

## INSTRUCTIONAL BULLETIN NO. 01-26

### Regarding List of Current Revision Dates For English Standard Roadway Drawings

Attached hereto is a copy of the standard list with revised dates. The new, revised or voided drawings are **effective** for the **December 7, 2001 letting**. The design manager responsible for the project must use the current standard drawings for the September 14, 2001 and October 26, 2001 lettings. The pay items used on these revised drawings will not function currently. The use of these drawings prior to the December 7, 2001 letting will cause the plans to have to have a letting revision performed on them. The designer is to keep and continue to use instructional bulletin nos. IB00-5, IB01-3, IB01-4, IB95-5, IB91-6, IB91-9, and IB91-13 until the December 7, 2001 letting at that point they are to be discarded.

**The new drawings are underlined in their entirety and the revision dates of the revised drawings are underlined. If old drawing name has been changed it will be underlined.**
