
SBE Educator Preparation and Licensure Subcommittee Meeting – October 12, 2021

The Background:

According to State Board Meeting Policy 1.400, the State Board may develop special committees, termed subcommittees, to discuss specific issues in-depth. The Educator Preparation and Licensure Subcommittee was formed in 2017 to discuss the many issues related to educator preparation and licensure the State Board oversees, including rules and policies as well as the Educator Preparation Report Card.

Ms. Lillian Hartgrove chairs this subcommittee, which met on October 12, 2021 and heard a number of presentations from staff at the State Board and the Tennessee Department of Education, in addition to updates from several educator preparation providers and other entities that recently received grants from the Department to develop content aligned to literacy requirements.

Ms. Hartgrove will provide an oral report on the subcommittee meeting.

The Recommendation:

This item is for informational purposes only; no action is required.
