## **DISCUSSION ITEMS**

### **Federal Family Education Loan Program Update**

Ms. Jane Pennington was recognized to provide the update on the Federal Family Education Loan Program. Ms. Pennington stated that as of January 1, 2012, TSAC's portfolio included over 600,000 loans with an estimated value of \$3.6 billion. She also reviewed the Federal Information Security Management Act (FISMA) readiness review and noted that an experienced FISMA compliance consultant will be advising and assisting us in preparing for the upcoming review by the U.S. Department of Education within the next couple of months.

Ms. Pennington then noted that two new NGS staff will be assigned to assist the Loan Division in providing services for borrowers, schools, and lenders. Additionally, a third NGS staff member will be assigned to assist TSAC in loan analysis and to test changes and updates to the servicing system as part of an on-going effort to work with NGS to improve the processes that they perform under.

Ms. Pennington then commented on the Access database developed to improve the accuracy and efficiency of all TSAC loan processes. She also commented that the TSAC Loan Division is working with Tennessee public postsecondary institutions to provide assistance during peak processing times or periods of reduced staffing to assist borrowers and schools in the reduction of defaults in Tennessee. She briefly discussed the license revocation program and noted that payments will be directed to the collection agencies, and the agencies will provide specific, regular updates back to TSAC, so that the information can be downloaded directly into the Access database.

In closing, Ms. Pennington stated that the Loan Division submitted two Voluntary Flexible Agreement proposals to the U.S. Department of Education: one in conjunction with eleven other guaranty agencies, and the other as a stand-alone proposal. She noted that the USDOE did not accept the first round of VFAs and has provided little clarification on what they would approve. TSAC has not submitted a revised RFP and will continue to operate under the current pricing and regulation structure.

### **Grants and Scholarship Programs Update**

Mr. Phelps provided an update on the Grants and Scholarship Programs. He stated that for the 2012-2013 academic year, Tennessee Student Assistance Awards have been offered to students who completed the FAFSA by February 1<sup>st</sup>, noting that this is the earliest date TSAC has completed awarding the grant. He also noted that the amount awarded does not include the \$3.4 million increase recommended in the Governor's Budget.

He commented that for the 2011-2012 academic year, TSAC anticipates disbursing approximately \$55 million in TSAA funding to an estimated 31,000 students. Mr. Phelps also noted that for the 2011-2012 academic year, Tennessee Education Lottery Scholarship expenditures are estimated at \$340 million. We will continue to monitor expenditures and, if needed, provide an updated number to the Funding Board at the April meeting. In closing, he stated that the current 2011-2012 data for the Merit and Loan Forgiveness Programs indicate TSAC will make just over 1,000 awards totaling just under \$3 million.

### **2012 General Assembly Legislative Update**

Mr. Abernathy was recognized to provide the 2012 General Assembly Legislative Update. He stated that the second session of the 107<sup>th</sup> General Assembly has produced approximately 20 bills pertaining to the Tennessee Education Lottery Scholarship (TELS) Program and other student financial aid issues. Mr. Abernathy then gave a brief summary of the significant bills now pending with the General Assembly.

### **2012-13 Budget Update**

Mr. Abernathy was recognized to provide the 2012-13 budget update. He stated that the Governor's recommended budget includes several changes for 2012-13. Mr. Abernathy then reviewed the changes which include: \$3.2 million increase in the base appropriation of the Tennessee Student Assistance Awards (TSAA), \$3.4 million recurring improvement to TSAA, and a state-wide 2.5% salary increase. He also stated that budget reductions include an approximate one percent base reduction to TSAC's administrative code (\$11,100) and three vacant positions are being abolished.

### **Internal Audit Update**

Ms. Ann Collett was recognized to provide an audit update. She briefed the board on the State Audit Financial and Compliance Audit Report for TSAC. She stated that the report was released by the Comptroller of the Treasury on February 13, 2012 and the TSAC Board was notified of the release. Ms. Collett stated that a report is due to the Comptroller of the Treasury and to the Fiscal Review Committee by April 30, 2012, on the implementation of the three findings in the FY11 report.

