

Tennessee Labor Market Report

Bill Lee
Governor

Deniece Thomas
Commissioner

February
2024

Highlights

Pages 1-3: 2022 Small Area Income and Poverty Estimates

Page 4: Tennessee annual average labor force statistics, and February county unemployment rates

Pages 5-6 Monthly Tennessee nonfarm employment, and MSA and city labor force data

Pages 7-10: Monthly nonfarm employment statistics for the four largest MSA's and graphs of the unemployment rates

Page 11: Monthly nonfarm employment for each small MSA in Tennessee

Page 12: Monthly consumer price index and hours and earnings for all workers by industry and production workers in manufacturing, graphs of Tennessee unemployment and labor force participation rates

2022 Small Area Income and Poverty Estimates

The U.S. Census Bureau's Small Area Income and Poverty Estimates program produces single-year estimates of income and poverty for all U.S. states and counties and estimates of school-age children in poverty for all 13,000+ school districts. For states, counties and school districts estimates include the total number of people in poverty and those aged 5 to 17 in families of poverty. Estimates of the number of children under 18 in poverty and median household income are produced for states and counties only, while poverty estimates for those under five years of age are available for states only.

Poverty in States and Counties

According to the 2022 estimates, released in December 2023, 12.6 percent of the U.S. all age population were in poverty. Poverty rates in the states ranged from a low of 7.4 percent in New Hampshire to a high of 19.2 percent in Mississippi. Only 12 states had a poverty rate higher than Tennessee's 13.3 percent.

In America's counties, poverty rates ranged from a low of 3.0 percent in Douglas County, Colorado to a high of 42.4 percent in Corson County, South Dakota. In Tennessee, Williamson County had the lowest poverty rate at 4.1 percent. Only five counties nationwide were lower. Wilson County's 7.2 percent poverty rate was a distant second lowest in Tennessee. Williamson's median household income of \$133,486 was the 13th highest nationally and 51 percent greater than Tennessee's next highest, Wilson County's \$88,462. This \$45,024 disparity is higher than the \$42,965 disparity between 2nd ranked Wilson County and 91st ranked Hardin County.

Lake County was the most impoverished county in Tennessee with a 34.2 percent poverty rate, followed by Hancock County at 27.1 percent. Of Tennessee's 95 coun-

ties, 14 had poverty rates of 20 percent or greater, and 27 counties had rates lower than the 13.3 percent statewide poverty rate.

The poverty rate for the age 17 and under population was higher than that of the all age population for all Tennessee counties except Williamson. The school-age population, age 5-17, experienced poverty at a higher rate than the all age population in all but Williamson, Knox, and Trousdale counties.

Poverty in Tennessee School Districts

Consistent with its county ranking, the Williamson County School District's 2.7 percent was the lowest poverty rate among school-age children who were related to their householder. Germantown Municipal School District (3.4 percent), Arlington Community School District (3.6 percent), and Collierville School District (4.1 percent) – all districts in Shelby County – were the next three lowest. In contrast, the poverty rate for school-age children in the Shelby County School District, the state's largest, was the state's 15th highest at 26.6 percent.

The Metropolitan Nashville Public School District, the 2nd largest, had a poverty rate of 20.3 percent for school-age children. The Knox County School District and Hamilton County School District are the next largest and had poverty rates of 11.1 percent and 15.8 percent, respectively. The Newport City School District in Cocke County had the highest poverty rate for school-age children at 45.2 percent. Of the state's 141 public school districts, 45 had a poverty rate lower than the Tennessee's 16.7 percent age 5-17 poverty rate.

Williamson County	2.5%
Meigs, Perry, & Cocke County	5.7%

The data from all the nonfarm employment estimates tables include all full- and part-time nonfarm wage and salary employees who worked during or received pay for any part of the pay period that includes the 12th of the month. This is a count of jobs by place of work. Agricultural workers, proprietors, self-employed persons, workers in private households, and unpaid family workers are excluded. These numbers may not add due to rounding. Data are based on the 2021 benchmark.
