2.5% admin costs based on (2024-2030) est. community and county payments

\*Funds made available are estimated, does not include any anticipated interest payments  
 \*\* included 4% COLA and 10.25 OAC business office positions (3 not currently filled) - OAC office also supports county payments/reporting

**Assumptions:**  
 Majority of grant applications are 3 year grants (71% of all apps are 3 year grants)  
 Anticipate funding 5-7% in one time capital; 80% 3 year, 10-15% 2 year grants – 5-10% 1 year, difficult to determine until all applications are scored  
 rolling based on 1,2,3 year grant awards – changes based on what OAC approves  
 Year 1 50% estimated paid due to July 1 contract start dates  
 Year 2 80% spend due to 1 time capital expense and 1 year projects and underspend  
 Year 3 – 70% due to 1 and 2 year contracts and underspend  
**Estimated paid rationale:**  
 2024 = 50% of year 1 new awards due to contracts beginning July 1st  
 2025 = 50% of year 2 new awards + 80% of year 1 awards (to factor in 1 year only and capital project grants and underspend/underperform)  
 2026 = 50% of year 3 new awards + 80% of year 2 awards + 70% of year 1 awards  
 2027 = 50% of year 4 new awards + 80% of year 3 new awards + 70% of year 2 new awards + 70% of 50% of year 1 awards  
 2028 = 50% of year 5 + 80% of year 4 + 70% of year 3 + 70% of 50% of year 1 awards
