## Instructions: Motor Oil Fee Return

In accordance with the "Used Oil Collection Act of 1993," every distributor of motor oil must pay a two cent per quart fee on each quart of oil sold in its packaging or used by the distributor. The fee is only collected once on each quart of oil sold, which is generally at the wholesale level. Oil subject to the fee includes any oil used in any internal combustion engine, crankshaft, transmission, gear box, or for an automobile, bus, truck, lawnmower, or household power equipment. Motor oil subsequently exported from Tennessee and motor oil sold by a distributor to be used for the purpose of industrial machinery are exempt from the fee.

The return along with the appropriate fee payment is due quarterly on or before the 25th day of the month following the applicable quarterly filing period (i.e., April 25, July 25, October 25, and January 25). Taxpayers should file and make their fee payments online by visiting the Department's website at [www.tn.gov/revenue](http://www.tn.gov/revenue). Alternatively, they may mail returns and payments to the address listed on the return.

You must sign and date your return. Paid preparers (accountants, attorneys, etc.) must also sign the return. If this is an amended return, please indicate the "Filing Period" and check the appropriate box on the front of this form.
