HOW TO READ THIS REPORT

The Teacher Preparation Report Card contains four (4) domains: Candidate Profile, Employment, Satisfaction, and Provider Impact. Each domain is comprised of multiple metrics. To date, data has not been collected for the Satisfaction domain, so it will be unscored this year. A provider must have at least ten total completers and must generate a score on at least one half of the metrics in each domain in order to generate an overall performance category rating. For more information, please refer to the [technical guide](#).

Providers are awarded a performance category based on their ability to successfully prepare Tennessee educators. This is calculated using the percentage of points earned across all metrics. Category 1 represents the lowest performance, and Category 4 represents the highest performance.

The 2016 Teacher Preparation Report Card will include data on two cohorts of completers (2013-14 and 2014-15). Performance on each metric is displayed in the format shown in the graphic on the right.

- ① The provider's score on the metric is noted by the dark blue circle.
- ② The state average is marked with a vertical gray line.
- ③ If the provider scores below the minimum standard, zero points are earned for the metric. If the provider scores at or above the target, all possible points are awarded.
- ④ If the provider scores within the shaded range, it earns a proportionate share of the points available.
- ⑤ Below the graphic is an example of the proportionate points earned for the illustrated case.

Completer Placement Across Tennessee

Nashville Teaching Fellows is a rigorous alternative certification program that recruits and trains talented career changers and recent college graduates to be outstanding teachers in high-need schools in Metro Nashville. As participants in the program, Fellows attend a rigorous five-week Pre-Service Training program to prepare for their own classroom in the fall. This training is centered on field experience where teachers learn high-leverage techniques that advance student learning. During the course of summer training, Fellows practice these techniques intensively, both with peers and with students in their summer school classrooms, and are coached in and outside the classroom by experienced teachers. Upon successful completion of summer training, Fellows continue to receive intensive coaching and content area support during the school year. Through a variety of evaluation measures Fellows must demonstrate that they are effective teachers in order to pass the program.
