Wilson County, TN

2024 Data Package

QUICK FACTS

Population: **149,096**

Median Age: **40**

Median Household Income: **\$89,462**

Race and Ethnicity:

White: **83.8%**

Black or African American: **7%**

Asian: **1.9%**

Native American or Alaska Native: **0.1%**

Native Hawaiian and Other Pacific Islander: **0%**

Some Other Race: **2.3%**

Two or More Races: **4.9%**

Hispanic or Latino Origin (of any race): **5%**

HEALTH OUTCOMES

MORTALITY

The number of deaths in a population during a certain amount of time. Metrics included in this section are infant mortality, suicide mortality, and deaths due to fatal drug overdoses.

Leading causes of death: *This metric can be used to see trends in health inequities. Systemic health and social inequities place some populations at higher risk of these diseases or severe illness. Chronic conditions can be exacerbated by social factors and life stressors, which vary among racial and ethnic groups.*

- 1.** Heart Disease
- 2.** Cancerous Tumors
- 3.** COVID-19
- 4.** Accidents (Unintentional Injuries)
- 5.** Stroke

MORTALITY CONTD.

*data only available at the state level

Infant Mortality by Race in Tennessee

Infant mortality is a good indicator of overall population health. It is often used to show disparities in how sub-populations access and receive health care. Maternal and infant health disparities reflect underlying socioeconomic inequities.

MORBIDITY

Morbidity means illness, disease, or a certain health state. Mental health is a state of cognitive, behavioral, and emotional well-being. The following indicators are included in this section: youth obesity, diabetes, and frequent mental distress (experiencing poor mental health for at least 14 out of the last 30 days).

SOCIAL DRIVERS OF HEALTH

The following sections will highlight data as it pertains to healthcare access and quality, health behaviors, one's social environment, and the physical/built environment.

Social Drivers of Health Definition: Social drivers, also known as social determinants of health, are the conditions in which people are born, grow, live, work and age. They include factors like education, socioeconomic status, employment, access to health care, behaviors, and physical, social, and built environments. The reason we are shifting towards the use of "social drivers" is that the word "determinants" suggests nothing can be done to change our health fate. By reframing and saying social factors drive our health we show that social factors are something that people and communities can overcome or change.

HEALTH CARE ACCESS AND QUALITY

Healthcare access is the ability to obtain affordable and high-quality healthcare services. Receiving better quality health care is linked to improved health outcomes. Metrics included are access to care providers, prenatal care, and the uninsured rate.

Shortage Area Rankings —Based on provider to population ratios with **1** being the **worst** and **95** being the **best** .

BEHAVIORAL HEALTH PROVIDERS

This map shows the location of behavioral and mental health providers across the state.