Ms. Collett then commented on the audit committee meeting held December 2 and noted that the meeting served as an orientation and working session to discuss the background and responsibilities of the audit committee and the role of the internal auditor. Staff provided overviews of the THEC and TSAC divisions. Staff reviewed with the committee the draft of the TSAC FY11 financial statements and the work programs for both agencies. The accounting issue in Finding 3 related to averted claims in the loan FFELP program was also discussed.

In closing, she discussed the Information Security Review by the Department of Education and noted that the Department will be sending a team of Federal Student Aid (FSA) staff in April to visit each of the guaranty agencies to perform a high level evaluation of certain operational controls related to its data security environment with a specific focus on protection of Personally Identifiable Information (PII) managed on behalf of FSA.

**Conflict of Interest Policy Statement**

Mr. Abernathy announced that the disclosure statements are required by law. He noted that they are due in mid-April and asked the board to sign and return.

**NEW BUSINESS**

**Funding of Robert C. Byrd Honors Scholarship Program**

Mr. Abernathy stated that Congress eliminated the Robert C. Byrd Honors program in the 2010-11 academic year. He noted that when the program was eliminated, there were still quite a number of students participating. Mr. Abernathy commented that TSAC would like to continue to fund the students throughout their baccalaureate experience by way of transferring the cost from the operating fund for the next three academic years. The total expenditure to fund the remaining students is estimated at \$2.3 M. Mr. Wilson made a motion to approve staff recommendations. Dr. Gray seconded the motion; the motion was duly adopted by the following roll call vote:

**DECISION ITEM A:** Proposed and Emergency Rules for Procedures Affecting Professional Licenses

**Staff Recommendation:** (1) That the TSAC Board of Directors adopts Rule 1640-1-23 as Proposed and Emergency Rules.

(2) That the TSAC Board of Directors authorize the Executive Director to make any necessary technical corrections to these rules including changes required by the Tennessee Attorney General.

**Background:** T.C.A. §§ 56-1-312 and 63-1-141 require TSAC to notify the Department of Commerce and Insurance and the Department of Health, respectively, when a license holder is in default on a Federal Family Education Loan Program loan or any other state or federal educational loan or service-conditional scholarship program.

Tennessee 2012 Public Chapter 519 expands that notification requirement to other state licensing authorities, including the State Board of Education, Ethics Commission, Secretary of State, and Supreme Court.

These rules outline the steps to be taken in this notification process. The rules will be submitted to the Tennessee Attorney General and Secretary of State upon approval by the TSAC Board of Directors.

**DECISION ITEM B:** Proposed Budget Request for 2013-2014

**Staff Recommendation** (1) That the TSAC Board of Directors recommend 2012-2013 funding levels as presented in the document entitled *Tennessee Student Assistance Corporation Estimated 2012-13 and Base 2013-14 Budgets*.

(2) That the TSAC Board of Directors recommend a \$33.6 million budget improvement for fiscal year 2013-14 for the Tennessee Student Assistance Award program.

(3) That the TSAC Board of Directors authorize its Executive Director to make any necessary technical corrections.

### **Background**

The Tennessee Student Assistance Corporation is required to submit its budget request to the Department of Finance and Administration by October 1, 2012.

The attached document indicates funding levels for all TSAC divisions for the current 2012-13 and base 2013-14 fiscal years.

Additionally, TSAC staff recommend an increase of \$33.6 million for the TSAA program in fiscal year 2013-14. It is anticipated that this request would be the first of five years of similar recurring requests in order to attain funding for all unfunded eligible applicants.

The Department of Finance and Administration has requested that state agencies identify a 5% reduction to state appropriations for the 2013-14 fiscal year. TSAC will comply with this request by submitting a reduction plan of \$62,500 from administrative expenses in Division 332.05. No budget reductions will be made in any of TSAC's grant programs.

**Establishing Funding All Eligible TSAA Applicants**

The Tennessee Student Assistance Award (TSAA) is Tennessee's primary need-based financial aid program, serving residents of Tennessee attending in-state institutions. Funding for the TSAA program in Fiscal Year 2012-2013 includes state appropriations of \$52,762,500 and \$6,800,000 from lottery funds for a total of \$59,562,500. This amount is projected to serve approximately 32,000 students; however, in the most recent academic year 135,000 students applied and were eligible for the grant but were not awarded.

TSAC's goal, consistent with the Complete College Tennessee Act (CCTA), is to support efforts to increase timely degree production among these students. This funding request will enable TSAC to serve the neediest students who are at risk of failing to complete their postsecondary education because of personal financial limitations.

