

Mission Statement Policy 1.000

The Background:

Tennessee Code Annotated § 49-1-302 requires the State Board of Education to develop and maintain a current Master Plan. The Board's Master Plan is regularly updated and posted on the Board website to ensure transparency and accountability. The Master Plan contains statements regarding the Board's mission statement and vision over the long-term, in addition to short-term policy goals.

This policy is up for review as part of the regular policy audit cycle Board staff have implemented in recent years. The current Mission Statement Policy had not been updated since 2005.

The Recommendation:

The SBE staff recommends acceptance of this item on first reading.
