

STATE OF TENNESSEE
DEPARTMENT OF GENERAL SERVICES, CENTRAL PROCUREMENT OFFICE

**INVITATION TO BID # 32110-13281-13369
FOR SWC 365 Paper & Plastic Goods**

DATE: 07/02/2024

ITB # 32110-13281-13369 IS AMENDED AS FOLLOWS:

1. State responses to questions and comments in the table below amend and clarify this ITB.

Any restatement of ITB text in the Question/Comment column shall NOT be construed as a change in the actual wording of the ITB document.

Comments, Questions and Answers			
#	ITB Section	Question/Comment	Answer
1	Terms and Conditions Section 6.2.	The earliest a supplier can change pricing, for documented increases, is October 1, 2025?	Correct, prices identified in the contract, whether derived from an awarded published catalog, price list, price schedule, or mutually agreed upon source, shall remain firm for 365 days ("Firm Price Period).
2	Terms and Conditions Section 7.2.	Can the state share the average order size under the existing contract? Would the state permit orders under \$50 with a small order fee?	The average order size under the existing contract is \$800.53. Terms and Conditions Section 7.2. lists minimum order as \$50.00. Any order under \$50.00 would not be considered within the scope of the contract.
3	Terms and Conditions Section 7.26.	We request the insertion of "As Applicable" to the requirements around HIPPA.	Terms and Conditions Section 7.26.a. already references "all applicable requirements in the course of the contract." The State sees no reason to insert "As Applicable" to other areas within this term.
4	Terms and Conditions Section 6.2.	We ask to include term "Core" to clarify that the price hold requirements there are specific to core items and not the fixed discount that applies to non-core in 3.19.	The State rejects the inclusion of this term in Terms and Conditions Section 6.2. Per section 3.19 of the Terms and Conditions and Paragraph 9 of the Specifications makes it clear that the bid percentage discount for the catalog is firm for the duration of the contract. Paragraph 7 of the Specifications dictates when the awarded Supplier can update their catalog.
5	Terms and Conditions Section 6.2.	We asked for the inclusion of the following language in 6.2.: "Vendor may	The State will not add this language. The CPO must submit all price increases to a joint legislative committee for review prior to accepting. The CPO does not dictate when this

		adjust prices to reflect changes in buying expense and other factors that affect Vendor's cost. Vendor shall provide supporting documentation for any price increase and will not increase price without the State's prior approval, which such approval will not be unreasonably withheld, conditioned, or delayed. In the event that the State rejects a price increase, Vendor shall have the right to remove the product from the Core List and not sell the product under the Contract."	committee meets; therefore, CPO cannot guarantee how swiftly a price increase will or will not be approved.
6	Evaluation Model	Can the State of TN provide the current manufacturer and Model # when they send out the solicitation?	CPO has added the current manufacturer for the products in the Evaluation Model on the core item list.
7	Evaluation Model	Can the State give clarity around the forecasted spend across all groups of items? Total over 5 years being \$26,593,808 or \$3,495,671.	The State has re-evaluated spend data and revised the estimated liability to \$20,000,000.00. Spend on core items, catalog, and the possibility for price increases/inflation over five years were considered.
8	Evaluation Model	Is column F "Quantity" a representation of previous purchase data or forecasted purchase quantities? If forecasted, can the State share 2023 purchase data by item & group?	Column F "Quantity" is a representation of the estimated annual quantity from the current statewide contract.
9	Evaluation Model	How many shipping locations does the data represented in column F represent? How many total shipping locations	The data represented in column F represents 900 unique shipping locations. This is not all inclusive as local forms of government and universities utilize the contract as well.

		should vendors be expected to deliver to?	
10	Specifications	Are comparable products accepted if no exact match? Can the State share manufacturer item number for products and groups to determine exact and alternative matches?	Comparable products are accepted as long as they meet the specifications detailed in the item description. The manufacturer/brand of products has been added in on the core items on evaluation model.
11	Specifications	Can the State confirm that no additional towel, tissue or trash liners were left off the RFI?	CPO identified the core items based off past spend and order frequency on current contract. Other items can be offered via catalog. No additional paper towels, toilet tissue, or trash liners were left off the RFI.
12	Specifications	Can the State provide a copy of the existing award and product detail list? If listed online, what is the link?	The current catalog is attached as an attachment to this document.
13	Specifications	What is the end usage for 3ml Liners, and is a 1.5 or 2 mil liner acceptable if comparable in quality?	The evaluation model details the annual usage for the 3 mil liners. Please see the evaluation model for those estimated annual quantities. A 1.5 or 2 ml liner is not acceptable if comparable in quality. All core items must meet the item description of the evaluation model
14	Terms and Conditions Section 7.4.	Does the warehouse have a dock and can it accommodate a 53 foot trailer?	The State of TN does not have a central warehouse for delivery of goods purchased under this contract. Delivery locations vary by each Authorized User, and it is unknown whether a 53 ft. trailer can deliver to each location. All items are delivered F.O.B. destination to the State Agency, Tennessee local governmental entities, the board of trustees of the University of Tennessee system, the Tennessee board of regents system, or the state university boards, and nonprofit entities.
15	Terms and Conditions Section 7.4.	If we deliver our products on pallets, do you sponsor a pallet return process?	The State of TN does not have a pallet return process.

2. Summary of Changes.

- Added the current contract core item Manufacturers/Brands and Manufacturer Product Numbers into the core items tab on the Evaluation Model.
- Per question number 7, the State has re-evaluated spend data and revised estimated liability to \$20,000,000.00. Spend on core items, catalog, and the possibility for price increases over five years were considered.