Based on projected acceptance rates, funding these eligible students would require an additional \$168 million or a recurring annual increase of \$33.6 million each year for the next five years.

**DECISION ITEM C:** 2013-14 TSAA Over-commitment Ratio

**Staff Recommendation**

1. That TSAC continues to use the same TSAA over-commitment ratio of 153% used in 2012-13 for the 2013-14 academic year.

2. That \$4,500,000 from the Tennessee Student Loan Program (TSLP) reserve be made available as an additional resource for 2013-14 TSAA awards.

**Background**

In order to fully expend available TSAA resources, it is necessary to offer more aid to students than is available to be spent. This reflects the fact that some students who are offered aid will not accept it.

Complete funding levels have not been determined for the 2013-14 academic year. Once all sources of funding have been approved, TSAC will make additional awards to students with the approved over-commitment ratio.

## Tennessee Student Assistance Corporation

Thursday, September 27, 2012

**DISCUSSION ITEM A:** Federal Family Education Loan Program (FFELP) Update

**Staff Recommendation** For discussion only.

### Loan Summary

As of August 31, 2012, TSAC's loan portfolio included over 539,000 loans with an estimated value over \$3.3 billion. This represents over 206,000 active borrowers.

### Work in Progress

The U.S. Department of Education conducted a one-day site visit in April to review controls over data security, focusing on Personally Identifiable Information. One recommendation was for TSAC not to use the Access database for tracking information. The Loan Division is in the process of converting the Access database to SQL, which is more secure and stable for the amount of monitored volume.

Through our full servicing contract, TSAC has two new staff members assisting the Loan Division in providing client relation services for borrowers, schools, and lenders. Additionally, a third NGS staff member is assisting the loan division in portfolio analysis and to test changes and updates to the servicing system. This is part of an on-going effort to work with NGS to improve the processes they perform.

### Technology Upgrades

The Loan Division has begun the process of migrating the Access databases into the Structured Query Language (SQL) format. We anticipate 25 additional licensing boards will be added to the license program. This change will provide increased security, more flexibility, and more capacity to house the data as the program expands.

In our continued efforts to streamline and improve the Loan Division processes, we are utilizing secure encrypted technology to transfer files to and from collection agencies. This information is now updated weekly into our databases allowing for quicker assessment of borrower data and improved services to TSAC borrowers.

### Default Aversion Field Representatives

The Loan Division has hired three field representatives through the Default Aversion contract to help schools decrease their student loan default rates. The representatives bring expertise from a guarantor, lender, and school perspectives.

### Other Items

TSAC's 2-year cohort default has dropped from the previous year according to the U.S. Department of Education's most recent publication.

	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>
TSAC	9.7	9.4	8.4	7.5
U.S. Avg.	6.7	7.0	8.8	-

In these same national rankings, TSAC has moved from fifteenth to twelfth in rehabilitating defaulted borrowers. Our goal is to move into the top ten following the next quarter. The rehabilitation program allows defaulted borrowers to bring their loans out of default and back into satisfactory status. We have currently rehabilitated almost one million dollars more in student loans than for the same period last year.

**DISCUSSION ITEM B:** Grants and Scholarships Summary Update

**Staff Recommendation** For discussion only.

**Background**

Tennessee Student Assistance Awards (TSAA) totaling about \$95 million were awarded to 48,000 students for the 2012-13 award year. Funds were awarded to students who applied through February 9, 2012.

Total funding available for the TSAA program for 2012-13 is approximately \$62 million. The Board approved a 153% over-commitment which resulted in awards of \$95 million. Of this amount TSAC estimates that approximately \$58.5 million will actually be utilized.

The year-end figures for 2011-12 indicate 91.5% actual expenditures, which represents about 28,800 students receiving \$53.5 million.

The Tennessee Education Lottery Scholarship (TELS) concluded the 2011-2012 award year by providing awards to about 103,000 students totaling \$313 million.

**DISCUSSION ITEM D:** Internal Audit Update

**Staff Recommendation:** For discussion only.

**Background:** An update will be provided on audit issues and related matters.

**Supporting Document** *Internal Audit Update;*  
September 2012

## **Internal Audit Update**

### **U.S. Department of Education Program Review**

A team from the U.S. Department of Education Office of Federal Student Aid (FSA) conducted a program review of TSAC the week of September 10-13, 2012 in order to assess TSAC's administration of the Federal Family Education Loan Program. The team conducted interviews and examined financial and program records. An exit conference was held where preliminary observations were discussed.

