

Out of State Asphalt Cement Terminals

Last Updated 6/14/2024

The following asphalt cement terminals are significantly distant from the borders of Tennessee that TDOT does not routinely monitor them inside the Department's asphalt cement verification program. However, the Department has reviewed their Quality Control Plans and find them to be in general compliant with the requirements. These plants can supply materials to TDOT projects with the required notification to the TDOT Materials & Tests Bituminous Section as detailed in the Inactive Terminal section of TDOT SOP 3-1.

Company	Location
Blacklidge Emulsions	Greer, SC
Ergon Asphalt and Emulsions	Vicksburg, MS
Phillips 66	Jeffersonville, IN
Russel Standard	Greensboro, NC