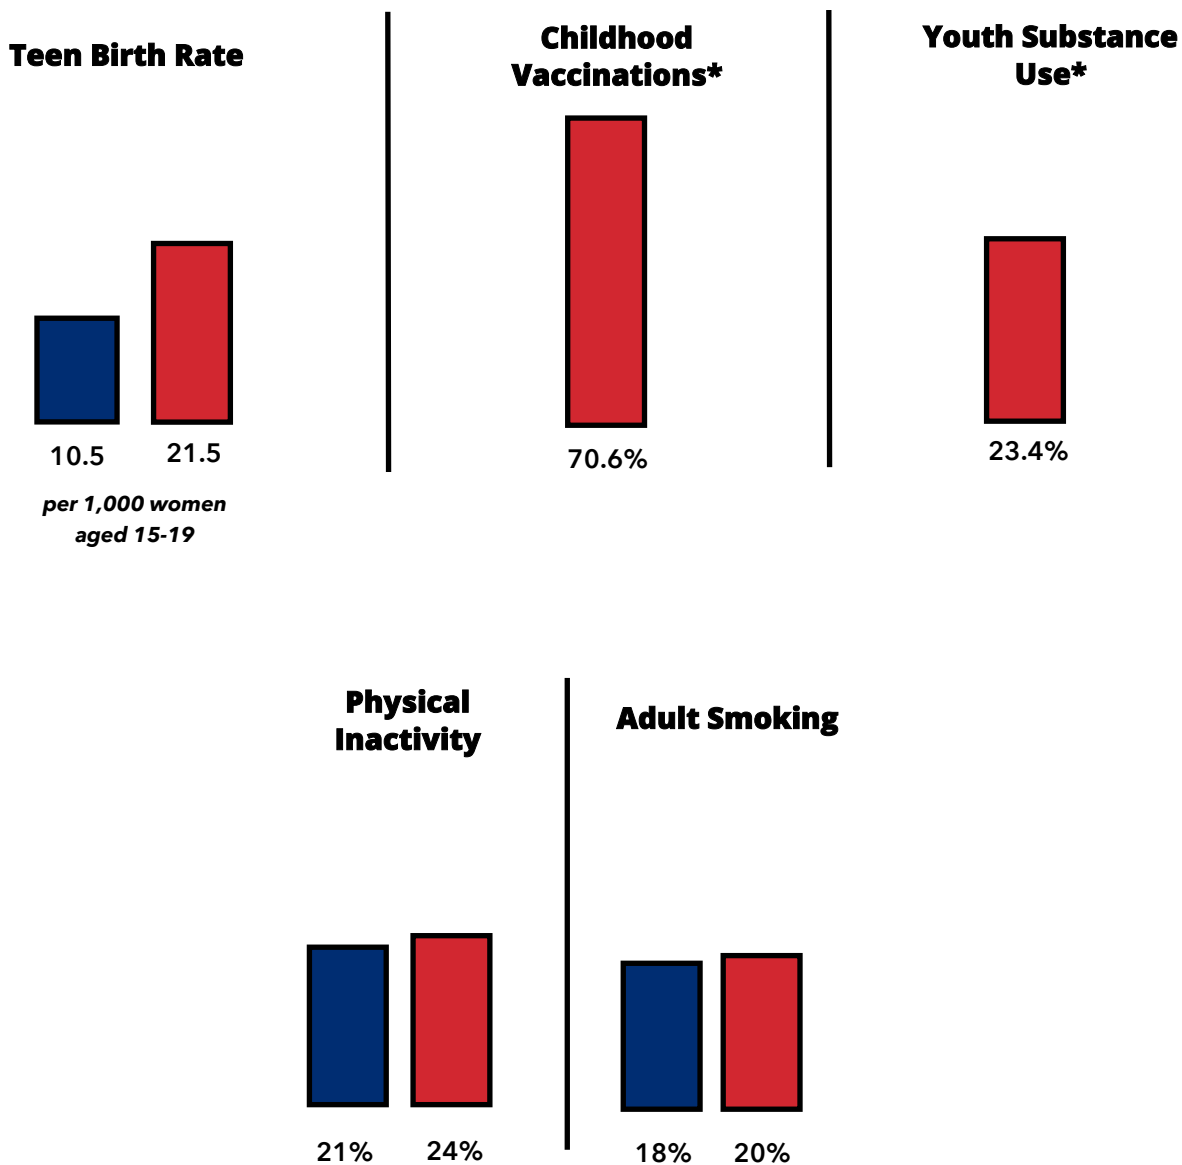

HEALTH BEHAVIORS

* data only available at the state level

Health behaviors are actions that can directly affect health outcomes. Healthy behaviors lower the risk of health conditions, while unhealthy behaviors increase that risk. The following indicators are included in this section: teen births, vaccinations, smoking, physical inactivity (adults participating in no physical activity outside of work), and substance use.

 Wilson County

 TN

SOCIAL ENVIRONMENT

The social environment is someone's immediate physical and social setting where they live, learn, work, and develop. It is the social environment that affects whether people can make healthy choices easily. Metrics included in this section are third-grade reading level, positive childhood experiences (people reporting 5+), high school graduation rate, unemployment rate, adult and child poverty rate, voter participation rate, and population speaking a language other than English at home.

- There are **89 child care providers** in **Wilson County** to serve the **34,685 children** under the age 18.
- Between 2016 and 2020 the **average annual domestic violence victimization rate** for **Wilson County** was **725 victims**, the **average for Tennessee** was **1,163 victims**.

* data only available at the state level

SOCIAL ENVIRONMENT CONTD.

Poverty Rate by Race and Ethnicity in Wilson County

Residents of impoverished communities are at a higher risk for adverse health effects such as mental health issues, chronic disease, higher mortality, and lower life expectancy, for example. According to Healthy People 2030, children make up the largest age group of those experiencing poverty.

Uninsured Rate by Race and Ethnicity in Wilson County

Individuals without health insurance may have trouble accessing quality health care.

PHYSICAL AND BUILT ENVIRONMENT

The built environment includes all physical parts of where we live and work and influences a person's level of physical activity. Metrics included in this section are severe housing cost burden (percentage of households that spend more than 50% of household income on housing), food insecurity, vehicle access, and access to green spaces.

- In **Tennessee** there are approximately **10,567** people experiencing **homelessness**.
- In 2021 **Wilson County** had **NO** drinking water violations.

Metric	Description	Source
Population	Total Population	U.S Census Bureau, American Community Survey, 2022 5-Year Estimates, data.census.gov
Median Age	Median Age	U.S Census Bureau, American Community Survey, 2022 5-Year Estimates, data.census.gov
Median Household Income	Median Household Income	U.S Census Bureau, American Community Survey, 2022 5-Year Estimates, data.census.gov
Race and Ethnicity	% of Population that is in that racial or ethnic group.	U.S Census Bureau, American Community Survey, 2022 5-Year Estimates, data.census.gov
Leading Causes of Death	Top 5 Leading Causes of Death	Centers for Disease Control and Prevention, National Center for Health Statistics. National Vital Statistics. System, Mortality 2018-2021 on CDC WONDER Online Database, released in 2022. Data are from the Multiple Cause of Death Files, 2018-2021, as compiled from data provided by the 57 vital statistics jurisdictions through the Vital Statistics Cooperative Program. Accessed at http://wonder.cdc.gov/ucd-icd10-expanded.html
Infant Mortality Rate	Number of infant deaths with rates per 1,000 live births	Tennessee Department of Health Death Statistics, 2021
Suicide Mortality Rate	Number of deaths from suicide with rates per 100,000 population aged 18 and older	Tennessee Department of Health Death Statistics, 2021
Fatal Drug Overdose Rate	All drug overdose deaths per 100,000 residents	Tennessee Department of Health Death Statistics, 2021, https://www.tn.gov/health/health-program-areas/pdo/pdo/data-dashboard.html
