REPORTS

Second was given by Dr. Prince. Motion carried.

The committee's report and recommended policy as accepted by the Board is as follows:

Committee Members attending the meeting: Dr. John Werther, Dr. Cliff Simmons, Dr. Bill Akin and Dr. David Johnson. Dr. George Adams did not attend the meeting.

The committee reviewed the applications for sedation education and voted unanimously to reject each of the applications for the same reasons.

Oregon

Course is denied because of inadequate detail on the application. We do not recommend approval at this time until /unless additional information is received and reviewed favorably.

Wendell Center

Course is denied because of inadequate detail on the application. We do not recommend approval at this time until /unless additional information is received and reviewed favorably.

CSC

Course is denied because of inadequate detail on the application. We do not recommend approval at this time until /unless additional information is received and reviewed favorably.

The Anesthesia Committee recommends to the Board that we adopt the following criteria, as a minimum, for reviewing courses applying to Board approval for sedation education.

Applications for sedation course approval should include as a minimum:

1. Complete faculty list with full formal CV of each faculty member
2. Complete course breakdown including teaching and lecture assignments as well as clinical teaching assignments of all faculty and the time spent in each activity.
3. Current and previous state licensure of all faculty
4. Complete list of malpractice and disciplinary actions for all faculty in all current and prior states in which licensed.
5. How many sedations does each participant perform?
6. Does the participant perform the dentistry as well on the sedated patient?
7. What agents are taught?
8. What is the student –instructor ratio in the course?
9. Who is the primary educational director in charge of and responsible for determining that a participant has been trained to competence?
10. Is the teaching course under the auspices of an ADA-recognized educational institution? If so, provide certification to that effect from the parent organization.
11. Where exactly is the course conducted? In what facility?

In view of patient safety, the Anesthesia Committee recommends to the Board that retroactive approval for sedation education be discontinued in the future and no longer considered. The reason is that the sedation education will potentially lead to a change in licensure status by virtue of permit change —and should thus be treated differently than other general CE course consideration.

The committee reviewed the letter from Dr. Hexem unfavorably and does not recommend any action by the Board.

Policy Statement Regarding the Minimum Requirements Necessary for Sedation Course Approval

Applications for sedation course approval should include as a minimum the following:

1. Complete faculty list with full formal CV of each faculty member
2. Complete course breakdown including teaching and lecture assignments as well as clinical teaching assignments of all faculties and the time spent in each activity.
3. Current and previous state licensure of all faculty
4. Complete list of malpractice and disciplinary actions for all faculty in all current and prior states in which licensed.
5. How much sedation does each participant perform?
6. Does the participant perform the dentistry as well on the sedated patient?
7. What agents are taught?
8. What is the student –instructor ratio in the course?
9. Who is the primary educational director in charge of and responsible for determining that a participant has been trained to competence?
10. Is the teaching course under the auspices of an ADA-recognized educational institution? If so, provide certification to that effect from the parent organization.
11. Where exactly is the course conducted? In what facility?

Upon review of the complaint, the registered dental assistant will receive a Letter of Warning from the board’s consultant and the supervising dentist(s) will receive a reprimand and \$500.00 civil penalty for each registered dental assistant found to be exposing radiographs without the proper certification.
