BLENDER'S RETURN

Any person engaged in business in Tennessee as a blender must first obtain a blender's license. Each person blending untaxed materials (including biodiesel, blendstocks, and additives) with taxable petroleum products (on which taxes and fees have already been paid or accrued) must remit the taxes and fees due on the previously untaxed volumes. If the blending process alters the ASTM specifications of the blended product, then applicable taxes and fees shall apply to the altered product.

A person licensed as a blender must file monthly and report the amount of any untaxed petroleum products, biodiesel, blendstocks, or additives blended in Tennessee and pay all taxes and fees which have not been previously paid. The return is due on or before the twentieth (20th) day of the month following the month of activity.
