

**Career and Technical Education (CTE) Standards Revisions**

**The Background:**

The Career and Technical Education standards were presented to the State Board at the November 2019 meeting for review. Most of the courses presented on first reading in November 2019 are included with this item.

- The standards for Pharmacological Science have been revised since first reading based on advisory board and industry feedback and to improve the flow and organization of the standards.
- Personal Finance standards are being held for final reading in May 2020 to allow time to further stakeholder input.
- The other course standards presented with this item have not had changes since first reading.

<b>Agriculture, Food, &amp; Natural Resources</b>	
Principles of Food Production	Revised Standards