### **U.S. Department of Education Information Security Review**

TSAC received the Executive Report from FSA in July on their visit to TSAC in April 2012. The purpose of the review was to evaluate certain operational controls related to the data security environment with a specific focus on protection of Personally Identifiable Information (PII) managed on behalf of FSA. Another objective of their visit was to raise the level of information security awareness of their partners. The report contained recommendations based on their observations that they wanted to bring to the attention of TSAC leadership in its ongoing relationship with FSA only. The review was not considered an audit.

TSAC provided a written response to that report on August 17, 2012.

### **FFELP Averted Claims Project**

TSAC has not received notification regarding the request submitted in 2011 to transfer the final amount for the last three years of the project. The USDOE has indicated the review has been completed and turned over to the committee that makes the final decision.

An internal audit report was prepared that addressed borrowers affected during the FY05-10 time period. It also served as a follow up on current procedures. This report was provided to the audit committee and to State Audit.

### **State Audit Financial and Compliance Audit for TSAC for the fiscal year ended June 30, 2012**

The audit is in progress.

### **THEC/TSAC Audit Committee**

The committee will meet later this year.

**DISCUSSION ITEM E:** License Suspension Update

**Staff Recommendation** For discussion only.

**Background** TCA §§ 56-1-312 and 63-1-141 direct TSAC to work with the Department of Commerce and Insurance and the Department of Health, respectively, to pursue disciplinary action against the professional licenses or certificates of individuals who have defaulted on their federal student loans.

TSAC first sends a notice to defaulted borrowers notifying them of their default status and that action may be taken against their professional license if they do not respond to TSAC within 90 days of receipt of the notice. To prevent a disciplinary action, the borrower must pay their balance in full, establish a reasonable payment plan, or request a hearing.

If the borrower fails to contact TSAC within the statutory 90 day period, TSAC sends an Order of Default to the respective department requesting that the licensing board take administrative action against the license of the defaulted borrower. If, after the administrative action is taken against the license, the borrower enters into a payment plan or pays the balance in full, TSAC issues an Order to Rescind Suspension to the respective department asking for the administrative action to be lifted.

Tennessee Student Assistance Corporation  
Top to Bottom Review  
Strategic Goals

In January 2010, Tennessee passed the Complete College Tennessee Act (CCTA), a comprehensive reform agenda that seeks to transform public higher education through changes in academic, fiscal, and administrative policies at the state and institutional level. The impetus behind these reforms is to ensure Tennesseans are better educated and trained for an evolving workforce.

Central to the CCTA is the Completion Agenda for higher education which links the state's economic development and its educational system. The Tennessee Student Assistance Corporation (TSAC) seeks to support the Completion Agenda by supporting increased degree production and timely degree attainment. This statement signals a fundamental change in the way TSAC views its role, from a primary focus on access to a focus on completion. While TSAC will continue to assist with access to higher education, no longer will success be defined simply in terms of the number of awards made, but instead on the ultimate success of the students awarded. This will be measured by improvements in academic progress and program completion.

The points outlined below demonstrate TSAC's determination to align its resources with higher education's goal for success through completion.

Goal 1 – TSAC will engage in activities intended to promote financial literacy and keep Tennessee's average debt for graduating seniors among the lowest in the nation.

Tennessee's average debt for graduating students in 2010 was ninth lowest in the nation, at \$19,957 (the national average was \$25,250). Given the reality of continued rising tuition and the constraints on funding for financial aid, the burden on students to fill the gap will only increase. TSAC is determined to maintain as low a debt burden as possible relative to the national average.

TSAC proposes the following strategies to minimize Tennessee student loan debt:

1. Continue our current outreach programs to improve student financial literacy.
  - a. TSAC will maintain its presence at all postsecondary institutions and high schools in the state and increase its presence to 100% of middle schools. Currently, TSAC is reaching over sixty percent of Tennessee's middle schools.
  - b. TSAC will include student debt and loan information in all financial aid presentations to help students understand the risks involved in borrowing for education.
  - c. TSAC will collaborate with Tennessee's TNStars 529 college savings plan by adding information to TSAC's website and annual brochure, and by providing information on the TNStars program at financial aid workshops.
  - d. TSAC will explore ideas with tnAchieves to determine how our staff can help facilitate their mentoring and outreach efforts.

