Pre-k access along with STEM opportunities in elementary and middle schools can improve math proficiency. Many local public libraries offer creative programming and contests to encourage children and youth to read more. The Tennessee State Library and Archives supports local libraries with training and materials for summer reading programs. The Tennessee STEM Innovation Network offers resources and support to help schools implement STEM programs locally. In addition, the Tennessee Department of Education supports summer learning camps for all students but especially to support those who have fallen behind.

## Indicator Definitions and History

**Children living in poverty** - Percent of children living in a household below the federal poverty line. In 2022, the federal poverty level for a family of 3 was \$23,030. Source: US Census Bureau Small Area Income and Poverty Estimates (2022).

**Severe housing cost burden** - Percent of households (including rented, owned and mortgaged) spending 50% or more of their income on housing. Source: American Community Survey, 5-year estimates (2018-2022). Table B25140.

**Child care cost burden** - Child care cost burden reflects the average estimate market-rate price for care for full-time care of an infant and 2+ year old but less than school age child as a percentage of the county's estimated median household income. The market-rate is calculated by taking an average of the median market-rate fee for licensed providers in the county. When available, this includes Child Care Centers, Group Homes, and Family Homes. In instances where the county does not have all three, the providers existing in the county averaged. In instances where there are no licensed providers providing care to that age group in the county, the statewide average of Tier 2 market-rates are used. This average rate for infant care and 2+ care is then combined to get the total cost of care. Source: Determining Child Care Market Rates in the State of Tennessee (FY2022-23).
