RE: OS/OW Permit Amendments
September 15, 2016

Amendment Requests Within the First 8 Hours

Changes to the following information would NOT require staff review within the first 8 hours after a permit has been issued. Amendment requests of this type will be auto-approved.

- Start Date
- Vehicle/ Equipment Information

Changes to the following information WOULD require staff review within the first 8 hours after a permit has been issued. Amendment requests of this type would follow the standard permit workflow.

- Width
- Height
- Length
- Weight
- Number of Axles
- Axle Spacings
- Axle Weights
- Origin
- Destination
- Route

Best Practice for Accuracy

Once a permit has been created, but before final submission, double check the following information.

- Company Name
- Origin
 - If origin is in Tennessee, a street address must be provided.
- Destination
 - If destination is in Tennessee, a street address must be provided.
- Route (provide all secondary roads)
