Re: Transmittal of Preliminary Engineering Report  
City of Linden, Perry County  
Wastewater Project Number 24.0163  
Project: Wastewater ARP Projects

---

Receipt is acknowledged on March 28, 2024, of the above-referenced preliminary engineering report. The project is associated with permit TN0064394 and consists of lagoon sludge removal and collection system rehabilitation.

Sludge removal is proposed from cell #1 of the wastewater treatment lagoon. Rehabilitation is based on previous and current investigative work and will consist of approximately 17,250 linear feet of CIPP, 5,800 linear feet of pipe bursting, 250 vertical feet of manhole lining, point repairs and service lateral lining/reinstatements, as necessary.

The Engineering Services Unit has no objection to the chosen alternative. The facility should upload this memo and PER to their ARP grant file.

To expedite matters, please reference the assigned wastewater project number 24.0163 on any future correspondence. If we may be of any assistance, please feel free to contact Mr. Tim Hill, P.E. at (865) 364-9535 or by E-mail at [Timothy.Hill@tn.gov](mailto:Timothy.Hill@tn.gov).
