

VA PACT ACT

AUGUST 18, 2023

PERFORMANCE DASHBOARD

ISSUE FOURTEEN
Published Bi-weekly on Fridays

In this VA PACT Act Performance Dashboard, we are demonstrating our commitment to transparency by sharing with all stakeholders—internal to VA and externally—key performance metrics and data we are using to assess our success in implementing the PACT Act.

If you, a Veteran, family member, or survivor would like more information about the PACT Act and your VA benefits, please start here:

Highlight

Between August 2 to 6, during the Women's World Cup games, the Department launched a women Veteran focused PACT Act PSA on national and regional spots ranging from Fox Sports and beyond. The PSA encourages women Veterans to learn more about PACT Act services and benefits.

[Watch the PSA here](#) and share with the women Veterans in your life.

Making a Difference Through the PACT Act

During a recent visit to a local Veterans Benefits Administration (VBA) office, a Gulf War-era Veteran learned that his psoriasis is now a presumptive condition under the PACT Act due to burn pit exposure he experienced in Iraq and Saudi Arabia. After receiving a denial for another claim, he resubmitted his benefits claim through the local VBA office and within six weeks, his disability rating was increased to 100%. This has renewed his belief that the VA is here to help Veterans and make the processes faster. He encourages other Veterans to contact the VA for a toxic exposure screening and to apply for VA health care.

VA IS EXPANDING CARE AND BENEFITS FOR VETERANS AND SURVIVORS

The PACT Act is perhaps the largest health care and benefits expansion in VA history. In this section, we are measuring the overall impact of the PACT Act in terms of its expansion of health care and benefits.

Expanding Benefits

- 437,358**
Total Veterans/Survivors with Completed PACT Act Related Claims (08/10/2022–08/12/2023)
- 428,501**
Total Veterans with Completed PACT Act Related Claims
- 8,869**
Total Survivors with Completed PACT Act Related Claims
- 154.2**
Average Days for PACT Act Related Claim Completion (08/12/2023)
- 47.4%**
PACT Act Related Claims Completed <= 125 days (08/12/2023)

- 373,402**
Total PACT Act Claims Approved (08/10/2022–08/12/2023)
- 78.4%**
Approval Rate for PACT Act Related Claims (08/12/2023)

Expanding Care

- 121,176**
New Enrollees from the PACT Act Planning Population (10/01/2022–08/13/2023)

Total New VHA Enrollees: (through 08/13/2023)

90.9%

VA Health Care 90-Day Trust Score (05/14/2023–08/12/2023)

Definition

This metric identifies the unique number of Veterans and Survivors who have filed a PACT Act benefit claim which VBA processed to completion.

This metric identifies the unique number of Veterans who filed a PACT Act benefit claim which VBA processed to completion.

This metric identifies the unique number of Survivors who filed a PACT Act benefit claim which VBA processed to completion.

This trust score reflects the percentage of Veterans who respond to the survey question, "I trust the VHA [Facility Name] for my health care needs" with a score of 4 or 5.

Percentage of PACT act disability claims where at least one condition was granted (regardless of whether or not the condition was filed under PACT).

This metric indicates the length of time it takes VBA to process a PACT Act-related benefits claim. This is measured from the date VA receives a claim to the date VA finished processing the claim and closed it out + 1 day, to eliminate the possibility of claims being completed in 0 days (ex. claim completed on the day it was received).

The Average Days to Complete (ADC) for PACT Act Related Claims is calculated based on the date VA received the claim, not the date VA began processing those claims. VA prioritized and completed some claims related to terminal illnesses, but VA did not begin processing most claims until January 1, 2023. As a result, the current value of ADC is inflated by any time between the date the claim was received and the January 1, 2023 implementation date for processing. The high ADC for PACT claims demonstrates VA's commitment to completing oldest pending claims first.

This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.

This metric identifies the number of completed PACT disability claims where at least one issue was granted.

The PACT Act Planning Population consists of Veterans where VA has a high level of confidence they are a member of one or more of the three PACT Act eligible cohorts (Vietnam, Gulf-War, Post 9-11). VA is using this population as a means of identifying the impact of the PACT Act on enrollment in VA health care.

This statistic measures the number of new enrollees in VA health care that fall within the PACT Act Planning Population to understand the impact of the PACT Act on enrollment. By design, this more focused metric will always be a subset of the metric above that shows overall new enrollment regardless of whether a Veteran is in an eligible PACT Act cohort. Together these two enrollment metrics help identify both the broad impact of PACT Act on enrollment - for example, those who may enroll for VA health care because of the publicity of PACT Act but are not directly eligible because of PACT Act—and the more direct impact of PACT Act—meaning those who are enrolling from populations VA assesses as becoming eligible due to the PACT Act.

This statistic identifies the total new VHA enrollments (newly registered healthcare beneficiaries) for the periods of August 2022-End of Current Month 2023 and August 2021-End of month 2022, for comparative analysis purposes.

