# Center for Aging & Community

## **Vision**

The University of Indianapolis Center for Aging & Community is a catalyst for change that leads to a world in which all people age with dignity & optimal health

## **Mission**

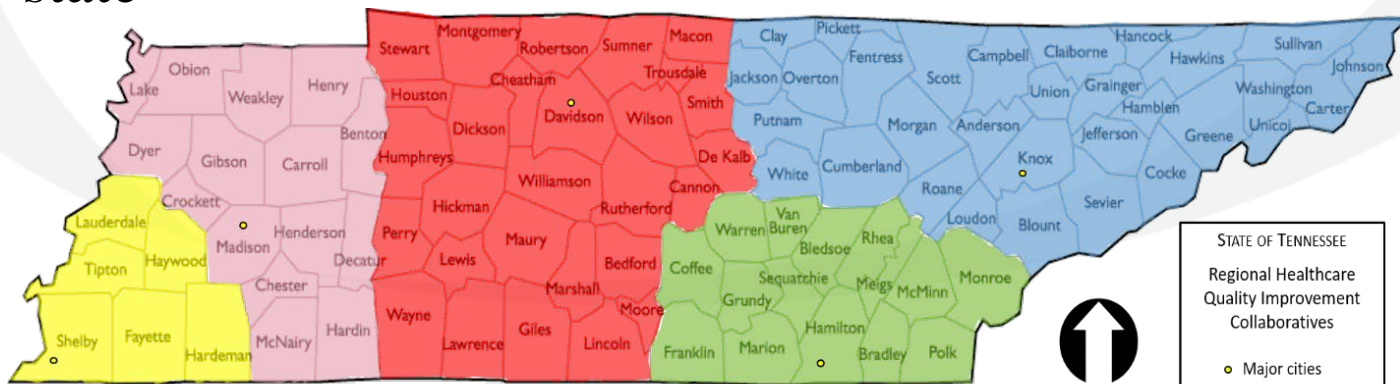

The University of Indianapolis Center for Aging & Community collaborates, educates and conducts research to enhance the quality of life for all people as they age

# Center for Aging & Community

- University of Indianapolis Center for Aging & Community was awarded nearly \$500,000 to implement a statewide system of Regional Healthcare Quality Improvement Collaboratives

# Regional Healthcare Quality Improvement Collaboratives

- Create and support 5 Regional Healthcare Quality Improvement Collaboratives
- Utilize the strength and resources of the Collaboratives to improve quality of care for long term care residents across the state

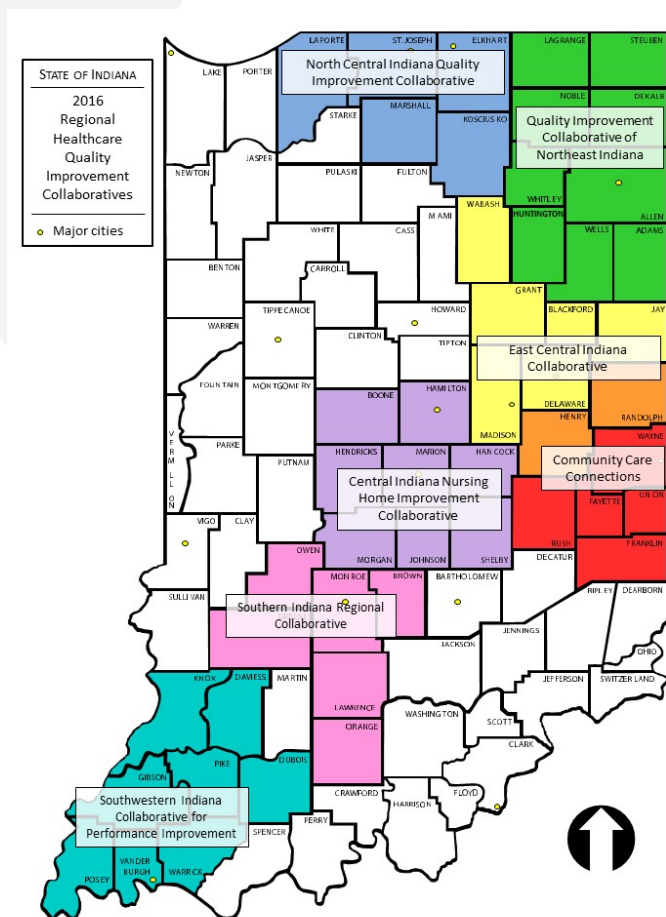

# Regional Healthcare Quality Improvement Collaboratives

- RCs will include a lead agency, LTC facilities, regional stakeholders
- Collectively assess opportunities for improvement, complete two QAPI performance improvement projects
- Funding of \$28,500 per RC to support 18 months of quality improvement activities
- CAC will provide extensive guidance, training, and overall technical assistance needed to create and sustain these Collaboratives

# Regional Healthcare Quality Improvement Collaboratives
