### OVERVIEW

Effective July 1, 2014, all prescribers who hold a current federal drug enforcement administration (DEA) license and who prescribe controlled substances shall be required to complete a minimum of two (2) hours of continuing education related to controlled substance prescribing. This course will help providers reduce problems associated with prescription opiates while maintaining access to compassionate care and appropriate medications for patients living with chronic pain.

### OBJECTIVES

Following this activity, participants will be able to:

- Discuss various aspects of the Tennessee Controlled Substance Monitoring Database (CSMD) since January 1, 2013
- Discuss Pain Clinic laws and changes
- Describe CSMD Enhancements - New rules/laws regarding pain management specialists
- State overdose deaths and NAS per capita
- Implement Chronic Pain Guidelines
- Discuss supervisory roles in Pain Clinics

### COURSE INSTRUCTORS

D. Todd Bess, PharmD

Linda Johnson, MSN

Mitchell Mutter, MD
