Director Ward stated that several institutions from out of state have requested approval for students to attend clinicals or field internships in Tennessee.

- Arkansas State University – 63 miles from Memphis. Would like to allow TN residents in their program to attend clinical in the greater Memphis area due to lack of resources in their immediate area.
- Puckett EMS – Operating in Chattanooga and Georgia. They wish to allow their employees that work for their company to attend clinicals on TN units as well due to the fact they will be licensed in both states.
- Ms. Merry Mattix of Southwest TN Community College representing the Initial Education committees spoke in opposition to the previous requests. She cited the current load of students and lack of clinical sites. Minimum competencies have increased for some license levels. Community colleges and service-based programs will increase the need for already limited space. Competition for space in hospitals for clinical time with various other specialties such as nursing. The committee felt as if the requests would not benefit Tennessee.
- Board members asked questions of the Director and others that previously petitioned the Board. Dr. Smith states that he would like to see both Education Committee and outside agencies meet and work together to determine if a solution could be met.

- A motion was duly made by Mr. Ross and properly seconded by Ms. Yeatman to defer back to the education committee for a recommendation. Dr. Smith called for a voice vote. Mr. Rowe abstained from the vote. All others voted in favor of referring the issue back to the education committee.
