Important details

You must select a network general dentist who will manage your overall dental care. Covered family members can choose their own network general dentists near home, work or school. You may choose a network pediatric dentist for children under the age of 13.* If you need assistance in selecting a dentist, contact Cigna at **800.997.1617**.

- You will pay the copay amount listed on your Patient Charge Schedule (PCS) for covered dental services performed by your network dentist.
- An Office Visit Fee Copay applies per patient, per office visit, and is in addition to any other applicable patient charges. Please refer to the PCS. Visit [Cigna.com/stateoftn](https://www.cigna.com/stateoftn) and click on the dental tab to find a copy of the PCS.
- If your network general dentist does not perform the specialty care procedure you need, he/she can direct you to a participating network specialist.
- Procedures not listed on your PCS are not covered and are the patient's responsibility at the dentist's usual fees.
- **Remember:** If you seek covered services from a dentist who does not participate in the Cigna dental network for the State of Tennessee, your plan will not pay except in the case of an emergency, or as required by law.

Participation Requirements:

An agency must be participating in the State of Tennessee Sponsored Group Health Plan in order to qualify for participation in the State of Tennessee Voluntary Dental Program. Employee, Retiree and/or Dependent participation in the State Sponsored Group Health Plan is not required to participate in the State Dental Program. YOUR QUESTIONS ANSWERED

Q: How does the Cigna Dental Care® DHMO Plan work?

A: When you sign up in the DHMO Plan, you must select a network general dentist who will handle your dental care needs. You then receive a Patient Charge Schedule PCS that lists the specific dental procedures covered by the plan and the amount you will pay the dentist. These copays apply only when you receive treatment from the dentists or dental specialists in the Cigna network for the State of Tennessee.

If a dental procedure is not listed on your PCS, it is not covered and you will have to pay according to the dentist's regular fees. If you receive a covered service from a dentist who does not participate in the Cigna Dental Care® DHMO network for the State of Tennessee plan, your dental benefits may not be covered at all except in the case of an emergency or where required by law.⁴ You can take your PCS to dental appointments to discuss treatment options and costs with your dentist, but it is not required.

Q: How do I choose a dentist when I sign up for the plan? Can I change my network general dentist later on?

A: You can find a network dentist by visiting [Cigna.com/stateoftn](https://www.cigna.com/stateoftn). Instructions are posted on how to access the pre-effective [myCigna.com](https://www.mycigna.com) log on process. This will allow you to view dental network information specific to the **Cigna Dental Care® DHMO Plan**. If you are already a member, you can go to your personalized [myCigna.com](https://www.mycigna.com) account. If you need help finding a dentist, you can call customer service at **800.997.1617** and request to have a list of providers mailed, emailed or faxed to you.

You can change your network dentist at any time; changes made by the 15th of the month go into effect the first of the following month. If you need an immediate change, customer service can help 24/7. Remember, if you visit a non-network dentist, your treatment may not be covered at all.⁴

If you'd like to speak with someone, call customer service at **800.997.1617**. You can also follow the phone prompts to use our automated Dental Office Locator. The automated system will speak the names of the dentists in your area, mail, email or fax a list of dentists to you.

Q: If I'm new to the Cigna Dental Care® DHMO Plan, can I keep my current dentist?

A: That depends. If your current dentist participates in the Cigna Dental Care® DHMO network for the State of Tennessee plan, you can choose him/her as your network general dentist. You can look online at [Cigna.com/stateoftn](https://www.cigna.com/stateoftn) to find out, or ask your dental office directly. Sometimes, Cigna's online Dental Office Directory may show that your dental office is not accepting new patients even when their office says they are. If this happens, please contact customer service at **800.997.1617** for assistance.

Q: Do I need a referral to visit a dental specialist?

A: Yes. If you require specialty care, your network general dentist will refer you to a network dental specialist and handle any paperwork. Referrals are required for all network specialists except orthodontists and pediatric dentists.

Q: Do I need to show my ID card when I arrive at the dentist's office?

A: No. ID cards are not required to use the plan. When you call to schedule your appointment, just let your selected network dental office know you are covered under the Cigna Dental Care® DHMO Plan. If for some reason the dental office does not see your name on its list of Cigna Dental Care® DHMO Plan customers, they can call us to verify. You can also call customer service at **800.997.1617** if you need more help.

Q: When do I have to pay the dentist?

A: Typically copays are due at the time services are received. However, it depends on the financial arrangement between you and your network dentist. We encourage you to discuss costs and payment arrangements for dental treatment with your dentist before you receive care. Most dentists will work with their patients to arrange payment plans for more costly treatments.

Q: Will my network dentist submit a claim to Cigna after I receive treatment?

A: No. There are no claim forms required when receiving care from a network dentist.

Q: Are braces covered?

