
State Board of Education Instructional Materials Review Template

The Background:

Legislation was introduced in the 108th General Assembly that called for the state board to develop and approve a template for LEAs to use to review instructional materials and to make the findings available for parents to consider. State board staff met with the sponsor and agreed to present such a template for the state board to consider. The sponsor agreed to hold the legislation pending state board action. This template, if approved, will be made available to LEAs for their consideration; LEAs may or may not elect to adopt or modify the template as they see fit.

The Recommendation:

The SBE staff recommends adoption of the template on final reading.