This number identifies the change between 2023 and 2022 VHA enrollees during the same time period.

This calendar identifies key activities or outreach events occurring in the coming weeks.

Definition

This statistic identifies the number of Veterans who have received a VHA Toxic Exposure Screening. Every Veteran enrolled in VA health care will receive an initial screening and a follow-up screening at least once every 5 years. Veterans who are not enrolled and who meet eligibility requirements will have an opportunity to enroll and receive the screening.

The screening will ask Veterans if they think they were exposed to any of these hazards while serving: Open burn pits and other airborne hazards, Gulf War-related exposures, Agent Orange Radiation, Camp Lejeune contaminated water exposure and/or Other Exposures.

This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified at least one exposure to toxic substances. It includes the number of Veterans who received the screening, the number of Veterans who identified at least one potential concern related to a toxic substance exposure, and the percentage of responses in which Veterans identified at least one instance of toxic exposure during the screening.

This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified exactly one exposure to toxic substances. Please note the difference from the metric above – the metric above includes Veterans who identified at least one (includes both those who identified one exposure and also those who identified more than one exposure); this metric only includes Veterans who identify exactly one exposure.

This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified more than one exposure to toxic substances. Please note the difference from the metric above—the metric above includes Veterans who identify exactly one potential concern; this metric includes Veterans who identify more than one potential concern.

Priority Groups: When Veterans apply for VA health care, they are assigned to 1 of 8 priority groups that impact how soon they are signed up for health care benefits and how much they may have to pay (if anything) toward the cost of care. To learn more about the factors that impact assignment, please visit <https://www.va.gov/health-care/eligibility/priority-groups>.

This metric identifies the total number of VBA benefit claims with at least one PACT Act-related claimed issue received each week.

This metric identifies the number of VBA benefit claims with at least one PACT Act-related condition completed each week.

This statistic identifies the total number of VBA benefits claims with at least one PACT Act related condition received since August 10, 2022.

This statistic identifies the total number of VBA claims with at least one PACT Act related condition completed since August 10, 2022.

This number identifies the total VBA benefits claims received each week not related to PACT Act.

This number identifies the total VBA benefits claims completed each week not related to PACT Act.

This metric identifies the average number of days it takes VBA to process a PACT Act related benefits claim.

This statistic identifies the current number of VBA benefit claims with one or more PACT Act-related conditions that have been pending for 125 days or less.

This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.

This metric identifies the average number of days it takes VBA to process a Non-PACT Act related benefits claim.

This statistic identifies the current number of pending VBA benefit claims with one or more Non-PACT Act-related conditions less than 125 days old.

This statistic identifies the number of non-PACT VBA benefit claims that have been completed in 125 days or less.

This statistic identifies the cumulative total of VBA benefits claims received since August 10, 2022, which are not related to the PACT Act.

This statistic identifies the cumulative total of VBA benefits claims completed since August 10, 2022, which are not related to the PACT Act.

Total Impressions
 MyVA411 Calls that Access the PACT Act Main Menu (Press 8)
 Total MyVA411 Calls that Access the PACT Act Main Menu (Press 8)

Definition

This statistic identifies the total number of PACT Act advertisements rendered on user screens through digital marketing. The impression is not action-based but is the user potentially seeing the PACT Act advertisement for awareness.
 This statistic identifies the number of calls to 1-800-MyVA411 where callers selected the PACT Act Main Menu (Press 8).
 This statistic identifies the total number of calls received to the automated MyVA411 line (option 8), which provides information about the PACT Act to callers.

Stewardship

Reminder: Stewardship information will be included in every other issue of this dashboard publication (or when updated data is available).

Metric/Term

Full-Time Equivalent Employee (FTE)
 Account
 Permanent Employee
 Term Employee
 Onboarded
 Funds Allocated
 Obligations

Definition

Full-Time Equivalent refers to the total number of regular straight-time hours worked by employees divided by the number of compensable hours applicable to each fiscal year (regular method), or the total regular hours worked in a fiscal year (2,080 hours) divided by 26 biweekly pay periods (pay period method)(as per OMB A-11 Circular § 85.5(c)).
 Account refers to a separate financial reporting unit used by the Federal Government to record budget authority, outlays and income for budgeting or management information purposes as well as for accounting purposes.
 An employee who has been hired under an appointment that is not time delimited.
 An employee for whom the agency has granted a term appointment (of employment) of more than 1 year but usually not more than 4 years.
 Onboards (i.e., the number of personnel encumbering positions) are the number of employees (i.e., headcount) onboard when the data are reported. Note: "Onboards" differ from "FTE," which is a budgetary term based on compensable hours as opposed to headcount. Colloquially, "onboards" refers to newly hired employees who have started work with VA (their hiring is complete).
 The amount of funding provided to each Administration or Staff Office.
 Obligation means a binding agreement that will result in outlays, immediately or in the future.
