Subject: Camden Update 7-15-2019

Dear Camden Citizens–

Below is a summary of items that have occurred at EWS from Saturday 7-6-2019 through Friday 7-12-2019. My previous update covered the period through Friday 7-5-2019. As a reminder, please note that the closure effort has been determined to be substantially complete as of the week ending June 14, 2019. Also as noted previously, punchlist items remain but should be wrapping up very soon. **This update will be our last.** TDEC held a wrap-up meeting to present an overview of closure activities and to answer any questions anyone had at 6:00 pm last Thursday at the Benton County Courthouse. Thanks to everyone who attended this informative event. As discussed at the meeting, TDEC will host a site tour later this summer after the grass gets established. We will send out details to everyone when we schedule this event. Please feel free to contact TDEC if you have any questions about the site tour or anything else. Thank you.

Pat.

- Aluminum Processing Waste Cell leachate was shipped off-site for disposal.
- Industrial Waste Cell leachate continued to be treated and stored prior to disposal.
- Closure Construction Activities Performed:
 - Activities at Aluminum Processing Waste Cell:
 - Work efforts completed.
 - Activities at Industrial Waste Cell:
 - Contractor continued to place straw and seed (approximately 75% complete); this effort expected to be complete by the end of this week.
 - General Site Construction Activities:
 - Contractor working on completing miscellaneous punchlist items.
 - Fence contractor not on site this week (fencing still approximately 90% complete); this effort to be completed by the end of this week.
 - Weekly construction meeting held.
