

# Design Public Meeting

## State Route 11 (US-31A) (Nolensville Pike)

### Williamson / Davidson County

March 2, 2017 5:00 - 7:00 P.M.

**T**hank you for attending the Design Public Meeting for the State Route 11 (US-31A) (Nolensville Pike) widening Phase II from South of Burkitt Road to North of Mill Creek.

The proposed project includes modifying the existing two-lane principal arterial to a five-lane curb and gutter section which includes two twelve foot wide travel lanes in each direction, a center left turn lane, six and half foot wide sidewalks with cross walks at signalized intersections, and ten foot wide shoulders which will incorporate bike lanes. A twelve foot shared used path will continue from SR-253 (Concord Road) along the south side of SR-11 (Nolensville Pike) to the Mill Creek bridge. Additional turn lanes will be added to major intersections where existing and forecasted future traffic warrant them. A new traffic signal will be added to the SR-11 (Nolensville Pike) intersection at Pettus Road. The widening of SR-11 (Nolensville Pike) will also incorporate a new street lighting design.

In total, the proposed improvements for Phase II will include approximately 2.0 miles of roadway construction work.

**T**he purpose and need for the project is as follows:

- **Increase Traffic Capacity** – Widen the existing roadway from two to five lanes with increased turn lane storage.
- **Improve Safety** – Addition of right turn lanes, interconnected signalization, street lighting, and multimodal facilities for pedestrians and bicyclists.
- **Improve Traffic Operations** – Addition of a center turn lane with dual left turn lanes at warranted intersections, and improved signalization phasing.

### We want your feedback!

Participate in the question and answer period, speak with the court reporter, and/or fill out a Comment Card to ensure your comments are part of the official record.

