event of consistent problems associated with TDH reporting requirements and/or meeting file specifications in accordance with published national standards.

TPR Webinars are scheduled for the following dates and times:

- Tuesday, December 15th, 9:30 AM -10:30 AM Central Time
- Tuesday, December 17th, 11:00 AM -12:00 PM Central Time
- Wednesday, January 6th, 10:00 AM -11:00 AM Central Time
- Monday, January 11th, 12:00 AM -1:00 PM Central Time
- Thursday, January 21st, 9:00 AM -10:00 AM Central Time
- Tuesday, January 26th, 11:30 AM -12:30 PM Central Time

To receive the TPR webinar details, you **must** RSVP by emailing your preferred date/time to MU.Health@tn.gov. In your message, please include the name of your affiliated organization and the interface your organization wishes to register with (e.g., Cancer Case Reporting, Electronic Laboratory Reporting, Immunizations, and/or Syndromic Surveillance). If the requested date/time is available, you will receive an email invitation with the conference phone number and webinar link.
