
Uniform Clothing for Public School Students Policy 4.203

The Background:

Pursuant to T.C.A. § 49-1-302, local boards of education may adopt and enforce a policy for uniform clothing for public school students. Local uniform clothing policies shall comply with the requirements enumerated in this policy.

This policy was last updated in 1997, and the proposed revisions are to bring its formatting and style in line with current standards. There are no substantive changes; rather, some superfluous language was removed to clarify expectations.

The Recommendation:

State Board of Education staff recommends adoption of this item on final reading.