A: Yes. A maximum benefit of 24 months of interceptive and/or comprehensive orthodontic treatment is covered as shown on your PCS. Cases beyond 24 months may require additional payments by the patient, which are based on the dentist's contracted fee and may be different from the copay listed in the PCS. If you or your family member started treatment before you joined the Cigna Dental Care® DHMO Plan (called "orthodontics in progress"), this treatment³ is excluded.

Q: Are dental implants covered?

A: Yes. Surgical placements of implants is covered as shown on your PCS. Limited to one implant per calendar year with a replacement of one every 10 years.

Q: What if I have a dental emergency and can't get treatment from my network general dentist?

A: Emergency services: If you are out of your service area or unable to contact your network general dentist, you may receive emergency services by any licensed dentist for unexpected but necessary services. Emergency services are limited to relieving severe pain, controlling excessive bleeding and eliminating serious and sudden (“acute”) infection. Routine restorative procedures or definitive treatment (such as a root canal) are not considered emergency care and you should return to your network general dentist for these procedures.

Emergency care out of your service area: For emergency covered services, you will be responsible for the Patient Charges listed on your PCS. Cigna Dental will reimburse you the difference, if any, between the dentist's usual fee for emergency covered services and your patient charge, up to a total of \$50 per incident (this amount may vary by state). To request reimbursement, send the dentist's itemized statement to Cigna Dental at the address listed for your state on your plan materials.

Emergency care after hours: There is a copay listed on your PCS for emergency care received after regularly scheduled office hours. This copay will be in addition to other copays that may apply.

Cigna Dental Oral Health Integration Program®

What is the Cigna Dental Oral Health Integration Program?

It's a program that reimburses out-of-pocket costs for specific dental services used to treat or help prevent gum disease and tooth decay. The program is for people with certain medical conditions that may be impacted by dental care. There's no additional cost for the program – if you qualify, you get reimbursed!

Do I qualify?

If you have a Cigna dental plan, you're eligible for the program. It doesn't matter if you have Cigna health insurance or not. The only requirement is that you're currently being treated by a doctor for:

- › Heart disease
- › Stroke
- › Diabetes
- › Head and neck cancer radiation
- › Maternity
- › Chronic kidney disease
- › Organ transplants

How does it work?

Once you register for the program, when you visit your dentist you will pay your usual copay. As a reminder, your copay is the fixed amount you pay for covered services. Next, your dentist will send Cigna your information and we will review the claim and refund your copay for eligible services. Once we receive your claim, you can expect to be reimbursed in about 30 days.

Using the program is as easy as 1, 2, 3!

Together, we can make sure proper dental care is given to those who need it most.

- 1** Participants fill out the online Registration Form on myCigna.com. This is required only one time per qualifying medical condition. You can also call the number on your ID card or policy.
- 2** Once you're logged in on myCigna.com, click "Review my Coverage" then select "Dental" from the drop down menu. Next, from the "Related Links" section on the right side of the page, select "Cigna Dental Oral Health Integration Program Registration Form."
- 3** Program participants simply visit their network general dentist for the covered service and pay the dentist their usual copay amount for that procedure. We'll send reimbursement in about 30 days.

1. Cigna Dental Care® product designs may differ by state of residence of enrollee, including but not limited to, prepaid plans, managed care plans (including Dental HMO plans), and plans with open access features. The Cigna Dental Care® Prepaid plan for the State of Tennessee Group Insurance Plan may not be available in every state. There are no out-of-network benefits, except for emergencies or where required by law.
2. Refer to your plan materials to see if your plan includes orthodontic coverage. The following orthodontic services are generally not covered: orthodontic treatment already in progress; incremental costs associated with optional/elective materials; orthognathic surgery appliances to guide minor tooth movement or correct harmful habits; and any services which are not typically included in orthodontic treatment. Coverage for treatment by a pediatric dentist ends on your child's 13th* birthday. Effective on your child's 13th* birthday, dental services generally must be obtained from a network general dentist.
3. **California and Texas residents:** Treatment for conditions already in progress on the effective date of your coverage are not excluded if otherwise covered under your Patient Charge Schedule.
4. A benefit is paid for covered out-of-network emergency dental care. Certain states mandate coverage for dental care received out-of-network. For example, in Minnesota, the plan will pay 50% of the value of your network benefit for covered out-of-network services. In Oklahoma, the plan will pay the same amount it pays network dentists for covered out-of-network services. You are responsible for any charges not covered by the plan. Other states may have similar mandates. Refer to your plan documents for cost and coverage details.
5. Actual features may vary by dentist. Online appointment scheduling is not available with network general dentists or pediatric dentists. These and other dentist directory features are for educational purposes only and should not be the sole basis for decision making. They are not a guarantee of the quality of care that will be provided to individual patients and you should consider all relevant factors when selecting a dentist.
6. You may be billed separate for lab fees.
