**Date of Original Conveyance:** Dates range from 1962-1968

**Grantor Unto State:** Various property owners

**Estimated Sale Price:** \$2,810,000 appraisal done on 7-1-2009

**Grantee:** Department of Mental Health

**Comment:** The value is based primarily on land value the structures have little contributory value to the site. The houses would require abatement.

**SSC Report:** 07/18/2011. Jurgen Bailey summarized the transaction. Jarrett Landrum with Mental Health stated that the agency wants to rid itself of a major maintenance problem with this property. Most of the improvements need to be demolished and abated. He stated that we will sell the property "as is". The RIP program is being evaluated and may close down if the agency cannot find another provider for these services. There is also potential to relocate the RIP program to another building on one of Mental Health's campuses. Staff referred to Sub Committee for discussion.

**ESC Action:** 07/25/2011. Jurgen Bailey presented the transaction. Commissioner Varney was recognized who stated that the RIP program may continue, but not by its present standards. After discussion, Subcommittee approved the request as presented.

## DEPARTMENT OF ENVIRONMENT & CONSERVATION

### Land Transaction

- Requested Action:** Approval of disposal by temporary easement with waiver of advertisement and appraisals
- Description:** Dickson, Cumberland, Henry, Hardin, Davidson Counties – Montgomery Bell, Fall Creek Falls, Cumberland Mountain, Paris Landing, Pickwick Landing & Radnor Lake State Parks, TN – Trans. No. 11-06-013 (Baugh)
- Purpose:** Disposal by special services to notification to change two (2) existing parking spaces at each of these State parks into electric vehicle charging stations.
- Estimated Sale Price:** N/A
- Source of Funding:** Grant from the U S Department of Energy
- Grantee:** Ecotality North America
- SSC Report:** 07/18/2011. Jurgen Bailey summarized the transaction. Bill Avant with Environment and Conservation introduced Stephanie Cox, with Ecotality North America. Ms. Cox stated that this is a pilot program through a grant with the Department of Energy to deploy 14,000 electrical car chargers to 18 major cities in six states. The program grants free installation of the equipment to the state. This program will be evaluated until April 13, 2013 and further recommendations will be made. Ownership of the improvements will be transferred to the State on December 12, 2012. There will be a 50/50% split on the charging fee that will be shared with State and Ecotality. After 2012 the State will receive 100% of the funds derived from these charging stations. Staff referred to Subcommittee with recommendation.
- ESC Action:** 07/25/2011. Jurgen Bailey presented the transaction. The subject of charging stations for vehicles at State Parks was discussed. Secretary Hargett raised concerns that the charging stations were not being installed in major metropolitan areas as stated on their website as being part of the grant process. Stephanie Cox of Ecotality North America, responded that the grant provides for these charging stations to be installed in State Parks where many tourists visit adding to the probability of more people using those stations at State Parks in addition to residents of metropolitan areas. She stated that the grant also provides protection of the State's natural resources at these parks. Secretary Hargett encouraged that parts of the language on their website be changed to reflect that there are other places besides large metropolitan areas to charge vehicles. Subcommittee approved the request as presented.

## DEPARTMENT OF FINANCE & ADMINISTRATION

### Special Land Item:

**Requested Action:** Acknowledgment to assemble a plan to dispose of the Henley Street State Office Building in Knoxville, and approval of waiver of advertisement and one appraisal

He stated that the adjoining hotel has expressed an interest in the purchase of the property which houses several State agencies that will have to be relocated. After discussion, Subcommittee approved the request as presented.

## STATE BUILDING COMMISSION

### Minutes of Executive Subcommittee Meeting

- 1) Approved the Minutes of the Executive Subcommittee meeting held on June 22, 2011.

### Report of Bid Withdrawals (in accordance with Item 5.01(E)(5)(d) of the *SBC By-Laws, Policy & Procedures*)

- 1) **Bidder:** Ceiling & Floor Restorations, Inc.  
**Project Location:** East Tennessee State University  
**Project Title:** Yoakley & Gilbreath Halls Building Envelope and Window Repairs  
**SBC No.** 166/005-08-2009  
**Bid date:** 04/07/2011  
**Designer:** McGahey & Associates  
**SBC Action:** The bidder, Ron Plombon, was present to appeal the decision made by the Bid Error Review Panel to revoke his bid security. After discussion, the Commission referred the matter to the Executive Subcommittee, with authority to act.

**ESC Action:** 07/25/2011. State Architect Bob Oglesby reminded the Subcommittee that the SBC had discussed this matter previously when Mr. Brian Plombon was present to appeal the Bid Error Review Panel's recommendation to revoke his bid security based on his bid withdrawal and the Panel's decision that it was bad judgment and not a clerical error. He said that when Mr. Plombon appealed the decision, he also presented some new information that the Panel had not heard, so the item was referred to the Executive Subcommittee, with authority to act. Mr. Oglesby stated that staff had discussed the matter further and provided the documentation to the Subcommittee. He said the information provided by the owner to the designers that were pursuing the bids, was found to be accurate and complete, and the Panel stood behind their recommendation to revoke Mr. Plombon's bid security.

