

**Notice regarding further administration of Tennessee Workers' Compensation Benefits for Employees of Plastech Engineered Products, Inc., formerly known as United Screw & Bolt Corporation, which operated plants in Gallatin, Kenton, and Franklin, Tennessee:** These plants were closed by September 2008 following the employer seeking bankruptcy protection. The employer stopped paying its own self-insured workers' compensation payments, and the administrator previously used by it, Constitution States/Travelers, is no longer involved.

Under a December 2, 2008 order of the Davidson County Chancery Court, the Safety National Casualty Corporation (SNCC) has agreed to administer its bond for the employer's self-insured Tennessee workers' compensation liability. **To access any workers' compensation benefits or medical care to which you may be entitled, or which by prior judgment against your employer you may be entitled, SNCC requires that you contact its chosen administrator, CCMSI.** Contact CCMSI with any and all notices, claims for coverage, or questions regarding this employer's Tennessee workers' compensation benefits. **Do not delay if any matter requires attention. The contact information is as follows:**
