

State of Tennessee Drug List with Advanced Control Specialty Formulary®

The **CVS Caremark® Performance Drug List with Advanced Control Specialty Formulary®** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This list includes many commonly prescribed generic and preferred brand drugs but is not an all-inclusive list. Non-preferred brand drugs are not listed. Many of these brand name drugs are covered but will cost you the most. This list represents covered brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. At the end of this document is a list of many drugs that are not covered and the preferred brand or generic alternative that is covered in its place.

PLAN MEMBER

Your benefit plan provides you with prescription drug coverage that is administered by CVS Caremark. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list the next time you or a covered family member sees a doctor.

Please note:

- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document. Medications and products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered upon release to the market.
- Non-formulary products that are not covered under your benefit may offer a medical exception process. Your prescriber should contact CVS Caremark for review.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- For specific information regarding your prescription benefit coverage and copay, please sign in or register on [Caremark.com](https://www.caremark.com) and click Plan Summary on the Plan & Benefits menu.
- When you fill a 90-day supply of certain medications (anti-hypertensives, depression, asthma/COPD, coronary artery disease, congestive heart failure, osteoporosis, diabetes, statins to treat high cholesterol) through Mail Order or at a participating Retail-90 pharmacy, you will pay less.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

Please note:

- Generics should be considered the first line of prescribing.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered upon release to the market.
- The member's prescription benefit plan may have a different copay or coinsurance for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay information for a specific medicine.
- When you fill a 90-day supply of certain medications (anti-hypertensives, depression, asthma/COPD, coronary artery disease, congestive heart failure, osteoporosis, diabetes, statins to treat high cholesterol) and your patients fills it through Mail Order or at a participating Retail-90 pharmacy, he or she will pay less. Certain non-formulary products not covered under your patient's prescription benefit program may be available for coverage. Please contact CVS Caremark for review.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to Caremark.com to check coverage and copay information for a specific medicine.

An exception process may exist for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

- § Generics are available in this class and should be considered the first line of prescribing.
- * Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.
- ** Listing does not include certain NDCs*.
- † The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.
- 1 Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.
- 2 An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.
- 3 Generic multivitamins (except *Activite, Dexifol, Folvite-D, Genicin Vita-S, HylaVite, Multipro, TronVite, Vitasure, Xvite*) are the only preferred options.
- 4 BD ULTRAFINE syringes and needles are the only preferred options.
- 5 ACCU-CHEK or ONETOUCH brand test strips are the only preferred options.
- 6 Generic prenatal vitamins are the only preferred options.
- 7 Long Acting Insulins - First Generation.
- 8 QVAR REDHALER covered for members 5 years of age and under.
- (PA) Prior Authorization required.
- (PA2) Prior Authorization required for 36 years of age and older.
- (QL) Quantity Limits apply.
- (ST) Step Therapy required.