2. Continue our efforts to improve Tennessee's FAFSA completion rate.
  - a. TSAC will continue to coordinate efforts with high schools, postsecondary institutions, and others to improve the College Goal Tennessee (CGT) program and FAFSA workshops.
    - i. Tennessee ranks first in the nation in FAFSA completion, at 62%. The U.S. Department of Education reports that approximately ninety percent of FAFSA completers enter postsecondary education.
    - ii. While using the FAFSA as the standard application for the HOPE scholarship Tennessee's Pell grant awards have increased by approximately \$52.7 million from 2004 through 2009.
    - iii. TSAC believes it is vital to continue using the FAFSA as the primary application for state-based grants.
  - b. TSAC will work to maximize the number of high schools sponsoring FAFSA workshop presentations.
  - c. TSAC will work to maximize the number of postsecondary institutions sponsoring CGT events.
  - d. TSAC will work to increase attendance at each FAFSA workshop and CGT location.
  
3. Continue to help students avoid loan defaults which result in added interest, penalties, collection costs and higher student debt burdens. TSAC's default rate has declined from 9.7% to 7.5% from 2007 through 2010, while the national average increased from 6.7% to 8.8% from 2007 through 2009 (2010 national average is not yet available).
  - a. TSAC will continue to work with the default prevention vendor to increase activities provided directly to students and schools.
  - b. TSAC will continue to provide financial aid counseling, including the use of programs like "Dollar Sensei" to postsecondary institutions.
  - c. TSAC will continue to improve the license suspension program in order to maximize loan rehabilitation and bring students out of default. This will not only correct negative individual credit ratings but enable students to qualify for additional Title IV and state-based assistance as they continue their education.

Goal 2 – TSAC will maximize assistance to underserved students by awarding one hundred percent of renewal applicants and allocating remaining funds to those with an Expected Family Contribution of zero.

The Tennessee Student Assistance Award (TSAA) is the Tennessee's primary needs-based financial aid program with current total funding at approximately \$59.6 million. This funding serves about 32,000 students; however, in the most recent academic year 135,000 eligible students who applied were unable to be awarded.

TSAC proposes the following strategies to reach as many underserved students as possible with existing resources:

1. Establish a payment methodology that identifies the neediest students who also are the most likely to succeed to degree completion.

- a. Establish an application deadline and make awards based on renewal applicant status and seniority. Renewal students are defined as those who received the award in the immediate preceding academic year.
  - b. Subsequent priority will be given to students who have received the award in any prior academic year, and final priority going to students who have never received the award.
  - c. Each category of students will also be sorted by Expected Family Contribution (EFC) to ensure that funds are directed to the neediest students. Students with a “zero” EFC would be awarded first in all categories. Any remaining funds will be awarded to students with EFCs greater than zero.
2. Continue to explore other options for increasing TSAA’s outreach to underserved students.
  - a. Consider tying future budget requests to goals for a specific number of recipients or percentage of eligible students.
  - b. Consider alternative awarding methodologies that would increase the number or amount of awards.
  - c. Begin tracking TSAA recipients to better understand graduation and retention rates.
3. Establish the most effective method of using the TSAA reserve.
  - a. Reduce the current reserve of \$13.3 million to an amount equal to approximately 10% of the annual appropriation (\$59.6 million). This targeted amount will be sufficient to cover at least one year’s over-award.
  - b. Increase expenditures by approximately \$2 million per year from the reserve for four years.
  - c. Consider ways to target reserve expenditures to specific students. In developing such an approach, staff must be mindful of T.C.A. 49-4-305 which restricts any attempt to influence a student’s selection of a school.
4. Establish an endowment for need-based financial aid funded from the Operating Fund.
  - a. TSAC will work with the Tennessee Department of Treasury to determine whether statutory creation is necessary and which investment option is best for an endowed scholarship program.
  - b. Transfer approximately \$30-35 million from Operating Fund to establish the endowment.
  - c. TSAC will work with other entities to determine the best means of utilizing these funds.
