### 13. Service Learning

13.1 Service-Learning

### **Career and Technical Education (CTE)**

CTE courses are listed below by career cluster. All students who enter high school must earn three (3) credits in an elective focus. If CTE is used to satisfy this requirement, students are required to take three (3) credits in a Department of Education approved program of study or career cluster. Students who are concentrating in CTE must complete three (3) credits within a single program of study. All courses are aligned to a primary career cluster. Some programs of study may include courses from multiple career clusters, early postsecondary, and/or academic programs.

In addition to the courses listed below, there are course codes available for postsecondary statewide dual credit and dual enrollment courses in CTE programs of study. Please see the Department of Education's course code correlation for a full list of available course codes.
