

Adolescent Substance Abuse: The Brain, The Family & Your Own Backyard
 Tennessee Department of Education
Office of Healthy, Safe and Supportive Schools
In partnership with STARS Nashville

The use of alcohol, tobacco and other illicit drugs undermines student's ability to achieve academically, is associated with other harmful behaviors, and is incompatible with a school climate of respect, safety and support for learning. This workshop will explore emerging trends and discoveries in adolescent substance abuse and brain development, with a special consideration of children living in homes with substance abuse.

Presenters

Lisa Bell serves as the Clinical Director of Youth Overcoming Drug Abuse (YODA) program, a program of STARS Nashville. STARS exists to serve schools and communities by providing prevention, intervention, and treatment services, addressing bullying, substance abuse, violence and social and emotional barriers to success.

Who Should Attend?

2 to 3 educators and/or administrators working directly with students per district are recommended to attend.