Mr. Plombon was recognized. He stated that he believed the mistake was clerical in nature and was due to some lack of clarity in what the bid documents had asked for, particularly whether or not the buildings to be done had asbestos in them. He said that prior to the bid, the buildings had not been tested for asbestos and it wasn't known at the time whether or not they had asbestos in them. He said they prepared their bid but were not going to charge for something that was not required. He said they figured that if there was asbestos in the buildings later that tested that way, it could be handled by change order.

Mr. Oglesby responded that there was no confusion as to what the scope of work was since it was clearly stated what the owner intended to do, which was directing them to abate the windows regardless as to whether there was any abatement required or not. He said that if Mr. Plombon had been more thorough in reviewing all the documents provided, he would have found that out.

Secretary Hargett asked Mr. Oglesby if he had calculated what the State's actual damages were as a result to Mr. Plombon having withdrawn his bid, and was told "no". Mr. Oglesby responded that his estimate was significantly lower by about \$60,000 than the second low bidder and, by him withdrawing, they will take the

higher bid, which is not a direct penalty to that. The cost to the bidder is 5% of his bid amount, just under \$8,000, and the cost to the State, as far as any damages, would be the cost to deal with the matter properly.

Mr. Plombon commented that the job was eventually awarded to a local company, J.E. Green Company, who has completed the job \$12,000 under budget. He asked, by withdrawing his bid and allowing a local company to finish the job for \$12,000 less than the budgeted amount, who was hurt by that.

Comptroller Wilson asked Mr. Plombon if he asked whether or not there was any asbestos, and Mr. Plombon replied that his project manager did. Comptroller Wilson asked what was he told, and by whom. Mr. Plombon responded that at the preconstruction meeting, he was told that the building had not been tested and no one knew if there was asbestos. Comptroller Wilson confirmed that he was aware the building had not been tested, and was told "yes".

Mr. Oglesby clarified that this is Phase 2 of the project and there had been samplings done on many of the windows, but it was the recommendation of the owner to not sample further or to test all the windows, but to just do replacement because they were similar in nature and age to the windows they had tested which were found needing abatement. He said that was why others had not been tested and the scope was clearly defined, which was what they had intended to bid.

Mr. Plombon stated that if the Subcommittee is determined to penalize his company, he would prefer that any penalty be paid directly by him rather than forfeiture of the bid bond. He said that bonding is very difficult to obtain these days and any blemish on one's record can be grounds for complete withdrawal of the bonding line, which could mean shutting down his business. Mr. Oglesby responded that the members of the Bid Error Review Panel were in support of that position.

Mr. Plombon again asked who was hurt by this bid withdrawal. He stated that if the Subcommittee or individuals had to spend some time on this matter that they believe should be compensated for, he could understand that position, but he would like to know how much those actual costs would be.

Treasurer Lillard asked Mr. Plombon that if he were to pay the amount in cash, how many days would it take him, and was told "by the end of the week". Treasurer Lillard made a motion to uphold the Panel's decision to forfeit his bid bond conditioned upon the fact that, if he pays it in cash within 15 days to the State, then the bid bond will not be forfeited to the State but can be returned to Mr. Plombon. The motion was seconded by Secretary Hargett and passed without objection.

Mr. Plombon then asked what would be a fair and appropriate amount, and Mr. Oglesby responded, "the Committee supports the recommended amount of \$7,960.00". Mr. Plombon asked if that was what the State incurred, to which Mr. Oglesby replied "no, that's not been calculated, but I would estimate it to be much higher than that".

Mr. Plombon responded that he would be interested in seeing that calculation, and Mr. Oglesby replied that it was immaterial. Mr. Plombon said that his bid amount was \$126,400, and 5% of that is \$6,320. Mr. Oglesby replied that it was based on his base bid plus alternates 1 and 2, totaling \$159,200. Mr. Plombon asked if the alternates were accepted when the contract was awarded, and was told that he bid the alternates and his alternates would have been accepted had it been awarded. Mr. Plombon asked if the alternates were accepted by the company who was awarded the job, and was told that was not relevant to the conversation.

Treasurer Lillard stated that he has been a lawyer for 30 years with a practice in this area and bid bonds like this are intended to be a penalty among other things for a failure to honor your original bid including alternates. He said he has represented clients before who have had bid bonds forfeited, and he was sorry that they found themselves in this position. However, he said that they have given the matter a thorough and full review, in fact, a re-review since the last hearing. He said they appreciated his willingness to talk to them and had considered seriously all of his arguments. But that's the law and this is the way it works.

Mr. Plombon said he understood and wanted to be fair in this process, adding that no one has spent more time on this than he has, citing his various travel and conference calls, but he said he didn't spend \$7,960 on this process. Yet, he was being told it was more than that and was trying to figure out how that could be. Chairman Emkes stated that the Subcommittee had reached its conclusion on the matter and it was time to move on to the next item, and thanked Mr. Plombon for his participation.
