

PRESCRIBED FIRE

With detailed planning and careful preparation, an experienced Burn Boss creates a detailed prescription and burn plan, assembles an experienced Burn Crew, and carries out a safe, effective, and managed prescribed fire that minimizes impact to the public and surrounding areas.

4. MONITORING

After the area has been lit, burn crews patrol the control lines to make sure flames don't escape.

5. EVALUATION

Examine whether the objectives were achieved and if prescription improvements for safety and implementation can be made on future burns.