### PROJECT DEVELOPMENT PROCESS

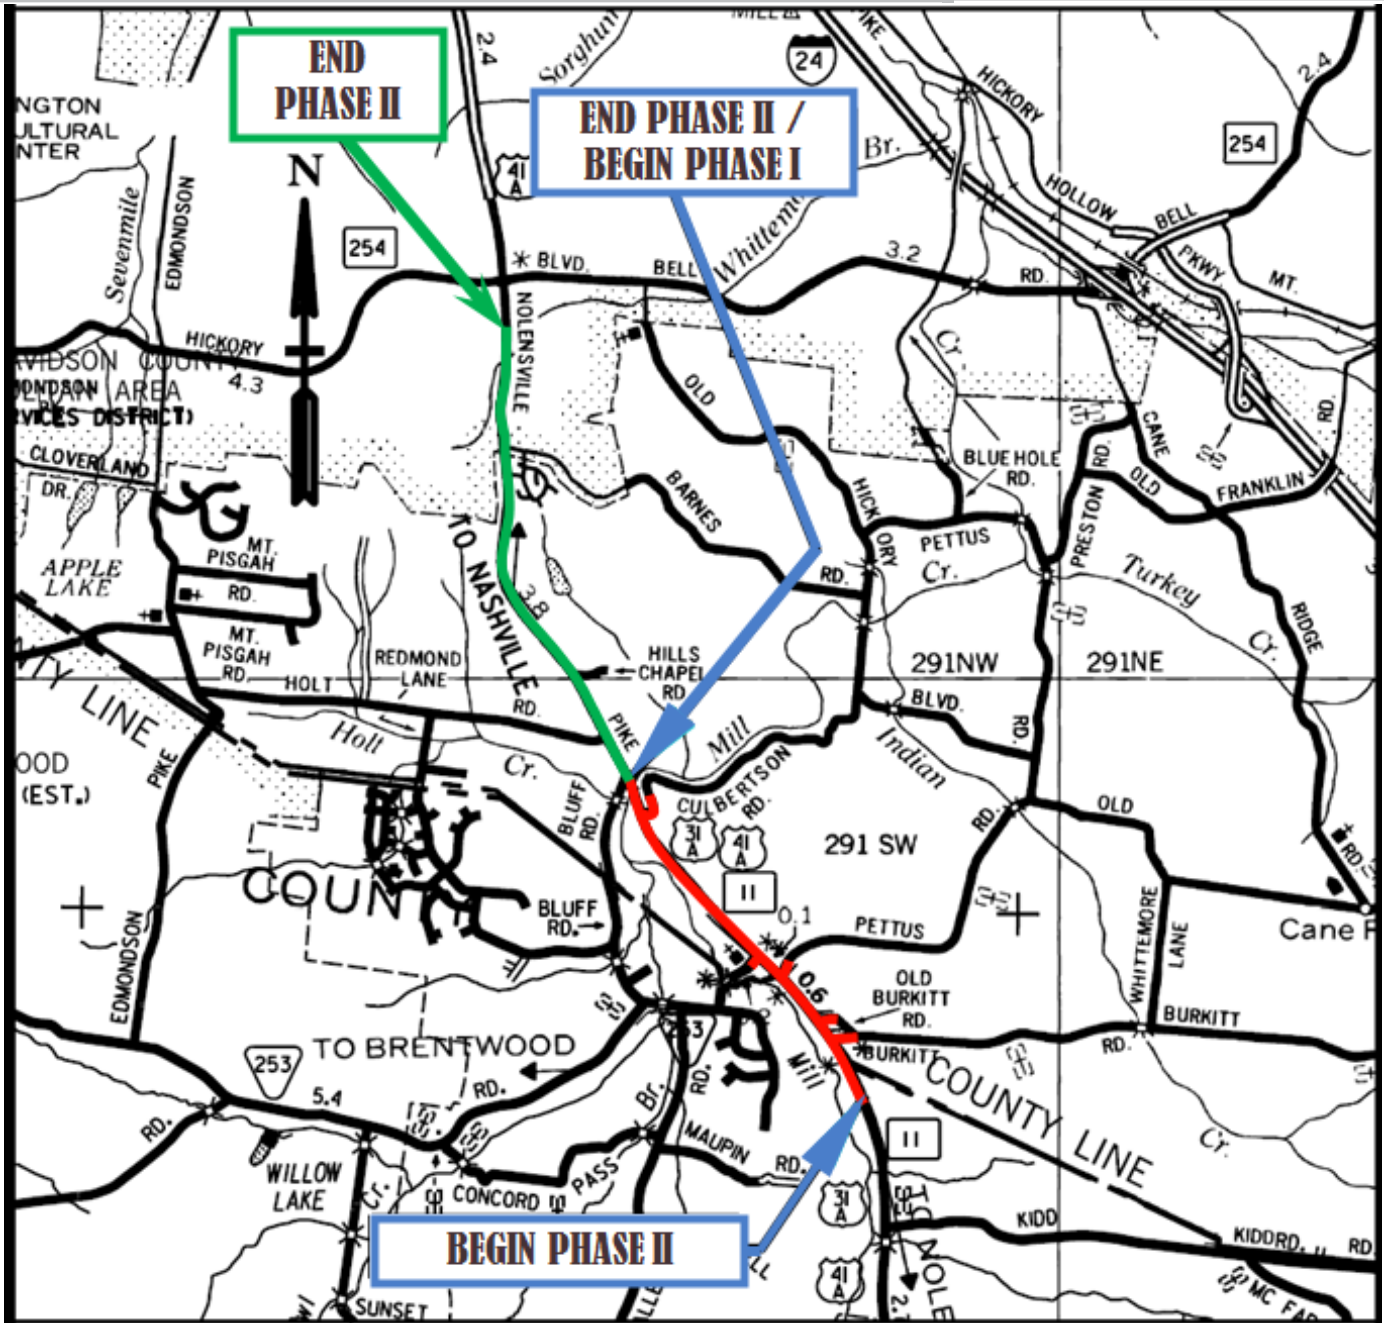

We Are Here

### PURPOSE OF TODAY'S MEETING:

- Inform the general public of the proposed improvements for the SR-11 (Nolensville Pike) widening.
- Review the project displays
- Receive input from the public
- Answer questions and address concerns

# S.R. 11 Williamson/Davidson County, TN
